## **Farther Vision Educational Television Today:**

*The Farther Vision* Allen E. Koenig, Ruane B. Hill, 1969      **The Farther Vision. Educational Television Today. Edited by Allen E. Koenig and Ruane B. Hill. [By Various Authors.].** Allen E. KOENIG (and HILL (Ruane B.)), Ruane B. HILL, 1967      Organizing Educational Broadcasting David Hawkrigde, John Robinson, 2023-02-03 First published in 1982

Organizing Educational Broadcasting provides advice and guidance in organizational and managerial skills for those responsible for the operation of educational broadcasting systems It is principally designed for those who actually work within educational radio and television systems They are the people who perhaps stand to gain most by reading about international case studies In addition high level decision makers planners and others who are concerned with conceptualizing planning and implementing new systems or more likely modifying old ones will find much to interest them      **Hearings, Reports and Prints of the House Committee on Education and Labor** United States. Congress. House. Committee on Education and Labor, 1972      Encyclopedia of Radio 3-Volume Set Christopher H. Sterling, 2004-03 Produced in association with the Museum of Broadcast Communications in Chicago the Encyclopedia of Radio includes more than 600 entries covering major countries and regions of the world as well as specific programs and people networks and organizations regulation and policies audience research and radio s technology This encyclopedic work will be the first broadly conceived reference source on a medium that is now nearly eighty years old with essays that provide essential information on the subject as well as comment on the significance of the particular person organization or topic being examined      **The Vanishing Vision** James Day, 2023-04-28 This spirited history of public television offers an insider s account of its topsy turvy forty year odyssey James Day a founder of San Francisco s KQED and a past president of New York s WNET provides a vivid and often amusing behind the screens history Day tells how a program producer desperate to locate a family willing to live with television cameras for seven months borrowed a dime and a suggestion from a blind date and telephoned the Louds of Santa Barbara The result was the mesmerizing twelve hour documentary *An American Family* Day relates how Big Bird and his friends were created to spice up Sesame Street when test runs showed a flagging interest in the program s live action segments And he describes how Frieda Hennock the first woman appointed to the FCC overpowered the resistance of her male colleagues to lay the foundation for public television Day identifies the particular forces that have shaped public television and produced a Byzantine bureaucracy kept on a leash by an untrusting Congress with a fragmented leadership that lacks a clearly defined mission in today s multimedia environment Day calls for a bold rethinking of public television s mission advocating a system that is adequately funded independent of government and capable of countering commercial television s lowest common denominator approach with a full range of substantive programs comedy as well as culture entertainment as well as information This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on

a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1995      **Public Television** William Hawes,1996 KUHT TV in Houston Texas was the first non commercial educational television station This is the story of its development and struggle for survival      *Recovering a Public Vision for Public Television* Glenda R. Balas,2003 In 1995 US public television faced possible elimination of federal funding potentially commercialising this type of broadcasting This study suggests that these strains have undermined public broadcasting historically the result is that programming no longer prioritises social reform

*Research in Education* ,1968-07      **Educational Television International** ,1970      **Resources in Education** ,1982  
Serves as an index to Eric reports microform      *Public Health Service Publication* ,1969      *Training Methodology: Audiovisual theory, aids, and equipment* ,1969      Publications Issued by the Public Health Service United States. Public Health Service,1969      The Concise Encyclopedia of American Radio Christopher H. Sterling,Cary O'Dell,2010-04-12 The

Concise Encyclopedia of American Radio is an essential single volume reference guide to this vital and evolving medium Comprised of more than 300 entries spanning the invention of radio to the Internet this reference work addresses personalities music genres regulations technology programming and stations the golden age of radio and other topics relating to radio broadcasting throughout its history The entries are updated throughout and the volume includes nine new entries on topics ranging from podcasting to the decline of radio      **Blue Book** ,1981      **The Evolution of American Educational Technology** Paul Saettler,2004-03-01 The primary purpose of this book is to trace the theoretical methodological foundations of American educational technology It must be emphasized that this work is essentially as history of the process of educational technology rather than of products in the form of devices or media Although media have played an important role in educational technology the reader should not lose sight of the central process which characterizes and underlies the true historical meaning and function of educational technology Moreover the assumption is made that all current theory methodology and practice rests upon the heritage of the past Indeed a common problem in the field has been the failure in many instances to take adequate account of past history in planning for the present or the future A related purpose of this book is to provide a selective survey of research in educational technology as it relates to the American public schools Such research reviews are not intended to be comprehensive but were included because of their historical importance and their relevance in understanding the process of educational technology      **Summary of Major Legislative**

**Action of the Committee on Education and Labor, U.S. House of Representatives, 92d Congress** ,1973      **To Serve the Public Interest** Robert J. Blakely,1979      *Mass Communications Research Resources* Christopher H. Sterling,James K. Bracken,Susan B. Hill,2016-05-06 This reference book is designed as a road map for researchers who need to find specific information about American mass communication as expeditiously as possible Taking a topical approach it integrates publications and organizations into subject focused chapters for easy user reference The editors define mass communication

to include print journalism and electronic media and the processes by which they communicate messages to their audiences Included are newspaper magazine radio television cable and newer electronic media industries Within that definition this volume offers an indexed inventory of more than 1 400 resources on most aspects of American mass communication history technology economics content audience research policy and regulation The material featured represents the carefully considered judgment of three experts two of them librarians plus four contributors from different industry venues The primary focus is on the domestic American print and electronic media industries Although there is no claim to a complete census of all materials on print journalism and electronic media what is available is now too vast for any single guide the most important and useful items are here The emphasis is on material published since 1980 though useful older resources are included as well Each chapter is designed to stand alone providing the most important and useful resources of a primary nature organizations and documents as well as secondary books and reports In addition online resources and internet citations are included where possible
