Fast Food The Endless Shakeout:

Fast Food Robert L. Emerson, 1982 **Fast Food and Junk Food** Andrew F. Smith, 2011-12-02 This fascinating and revealing work examines the incredible power of junk food and fast food how nostalgic we are about them the influence of the companies that manufacture or sell them and their alarming effect on our country's state of health In the last half century junk food and fast food have come to play an extremely important role in American economic historical cultural and social life Today they have a major influence on what Americans eat and how healthy we are or aren't *Fast Food and Junk Food* An Encyclopedia of What We Love to Eat tells the intriguing fun and incredible stories behind the successes of these commercial food products and documents the numerous health related environmental cultural and politico economic issues associated with them With more than 700 alphabetically arranged entries this two volume encyclopedia contains enough listings to allow readers to research a wide range of fascinating topics The author treats the massive amount of subject material within this reference title in a fair and balanced manner A secondary focus of this encyclopedia is to chart the spread of some American fast food chains and commercially produced junk foods internationally *Fast Food* John A. Jakle, Keith A. Sculle, 2002 The authors contemplate the origins architecture and commercial growth of wayside eateries in the US over the past 100 years *Fast Food* examines the impact of the automobile on the restaurant business and offers an account of roadside dining **Making Fast Food** Ester Reiter, 1996 Some say the adventurous days of grueling and dangerous scientific exploration are long gone but Reiter sociology Brock U undertook a 10 month trek without pay into the uncharted wilds of a Burger King kitchen to bring us first hand accounts of the strange and marvellous customs of the natives The illustrations are hilarious Annotation copyrighted by Book News Inc Portland OR **Fast Food** Andrew F. Smith, 2016-04-15 The single most influential culinary trend of our time is fast food It has spawned an industry that has changed eating the most fundamental of human activities From the first flipping of burgers in tiny shacks in the western United States to the forging of neon signs that spell out Pizza Hut in Cyrillic or Arabic scripts the fast food industry has exploded into dominance becoming one of the leading examples of global corporate success And with this success it has become one of the largest targets of political criticism blamed for widespread obesity cultural erasure oppressive labor practices and environmental destruction on massive scales In this book expert culinary historian Andrew F Smith explores why the fast food industry has been so successful and examines the myriad ethical lines it has crossed to become so As he shows fast food plain and simple devised a perfect retail model one that works everywhere providing highly flavored calories with speed economy and convenience But there is no such thing as a free lunch they say and the costs with fast food have been enormous an assault on proper nutrition a minimum wage labor standard and a powerful pressure on farmers and ranchers to deploy some of the worst agricultural practices in history As Smith shows we have long known about these problems and the fast food industry for nearly all of its existence has been beset with scathing exposés boycotts protests and government interventions which it has sometimes met

with real changes but more often with token gestures blame passing and an unrelenting gauntlet of lawyers and lobbyists Fast Food ultimately looks at food as a business an examination of the industry s options and those of consumers and a serious inquiry into what society can do to ameliorate the problems this cheap and tasty product has created ,

