Global Issues for Global Citizens Vinay Kumar Bhargava, 2006-01-01 Written by 27 World

Bank experts this book draws on the Bank's unique global capabilities and experience to promote an understanding of key global issues that cannot be solved by any one nation alone in an increasingly interconnected world. It describes the forces that are shaping public and private action to address these issues and highlights the Bank's own work in these areas. Covering four broad themes: global economy, global human development, global environment and global governance, this comprehensive volume provides an introduction to today's most pressing global issues from poverty to climate change.

The Crisis of Rural Poverty and Hunger Mohamad Riad El Ghonemy, 2007. No further information has been provided for this title.

The Atlas of World Hunger Thomas J. Bassett, Alex Winter-Nelson, 2010-05-15. Earlier this year President Obama declared one of his top priorities to be making sure that people are able to get enough to eat. The United States spends about five billion dollars on food aid and related programs each year, but still both domestically and internationally millions of people are hungry. In 2006 the Food and Agricultural Organization of the United Nations counted 850 million hungry people worldwide, but as food prices soared an additional 100 million or more who were vulnerable succumbed to food insecurity. If hunger were simply a matter of food production, no one would go without. There is more than enough food produced annually to provide every living person with a healthy diet, yet so many suffer from food shortages, unsafe water, and malnutrition every year. That's because hunger is a complex political, economic, and ecological phenomenon. The interplay of these forces produces a geography of hunger that Thomas J. Bassett and Alex Winter-Nelson illuminate in this empowering book. *The Atlas of World Hunger* uses a conceptual framework informed by geography and agricultural economics to present a hunger index that combines food availability, household access, and nutritional outcomes into a single tool, one that delivers a fuller understanding of the scope of global hunger, its underlying mechanisms, and the ways in which the goals for ending hunger can be achieved. The first depiction of the geography of hunger worldwide, the Atlas will be an important resource for teachers, students, and anyone else interested in understanding the geography and causes of hunger. This knowledge, the authors argue, is a critical first step toward eliminating unnecessary suffering in a world of plenty.

Improving the Safety and Quality of Eggs and Egg Products Y. Nys, M. Bain, F. Van Immerseel, 2011-08-19. Eggs are economical and of high nutritional value, yet can also be a source of foodborne disease. Understanding of the factors influencing egg quality has increased in recent years, and new technologies to assure egg safety have been developed. *Improving the safety and quality of eggs and egg products* reviews recent research in these areas. Volume 1 focuses on egg chemistry, production, and consumption. Part one sets the scene with information on egg production and consumption in certain countries. Part two then provides essential information on egg formation and chemistry. Factors that impact egg quality are the focus of part three. Chapters cover the role of poultry breeding, hen nutrition, and laying environment among other significant topics. Part four addresses organic and free-range egg production, the impact of egg production on the environment, and non-poultry eggs. A chapter on processed egg products completes the volume. With its distinguished editors and international team of contributors, Volume 1 of *Improving the safety and quality of*

eggs and egg products is an essential reference for managers in the egg industry professionals in the food industry using eggs as ingredients and all those with a research interest in the subject Focuses on egg chemistry production and consumption with reference to the factors that can impact egg quality Reviews recent research in the areas of disease egg quality and the development of new technologies to assure egg safety Comprehensively covers organic free range and processed egg production

Between Ruin and Restoration Daniel E. Orenstein, Alon Tal, Char Miller, 2012-12-30 The environmental history of Israel is as intriguing and complex as the nation itself Situated on a mere 8 630 square miles bordered by the Mediterranean Sea and Persian Gulf varying from desert to forest Israel's natural environment presents innumerable challenges to its growing population The country's conflicted past and present diverse religions and multitude of cultural influences powerfully affect the way Israelis imagine question and shape their environment Zionism from the late nineteenth onward has tempered nearly every aspect of human existence Scarcities of usable land and water coupled with border conflicts and regional hostilities have steeled Israeli's survival instincts As this volume demonstrates these powerful dialectics continue to undergird environmental policy and practice in Israel today Between Ruin and Restoration assembles leading experts in policy history and activism to address Israel's continuing environmental transformation from the biblical era to the present and beyond with a particular focus on the past one hundred and fifty years The chapters also reflect passionate public debates over meeting the needs of Israel's population and preserving its natural resources The chapters detail the occupations of the Ottoman Empire and British colonialists in eighteenth and nineteenth century Palestine as well as Fellaheen and pastoralist Bedouin tribes and how they shaped much of the terrain that greeted early Zionist settlers Following the rise of the Zionist movement the rapid influx of immigrants and ensuing population growth put new demands on water supplies pollution controls sanitation animal populations rangelands and biodiversity forestry marine policy and desertification Additional chapters view environmental politics nationally and internationally the environmental impact of Israel's military and considerations for present and future sustainability

Aquaculture in China Jian-Fang Gui, Qisheng Tang, Zhongjie Li, Jiashou Liu, Sena S. De Silva, 2018-03-28 Fish have been a major component of our diet and it has been suggested that fish seafood consumption contributed to the development of the human brain and this together with the acquisition of bipedalism perhaps made us what we are In the modern context global fish consumption is increasing However unlike our other staples until a few years back the greater proportion of our fish supplies were of a hunted origin This scenario is changing and a greater proportion of fish we consume now is of farmed origin Aquaculture the farming of waters is thought to have originated in China many millennia ago Nevertheless it transformed into a major food sector only since the

second half of the last century and continues to forge ahead primarily in the developing world China leads the global aquaculture production in volume in the number of species that are farmed and have contributed immensely to transforming the practices from an art to a science This book attempts to capture some of the key elements and practices that have contributed to the success of Chinese aquaculture The book entails contributions from over 100 leading experts in China and provides insights into some aquaculture practices that are little known to the rest of the world This book will be essential reading for aquaculturists practitioners researchers and students and planners and developers Intra-Asian Trade and Industrialization A.J.H. Latham,Heita Kawakatsu,2009-05-08 Under the impressive editorship of A J H Latham and comprising high quality essays on a topic of rising interest to scholars and policymakers this volume makes some valuable contributions to regional and global dynamics of trade With contributions from leading names in the field of economic history such as D A Farnie this book will be useful reading for scholars interested in global economic history globalization and regional trade and Asian studies APANews ,1992
