Industrialisation and Rural Livelihoods in China Susanne Lingohr-Wolf, 2013-05-13 Since the mid 1990s agricultural industrialisation AI has been advocated in China to promote rural development by integrating agriculture with the post harvest sectors such as agro processing and marketing Large scale Dragon head enterprises DHEs and various forms of rural household associations RAs have been particularly promoted as AI organisational models Drawing on the case study of the sweet potato sector in Sichuan Province this book investigates their impact on rural livelihoods Lingohr Wolf analyses the forms of household linkages with AI organisations the underlying household incentives to diversify both labour and agricultural production towards AI and the developmental benefits and potential constraints that shape such rural involvement By taking a rural household perspective on livelihood diversification the analysis provides new insights into the links between rural household involvement in AI and the achievement of development objectives It reveals that although there are significant beneficial effects a number of challenges such as entry barriers and imbalances in bargaining power still need to be addressed to improve the positive impact of AI for rural development in China As the first authoritative analysis of AI in China this book is an essential read for scholars interested in economic development in China and rural development and agricultural economics more generally Two Decades of Market Reform in India Sudipta Bhattacharyya, 2013-12-15 Have neoliberal policies truly yielded beneficial effects for India Two Decades of Market Reform in India presents a collection of essays that challenge the conventional wisdom of Indian market reforms examining the effects of neoliberal policies enacted by the Indian government and exploding the myths that surround them In particular the volume questions the perceived benefits of India's reform policies in the areas of growth agriculture industry and poverty alleviation and examines how the government's focus on preventing a fiscal deficit caused a large scale decline in development expenditures which in turn has had a negative impact on the well being of the poor With its rich and insightful analysis Two Decades of Market Reform in India bravely shines a light on the true implications of India's neoliberal governmental policies and provides a revealing indication of how policy reform since 1991 has at times detrimentally affected the general populace of India

transition into contemporary urban political economy through rent Arguing for a Better World Polly Vizard, Mary Kaldor, 2011-12-15 The publication will reflect Lord Desai s work in diverse fields of the social sciences economics philosophy political science as well as his passionate commitment to the freedom and wellbeing of individuals and his optimism about human progress and globalisation Reinventing India Stuart Corbridge, John Harriss, 2013-05-28 When India was invented as a modern country in the years after Independence in 1947 it styled itself as a secular federal democratic Republic committed to an ideology of development Nehru s India never quite fulfilled this promise but more recently his vision of India has been challenged by two revolts of the elites those of economic liberalization and Hindu nationalism These revolts have been challenged in turn by various movements including those of India's Backward Classes These movements have exploited the democratic spaces of India both to challenge for power and to contest prevailing accounts of politics the state and modernity Reinventing India offers an analytical account of the history of modern India and of its contemporary reinvention Part One traces India s transformation under colonial rule and the ideas and social forces which underlay the deliberations of the Constituent Assembly in 1946 to consider the shaping of the post colonial state Part Two then narrates the story of the making and unmaking of this modern India in the period from 1950 to the present day It pays attention to both economic and political developments and engages with the interpretations of India's recent history through key writers such as Francine Frankel Sudipta Kaviraj and Partha Chatterjee Part Three consists of chapters on the dialectics of economic reform religion the politics of Hindu nationalism and on popular democracy These chapters articulate a distinct position on the state and society in India at the end of the century and they allow the authors to engage with the key debates which concern public intellectuals in contemporary India Reinventing India is a lucid and eminently readable account of the transformations which are shaking India more than fifty years after Independence It will be welcomed by all students of South Asia and will be of interest to students of comparative politics and development studies Asia in Europe, Europe in Asia Srilata Ravi, Mario Rutten, Beng-Lan Goh, 2004-06-30 The book presents a unique combination of the study of contemporary and historical practices between Asia and Europe and brings forth some of the latest thinking on the subject Recent debates have centered primarily on contemporary aspects of the Europe Asia partnership in terms of international relations and economic linkages The present volume complements this political and economic interest in Europe Asia relationship by focusing on the academic social and cultural connections between the two regions The contributions in this volume have a contemporary focus but contextualize the themes within a historical perspective They deal with academic discourses on the region on modernity and entrepreneurship they discuss the long term exchange of knowledge in specific scientific fields and they focus on the cultural interconnections in the area of film literature and migration The originality of this book lies in its interdisciplinary approach to the question of Asia Europe and in its emphasis on the multifaceted complexity of the relationship between these two regions It brings together the diversity of local histories ideas and agencies in both Europe