Encyclopedia of Junk Food and Fast Food Andrew F. Smith, 2006-08-30 Eating junk food and fast food is a great all American passion American kids and grownups love their candy bars Big Macs and supersized fries Doritos Twinkies and Good Humor ice cream bars The disastrous health effects from the enormous appetite for these processed fat and sugar loaded foods are well publicized now This was particularly dramatically evidenced by Super Size Me 2004 filmmaker Morgan Spurlock s 30 day all McDonald s diet in which his liver suffered the same poisoning as if he had been on an extended alcohol binge Through increased globalization American popular food culture is being increasingly emulated elsewhere in the world such as China with the potential for similar disastrous consequences This A to Z reference is the first to focus on the junk food and fast food phenomena from a multitude of angles in addition to health and diet concerns More than 250 essay entries objectively explore the scope of the topics to illuminate the American way through products corporations and entrepreneurs social history popular culture organizations issues politics commercialism and consumerism and much more Interest in these topics is high This informative and fascinating work with entries on current controversies such as mad cow disease and factory farming the food pyramid movie tie ins and marketing to children will be highly useful for reports research and browsing It takes readers behind the scenes examining the significance of such things as uniforms training packaging and franchising Readers of every age will also enjoy the nostalgia factor learning about the background of iconic drive ins the story behind the mascots facts about their favorite candy bar and collectables Each entry ends with suggested reading Besides an introduction a timeline glossary bibliography resource guide and photos enhance the text Sample entries A Advertising Automobiles Ben Burger King Carhops Center for Science in the Public Interest Christmas Cola Wars Employment Fair Food Fast Food Nation Hershey Milton Hollywood Injury Krispy Kreme Lobbying Nabisco Obesity PepsiCo Salt Soda Fountain Teen Hangouts Vegetarianism White Castle Yum Brands Inc On the Job Craig Heron, 1986-01-01 The essays in this volume enhance our understanding of Canadians on the job Focusing on specific industries and kinds of work from logging and longshoring to restaurant work and the needle trades the contributors consider such issues as job skill mass production and the transformation of resource industries They raise questions about how particular jobs are structured and changed over time the role of workers resistance and trade unions in shaping the lives of workers and the impact of technology Together these essays clarify a fundamental characteristic shared by all labour processes they are shaped and conditioned by the social economic and political struggles of labour and capital both inside and outside the workplace They argue that technological change as well as all the transformations in the workplace must become a social process that we all control Selling 'em by the Sack David G. food is disproportionately located in Black neighborhoods and marketed to Black Americans through targeted advertising. But throughout much of the twentieth century fast food was developed specifically for White urban and suburban customers purposefully avoiding Black spaces. In *White Burgers Black Cash* Naa Oyo A Kwate traces the evolution in fast food from the early 1900s to the present from its long history of racist exclusion to its current damaging embrace of urban Black communities. Fast food has historically been tied to the country's self image as the land of opportunity and is marketed as one of life's simple pleasures but a more insidious history lies at the industry's core. *White Burgers Black Cash* investigates the complex trajectory of restaurant locations from a decided commitment to Whiteness to the disproportionate densities that characterize Black communities today. Kwate expansively charts fast food's racial and spatial transformation and centers the cities of Chicago, New York City and Washington D C in a national examination of the biggest brands of today including White Castle, KFC, Burger King, McDonald's and more. Deeply researched, compellingly told and brimming with surprising details, *White Burgers Black Cash* reveals the inequalities embedded in America's popular national food tradition. [The Routledge History of Food](#) Carol Helstosky, 2014-10-03 The history of food is one of the fastest growing areas of historical investigation incorporating methods and theories from cultural, social and women's history while forging a unique perspective on the past. The Routledge History of Food takes a global approach to this topic focusing on the period from 1500 to the present day. Arranged chronologically, this title contains 17 originally commissioned chapters by experts in food history or related topics. Each chapter focuses on a particular theme, idea or issue in the history of food. The case studies discussed in these essays illuminate the more general trends of the period providing the reader with insight into the large scale and dramatic changes in food history through an understanding of how these developments sprang from a specific geographic and historical context. Examining the history of economic, technological and cultural interactions between cultures and charting the corresponding developments in food history, The Routledge History of Food challenges readers' assumptions about what and how people have eaten, bringing fresh perspectives to well known historical developments. It is the perfect guide for all students of social and cultural history. *The Great Boom 1950-2000* Robert Sobel, 2016-02-09 In *The Great Boom* historian Robert Sobel tells the fascinating story of the last 50 years when American entrepreneurs, visionaries and ordinary citizens transformed our depression and war exhausted society into today's economic powerhouse. As America's G I's returned home from World War II many of the nation's best minds predicted a new depression yet exactly the opposite occurred. Jobs were plentiful in retooled factories swamped with orders from pent up demand. Tens of thousands of families moved out of cities into affordable suburban homes built by William Levitt and his imitators. They bought cars, televisions and air conditioners by the millions. And they took to the nation's roads and new interstate highways, the largest public works project in world history where Kemmons Wilson of Holiday Inns, Ray Kroc of McDonalds and other start up entrepreneurs soon catered to a mobile populace with food and lodgings for leisure time vacationers. Americans and their families began to channel savings into new

opportunities Credit cards democratized purchasing power while early mutual funds found growing numbers of investors to fuel the first postwar bull market in the go go 60s At the same time the continuing boom enriched the fabric of social and cultural life A college education became a must on the highway to upward mobility high tech industries arose with astonishing new ways of conducting business electronically and an unprecedented 49 million families had become investors when the 1981 2000 stock market boom reached 10 000 on the Dow The Great Boom is the first major book to portray the great wave of homegrown entrepreneurs as post war heroes in the complete remaking and revitalizing of America All that plus the creation of unprecedented wealth or themselves for the nation for tens of millions of citizens all in five short drama filled decades

We Are What We Eat Donna R. Gabaccia, 2000-04-14 Ghulam Bombaywala sells bagels in Houston Demetrios dishes up pizza in Connecticut The Wangs serve tacos in Los Angeles How ethnicity has influenced American eating habits and thus the make up and direction of the American cultural mainstream is the story told in *We Are What We Eat* It is a complex tale of ethnic mingling and borrowing of entrepreneurship and connoisseurship of food as a social and political symbol and weapon and a thoroughly entertaining history of our culinary tradition of multiculturalism The story of successive generations of Americans experimenting with their new neighbors foods highlights the marketplace as an important arena for defining and expressing ethnic identities and relationships *We Are What We Eat* follows the fortunes of dozens of enterprising immigrant cooks and grocers street hawkers and restaurateurs who have cultivated and changed the tastes of native born Americans from the seventeenth century to the present It also tells of the mass corporate production of foods like spaghetti bagels corn chips and salsa obliterating their ethnic identities The book draws a surprisingly peaceful picture of American ethnic relations in which Americanized foods like Spaghetti Os happily coexist with painstakingly pure ethnic dishes and creative hybrids Donna Gabaccia invites us to consider If we are what we eat who are we Americans multi ethnic eating is a constant reminder of how widespread and mutually enjoyable ethnic interaction has sometimes been in the United States Amid our wrangling over immigration and tribal differences it reveals that on a basic level in the way we sustain life and seek pleasure we are all multicultural

Spatial Strategies in Retailing R. Laulajainen,2012-12-06 Locational research has long been concerned with industrial plants and the site selection of retail stores The major determinants and decision processes now seem to be fairly well understood Consequently the research frontier in retailing has shifted to a higher spatial level the location of stores in the regional and national context Certainly stores tend to be found where the population is but beyond this obvious truth it is by no means outright clear how retailing companies with different formats and home bases perceive space and how space affects their performance if at all When the question is put this way what appears trivial at first undergoes a change and seems now complex enough to be worth a closer look It need not be true to cite the most obvious of examples that regions which are attractive as places of living for high school and college students the custom ary data base are also worthwhile from the business point of view No attempt is made here to penetrate the topic at analytical depth The ambition is simply to discover with the help of numerous descriptive examples whether any order does exist in the high level spatial behavior of retailing companies
