## **Farms And Farmers In An Urban Age:**

*Farms and Farmers in an Urban Age* Edward Counselman Higbee, 1963 Professor Higbee has presented in this volume a picture of the modern farmer different from that which comes down to us from traditional observers It is different also from that held by most of those shaping today's government policy and by many agricultural economists We believe it is one nevertheless which deserves careful consideration in various quarters and not least by farmers themselves Today's farmer Professor Higbee argues is essentially a new man His work and outlook have been shaped by conditions which did not exist in previous generations A remnant still carries forward the old ways and traditions and government policy is largely shaped with the idea of supporting and sustaining this group But the benefits of such a policy actually go preponderantly to the new farmer who is a capitalist frequently operating on a large scale and more in tune with an urban than a rural society Foreword

*Farms and Farmers in an Urban Age* Edward Counselman 1910- Higbee, 2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **Farms and Farmers in an Urban Age**

Edward Higbee, 1963 *Farms and Farmers in an Urban Age* Edward Higbee, Twentieth Century Fund, 1973 *Farm Population of the United States* Leon Edgar Truesdell, 1926 *Insects, Experts, and the Insecticide Crisis* John H. Perkins, 2012-12-06 Science and technology are cultural phenomena Expert knowledge is generated amid the conflicts of a society and in turn supplies fuel to fire yet further change and new clashes This essay on economic entomology is a case study on how cultural events and forces affected the creation of scientific and technical knowledge The time period emphasized is 1945 to 1980 My initial premises for selecting relevant data for the story were ultimately not of much use Virtually all debates about insect control since 1945 have been centered around the environmental and health hazards associated with insecticides My first but inadequate conclusion was that the center of interest lay between those who defended the chemicals and those who advocated the use of nonchemical control methods With this formulation of the problem I was drawn to an analysis of how the chemical manufacturers had managed to dominate and even corrupt the work of entomological scientists farmers members of Congress and regulators in the USDA and EPA My own contributions to a policy study at the National Academy of Sciences were based 1 on this premise More recently Robert van den Bosch developed the 2 corruption theme in considerable detail **Hearings, Reports and Prints of the House Committee on**