and Asia into a universal project of knowledge formation in order to reveal their contribution to the making of the world we India's Villages in the 21st Century Surinder S. Jodhka, Edward Simpson, 2019-09-05 Post India's economic are in liberalization in the 1990s the village ceased to be central to ongoing sociological concerns As a result the period saw a marginalization of rural life and agrarian economy in the national imagination However in the 21st century as India transforms so does its rural life This book revisits the realities of contemporary rural India exploring the trajectories of change across regions such as those in rural economies the relationship of villages to the outside world and the dynamics of caste inequalities. The volume puts together 14 papers based on empirical studies carried out by sociologists social anthropologists and economists over the past 15 years to begin a holistic conversation on contemporary rural India which continues to be an important site of social political and economic activities India's Villages in the 21st Century stresses diversity as a fundamental structure of Indian economy and society and illustrates the point by focusing on the economies patterns of settlements and organization of social and political life in India s villages Milk Culture in Eurasia Masahiro Hirata, 2020-03-16 The invention of milking and milk use created a new mode of subsistence called pastoralism On rangelands across Eurasia pastoralists subsist by extensive animal husbandry and by processing their animals milk Based on the author's fieldwork over more than two decades this book details the processing systems and uses of milk observed in pastoralist and farm households in West Asia South Asia North Asia Central Asia the Tibetan Plateau and Europe and the Caucasus Milk culture in each region is characterized by its processing technology and use of milk and characteristics common to wider geographical spheres are identified Inclusion of case studies from the literature expands the continent wide perspective and provides further indications of how milk culture developed and diffused historically The inferences drawn are expressed in the author's monogenesis bipolarization hypothesis of Eurasian milk culture that milking and milk processing had a single center of origin in West Asia and that the technology involved the spread from there across the continent developing distinct characteristics in northern and southern spheres Finally because milk culture underpins pastoralism as a mode of subsistence the typology and theory of pastoralism are re examined from the standpoint of milk culture Villages, Women, and the Success of Dairy Cooperatives in India Pratyusha Basu, 2009 India s cooperative dairying program is widely celebrated as an example of successful rural development yet the meanings of this success have been understood mainly through the pronouncements of national and international development agencies Within such official narratives there has been relatively little engagement with the geographies of dairy development both its place specific productions through political contests availabilities of labor and distributions of agricultural resources and the unevenness of its outcomes across rural India This absence is even more surprising given that village level cooperatives comprise the foundation of India's dairy development program and the work of women within rural households is continuously invoked as an integral part of the dairy work This book extends and enriches current understandings of cooperative dairying in India to

show both its value to rural communities as well as the limitations of its participatory structures Combining comparative and ethnographic approaches explanations for the diverse outcomes of cooperative dairying are provided from the perspective of the people and places directly involved in the everyday reproductions of rural development This book contributes to existing understandings of rural development and rural geographies in four significant ways First by following histories of development from their local origins to their national and international appearances the global genealogies that are usually attached to development are rendered more complex Second by connecting cooperatives to place the ways in which participation in development reflects local struggles for power and hence are structured through local inequalities is revealed Third by linking dairying and agriculture the continuing importance of resource distributions in shaping the outcomes of rural development is highlighted Finally the crucial role of household divisions of labor in the success of village dairy cooperatives is explicated through showing how struggles over the meanings of rural women s work become key to enabling household level participation in dairying This book will be of interest to scholars in a wide range of disciplinary and interdisciplinary fields including geography sociology anthropology rural studies development studies gender studies and regional studies of India The Regional Roots of Developmental Politics in India Aseema Sinha, 2005-04-14 A comparative chapter applies the model to data from China Brazil Russia and the former Soviet Union **Interviewing** James Holstein, Jaber F. Gubrium, 2003-03-21 Inside Interviewing highlights the fluctuating and diverse moral worlds put into place during interview research when gender race culture and other subject positions are brought narratively to the foreground It explores the facts thoughts feelings and perspectives of respondents and how this impacts on the The Changing Identity of Rural India Elisabetta Basile, Ishita Mukhopadhyay, 2009 The book research process explores the pattern of rural development in contemporary India from a multidisciplinary and historical perspective The essays overcome the limits of disciplinary approaches to provide a comprehensive analysis of the processes of change and growth at work in the Indian countryside and to review the social and cultural dynamics that have led to the contemporary situation Providing an analysis of the economic political and social changes experienced in rural India they examine the interactions between actors and institutions at different levels Some contributions focus on the impact of state policies on rural development and on the rationale of capitalistic expansion in the Indian countryside while others analyse how the changes are promoted adopted and resisted at the local level The general issue raised in the book refers to the assessment of the nature and working of contemporary Indian rural economy In order to analyse the complexity of the rural economy and the forms it takes in different Indian contexts this issue has been deconstructed considering in turn the process of rural change the impact of rural growth on working and living conditions and finally the categories of the inhabitants of rural areas and the construction of their identities in colonial and post colonial rural India Agrarian Modernity and Development in India Shibsankar Jena, 2023-11-21 The social science discourse on the power of modernity and its everyday negotiation with

