## **Fashion Culture And Identity:**

**Fashion, Culture, and Identity** Fred Davis, 1994-09 Drawing on interviews with designers and fashion editors Davis shows in this provocative look at what we do with our clothes how our ambivalent world reveals itself through fashion He sets out to answer questions such as what do our clothes say about who we are or who we think we are and how does the way we dress communicate messages about our identities and demonstrates that much of what we assume to be individual preference really reflects deeper social and cultural forces characterised by tensions over gender roles social status and the expression of sexuality

**Fashion, Culture, and Identity** Fred Davis, 1992-10-01 What do our clothes say about who we are or who we think we are How does the way we dress communicate messages about our identity Is the desire to be in fashion universal or is it unique to Western culture How do fashions change These are just a few of the intriguing questions Fred Davis sets out to answer in this provocative look at what we do with our clothes and what they can do to us Much of what we assume to be individual preference Davis shows really reflects deeper social and cultural forces Ours is an ambivalent social world characterized by tensions over gender roles social status and the expression of sexuality Predicting what people will wear becomes a risky gamble when the link between private self and public persona can be so unstable

Fashioning Identity Maria Mackinney-Valentin,2017-02-09 We dress to communicate who we are or who we would like others to think we are telling seductive fashion narratives through our adornment Yet today fashion has been democratized through high low collaborations social media and real time fashion mediation complicating the basic dynamic of identity displays and creating tension between personal statements and social performances Fashioning Identity explores how this tension is performed through fashion production and consumption by examining a diverse series of case studies from ninety year old fashion icons to the paradoxical rebellion in normcore and from soccer jerseys in Kenya to heavy metal band T shirts in Europe Through these cases the role of time gender age memory novelty copying the body and resistance are considered within the context of the contemporary fashion scene Offering a fresh approach to the subject by readdressing Fred Davis seminal concept of identity ambivalence in Fashion Culture and Identity 1992 Mackinney Valentin argues that we are in an epoch of status ambivalence in which fashioning one s own identity has become increasingly complicated

**Fashion and Its Social Agendas** Diana Crane,2012-06-12 It has long been said that clothes make the man or woman but is it still true today If so

how has the information clothes convey changed over the years Using a wide range of historical and contemporary materials Diana Crane demonstrates how the social significance of clothing has been transformed Crane compares nineteenth century societies France and the United States where social class was the most salient aspect of social identity signified in clothing with late twentieth century America where lifestyle gender sexual orientation age and ethnicity are more meaningful to individuals in constructing their wardrobes Today clothes worn at work signify social class but leisure clothes convey meanings ranging from trite to political In today s multicode societies clothes inhibit as well as facilitate communication between highly fragmented social groups Crane extends her comparison by showing how nineteenth century French designers created fashions that suited lifestyles of Paris elites but that were also widely adopted outside France By contrast today s designers operate in a global marketplace shaped by television film and popular music No longer confined to elites trendsetters are drawn from many social groups and most trends have short trajectories To assess the impact of fashion on women Crane uses voices of college aged and middle aged women who took part in focus groups These discussions yield fascinating information about women s perceptions of female identity and sexuality in the fashion industry An absorbing work *Fashion and Its Social Agendas* stands out as a critical study of gender fashion and consumer culture Why do people dress the way they do How does clothing contribute to a person s identity as a man or woman as a white collar professional or blue collar worker as a preppie yuppie or nerd How is it that dress no longer denotes social class so much as lifestyle Intelligent and informative this book proposes thoughtful answers to some of these questions Library Journal
