Buying Power Lawrence B. Glickman, 2009-06-10 A definitive history of consumer activism Buying Power traces the lineage of this political tradition back to our nation s founding revealing that Americans used purchasing power to support causes and punish enemies long before the word boycott even entered our lexicon Taking the Boston Tea Party as his starting point Lawrence Glickman argues that the rejection of British imports by revolutionary patriots inaugurated a continuous series of consumer boycotts campaigns for safe and ethical consumption and efforts to make goods more broadly accessible He explores abolitionist led efforts to eschew slave made goods African American consumer campaigns against Jim Crow a 1930s refusal of silk from fascist Japan and emerging contemporary movements like slow food Uncovering previously unknown episodes and analyzing famous events from a fresh perspective Glickman illuminates moments when consumer activism intersected with political and civil rights movements He also sheds new light on activists relationship with the consumer movement which gave rise to lobbies like the National Consumers League and Consumers Union as well as ill fated legislation to create a federal Consumer Protection Agency *Consuming Power* David E. Nye, 1999-02-18 Nye uses energy as a touchstone to examine the lives of ordinary people engaged in normal activities How did the United States become the world s largest consumer of energy David Nye shows that this is less a question about the development of technology than it is a question about the development of culture In Consuming Power Nye uses energy as a touchstone to examine the lives of ordinary people engaged in normal activities He looks at how these activities changed as new energy systems were constructed from colonial times to recent years He also shows how as Americans incorporated new machines and processes into their lives they became ensnared in power systems that were not easily changed they made choices about the conduct of their lives and those choices accumulated to produce a consuming culture Nye examines a sequence of large systems that

acquired and then lost technological momentum over the course of American history including water power steam power electricity the internal combustion engine atomic power and computerization He shows how each system became part of a larger set of social constructions through its links to the home the factory and the city The result is a social history of America as seen through the lens of energy consumption

Social Functions of Literature Paul Debreczeny, 1997 This study of the effect of literature on readers both as individuals and as members of social groups focuses on Russia's national poet Alexander Pushkin as a model for investigating the aesthetic and social functions of literature The individual reader's response to the literary text is demonstrated in Part One through a broad range of memoirs diaries and correspondences in which Russian readers recorded their reactions to Pushkin Among the reactions are testimonies that Pushkin's works helped readers form their personalities provided cathartic relief in times of stress and aided them in releasing their suppressed emotions In his analysis the author draws on various psychological approaches from studies of perception through developmental psychology to psychoanalysis Part Two exposes the extent to which individuals' aesthetic responses are conditioned by their social environment Against the backdrop of Russian social history in the early nineteenth century the author describes the dissemination of new aesthetic norms notably the relations of the Russian literary elite to lowbrow and middlebrow groups In this context he analyzes a number of Pushkin imitations with Pushkin's responses to them and links Nikolai Gogol's development as a writer to the social groups surrounding Pushkin Among the other topics discussed are the popularization of Pushkin on the stage and his inclusion in school textbooks and anthologies The aura surrounding the personality of an author is the subject of Part Three in which the author shows how Pushkin's death in a duel with a foreigner contributed to his emergence as a symbol of the Russian nation and how deep seated anxiety about national identity gave rise to the Pushkin myth and to the canonization of the poet as martyr The author also describes how the combined effect of the widespread reading of Pushkin's work and his legend as martyr allowed him to remain Russia's main mythic figure despite the Soviet Union's attempts to supplant him with Lenin Throughout the book theoretical arguments are buttressed by close readings of Pushkin's works especially *The Prisoner of the Caucasus* *Eugene Onegin* *Poltava* *Egyptian Nights* and several lyric poems

China Made Karl Gerth, 2020-05-11 Chinese people should consume Chinese products This slogan was the catchphrase of a movement in early twentieth century China that sought to link consumption and nationalism by instilling a concept of China as a modern nation with its own national products From fashions in clothing to food additives from museums to department stores from product fairs to advertising this movement influenced all aspects of China's burgeoning consumer culture Anti imperialist boycotts commemorations of national humiliations exhibitions of Chinese products the vilification of treasonous consumers and the promotion of Chinese captains of industry helped enforce nationalistic consumption and spread the message patriotic Chinese bought goods made of Chinese materials by Chinese workers in factories owned and run by Chinese In *China Made* Karl Gerth argues that two key forces shaping the modern world

nationalism and consumerism developed in tandem in China Early in the twentieth century nationalism branded every commodity as either Chinese or foreign and consumer culture became the place where the notion of nationality was articulated institutionalized and practiced Based on Chinese Japanese and English language archives magazines newspapers and books this first exploration of the historical ties between nationalism and consumerism reinterprets fundamental aspects of modern Chinese history and suggests ways of discerning such ties in all modern nations **Consumers' Imperium**