tradition and locality in India has been a matter of continuous debate and discussion among academicians since the colonial era By taking agriculture as a special field of investigation this book describes the condition of modernity in the agrarian social system of contemporary India Farming is not only an economic activity but also a personality formation where status plays a significant role in Indian society Taking culture and social status as the two important variables in the local agriculture as performance this book develops a sociology of knowledge approach towards agrarian modernity and development in postcolonial India Capitalist Development in India's Informal Economy Elisabetta Basile, 2013-06-07 This book explores the economy and society of Provincial India in the post Green Revolution period It argues that the low quality of capital development in India's villages and small towns is the joint outcome of the informal economic organisation that is strongly biased in favour of capital and of the complex stratification of the workforce along class and caste lines Focusing on the processes of growth induced by the introduction of the high yield varieties in agriculture the book demonstrates that a low road pattern of capitalist development has been emerging in provincial India firms compete over price and not over efficiency with a constant pressure to reduce costs in particular labour costs The book shows that low skilled employment prevails and low wages and poor working conditions are widespread Based on original empirical research the book makes a valuable contribution to the debate on varieties of capitalism in particular of the Global South It is of interest to academics working in the fields of Development Studies Political Economy and South Asian Studies

Customary Rights of Farmers in Neoliberal India Sophy K. Joseph, 2020-02-14 The Protection of Plant Varieties and Farmer's Rights Act 2001 promises to balance the intellectual property rights of plant breeders and farmers under one umbrella legislation However there remain several grey areas and the rights of farmers in reality are still tenuous Though the rights framework was foregrounded on an understanding between non governmental organizations and industry there is lack of clarity at both conceptual and procedural levels In this context Sophy K Joseph analyses the impact of legal policy reforms during the ongoing Second Green Revolution on farmers customary rights and livelihood The author discusses how the extension of private property rights to plant varieties seeds and other agrarian resources changed the demographic composition of the rural space with increased migration of cultivators to the cities The book argues that the transition from state interventionism during the First Green Revolution to state abstention in the Second Green Revolution has dramatically influenced India's conventional agrarian practices and traditions This work maps the evolutionary process of neoliberal economic and legal policies and its interference with primary concerns such as food security food sovereignty and agrarian self reliance of the country The Oxford Handbook of Caste, 2023-10-31 Beginning with the 1990s the subject of caste has seen a profound increase in interest among scholars What was until then approached as a fossilized tradition of the ritual obsessed Hindus refusing to see the progressive spirits of the emerging world and studied as a branch of anthropology suddenly began to be seen as a complex reality deeply embedded in a range of institutions and social practices attracting

scholars from a wide range of disciplines sociology political science history literature and even economics Underlying this opening of the subject of caste were many factors epistemic empirical and political Caste is no longer approached through the classical binaries of traditional and modern the East and the West or the closed and open systems of stratification With the growing consolidation of caste based identities among those ranked lower down in the hierarchy since the 1990s raising questions of citizenship and dignity the subject has acquired a new salience As the emerging research shows the realities of caste on the ground have always been diverse across regions often contested and ever changing This Handbook presents a wide range of essays written by authors representing diverse academic disciplines and perspectives bringing together the emerging trends in the research imaginations and lived realities of caste Footloose Labour Jan Breman, 1996-09-13 In a penetrating anthropological study of the working poor in India Jan Breman examines the lives of those who pushed out of the agrarian labour market depend on casual work Beginning his local level research in two villages in south Gujarat the author discusses the mobilisation of casual labour which is hired and fired according to the need of the moment and transferred for the duration of the job to destinations far away from the home area His case study reveals that the circulation of labour is indicative of an employment pattern which dominates both the rural and urban economy of large parts of South Asia Elaborating on the social profile of the work migrants the author argues that their identity is shaped by both class and caste relations and despite action by state agencies nothing of significance has been achieved to improve their quality of life

Gubrium, James A. Holstein, 2002 The Handbook of Interview Research is the most ambitious attempt yet at examining the place of the interview in contemporary society Interviewing is the predominant mode of research in the social sciences It s also the stock in trade of information seekers in organizations and institutions of all kinds as well as in the mass media Across the board interviews provide today s leading window on the world of experience The Handbook offers a comprehensive examination of the interview at the cutting edge of information technology Drawing upon leading experts from a wide range of professional disciplines this book addresses conceptual and technical challenges that confront both academic researchers and interviewers with more applied goals From

interview theory to the nuts and bolts of the interview process the coverage is impressively broad and authoritative The Handbook of Interview Research is both encyclopedic and thematic As an encyclopedia it provides extensive discussions of the methodological issues now surrounding interview practice offering a multi faceted assessment of what has become the method of choice for obtaining personal information in today s society But the Handbook also is a story which spins a particular tale of interviewing one that moves from the commonly recognized individual interview to what is called the interview society The gist of the presentation is that we can no longer regard the interview as simply an instrument for gathering data but must now also view it an integral part of society
