The Cinema of Errol Morris David Resha, 2015-04-08 The Cinema of Errol Morris offers close analyses of the director s films from box office successes like The Thin Blue Line and The Fog of War to Morris s early works like Vernon Florida and controversial films like Standard Operating Procedure Film scholar David Resha s reappraisal of Morris s films allows us to rethink the traditional distinction between stylistically conservative documentaries which are closely invested in evidence and reality and stylistically adventurous films which artfully call to question such claims of nonfiction and truth According to Resha Errol Morris does not fit neatly in this division of the documentary tradition Rather his experiments with documentary conventions constitute another way to investigate reality in particular to examine the ways in which his subjects understand and misunderstand themselves and the world around them Seen within the nonfiction tradition

The Art of the Documentary Megan Cunningham, 2014-04-11 Documentary filmmaking is a powerful and vital element to our

society and those who are responsible for bringing real stories and issues to a creative medium often have an uncanny ability to make a deep connection to us with their art. Legendary directors and cinematographers such as the Maysles brothers, D.A. In *The Art of the Documentary*, the directors, editors, cinematographers, and producers behind today's most thought-provoking nonfiction films reveal the thought processes, methods, and collaborations that have guided their efforts from project conception to developing, producing, shooting, editing, and releasing some of the finest documentary films of recent decades. This richly illustrated volume, which will appeal to professional and aspiring filmmakers as well as documentary enthusiasts, features conversations with directors, cinematographers, editors, and producers including Ken Burns, *The Civil War*, *Jazz*, *Baseball* director/cinematographer D.A.
