## Far Out In The New Age:

*Possession, Power and the New Age* Matthew Wood, 2016-04-08 This book provides a new sociological account of contemporary religious phenomena such as channelling holistic healing meditation and divination which are usually classed as part of a New Age Movement Drawing on his extensive ethnography carried out in the UK alongside comparative studies in America and Europe Matthew Wood criticises the view that such phenomena represent spirituality in which self authority is paramount Instead he emphasises the role of social authority and the centrality of spirit possession linking these to participants class positions and experiences of secularisation Informed by sociological and anthropological approaches to social power and practice especially the work of Pierre Bourdieu and Michel Foucault Wood s study explores what he calls the nonformative regions of the religious field and charts similarities and differences with pagan spiritualist and Theosophical traditions

Periodizing Secularization Clive D. Field, 2019-10-31 Moving beyond the now somewhat tired debates about secularization as paradigm theory or master narrative Periodizing Secularization focuses upon the empirical evidence for secularization viewed in its descriptive sense as the waning social influence of religion in Britain Particular emphasis is attached to the two key performance indicators of religious allegiance and churchgoing each subsuming several sub indicators between 1880 and 1945 including the first substantive account of secularization during the fin de si cle A wide

range of primary sources is deployed many of them relatively or entirely unknown and with due regard to their methodological and interpretative challenges On the back of them a cross cutting statistical measure of active church adherence is devised which clearly shows how secularization has been a reality and a gradual not revolutionary process The most likely causes of secularization were an incremental demise of a Sabbatarian culture coupled with the associated emergence of new leisure opportunities and transport links and of religious socialization in the church at home and in the school The analysis is also extended backwards to include a summary of developments during the eighteenth and early nineteenth centuries and laterally to incorporate a preliminary evaluation of a six dimensional model of diffusive religion demonstrating that these alternative performance indicators have hitherto failed to prove that secularization has not occurred The book is designed as a prequel to the author s previous volumes on the chronology of British secularization Britain s Last Religious Revival 2015 and Secularization in the Long 1960s 2017 Together they offer a holistic picture of religious transformation in Britain during the key secularizing century of 1880 1980

**Creative Spirituality** Robert Wuthnow,2001 Creative Spirituality is a fascinating brilliant and suggestive book to be read and appreciated both for its spiritual insights and for the author s astute observations on artistic creativity and spiritual practice Robert Wuthnow explores the intimate engagements of art and spirituality in their common quests for meaning This volume represents a substantial contribution to the growing literature on art and religion in the

United States and an intelligent appeal to the artist and the truth seeker in each of us Sally M Promey is author of *Painting Religion in Public* and coauthor of *The Visual Culture of American Religions* Wuthnow's careful listening to the voices of working artists speaking of their work and his analysis of the rich variety of their experiences show the universally human transforming power of creativity Creative practice reveals itself here as a primary spiritual practice While some of these artists follow a traditional religious path and make fascinating connections between their working experience and their religious faith others speak directly of spirituality as a discovering of the power of Spirit Whether religious or not their voices are witness to the holy power of human creativity and to the mystery in which it leads Reverend Donald Schell St Gregory of Nyssa Episcopal Church San Francisco Robert Wuthnow has written a brilliant insightful exploration of how contemporary artists struggle to express their deepest spiritual yearnings At a time when the notion of spirituality seems inchoate artists writers and musicians can often eloquently articulate the mysterious otherness of our lives Especially powerful are the personal testimonials which reveal the empowerment of transcendence over alienation and disbelief Marci Whitney Schenck Publisher and Editor *Christianity and the Arts* Here one finds wonderful stories about artists and of the creative spirituality arising out of their work Wuthnow goes beyond telling us simply that these are people living at the edges of our culture suggesting that they are spiritual models for our time people who cultivate spiritual depth through sustained practice or doing something that is fresh expressive and worthwhile The book addresses the serious many sided aspects of their search indeed of our search for moments of transcendence today Wade Clark Roof J F Rowny Professor of Religion and Society University of California at Santa Barbara and author of *Spiritual Marketplace* *The New Age* Arthur Moore,1927 [The Book of Theanna, Updated Edition](#) Ellias Lonsdale,2011-09-13 The Book of Theanna contains a collection of letters written by Ellias which he began transcribing from Theanna formerly Sara Lonsdale his wife and twin soul shortly after her death They communicate and commune through a sacred impulse that rises from the Earth and descends from the Heavens It is this very current that brings forth a path into the Age of Aquaria In the course of these writings Sara journeys to Heaven and Hell and the vast Lands in between She paints vivid pictures of her encounters in each of these realms Through the teachings she brings ways to break the crystallized shell holding us back from ultimate self love and forgiveness Waving the smelling salts through the words she discusses illness karma the dark side the Lord of Death Christ the death minds and how to awaken to Truth There is an immense need for Death's truth to fully reveal itself What this updated edition carries is a renewed and refreshed revelation death is a different death than was ever possible before It can now come forward in a redemptive fashion Not just another account of life after death not a channeled book in the usual sense The Book of Theanna comes to break death's spell with the power and intensity of Love from across the veil now returned to Earth *Apocalyptic Transformation* Elizabeth K. Rosen,2008-02-15 Since its inception the story of the apocalypse has been used as a means by which to understand the world and one's place in it The appeal of the apocalyptic myth is largely rooted in its ability to make

sense of instances of crisis by incorporating those crises into a larger plan for history and an end of time that God has planned Apocalypse is both an organizing principle to be imposed on an overwhelming seemingly disordered universe and a fundamentally moral story which offers hope of a new world where good and evil can be clearly delineated and addressed But all of the traditional functions and comforts of the apocalyptic myth are challenged when the myth collides with postmodernism The characteristics that define a work as postmodern ultimately destabilize the traits that make the apocalyptic myth unique Using the work of Terry Gilliam Don DeLillo Kurt Vonnegut and other writers in the genre Apocalyptic Transformation examines the collision of the postmodern mode and the apocalyptic myth explores the process of secularizing this religious story and the reasons for doing so and asks the question What happens when an author undermines the grand narrative of the apocalypse

**Sufism and Zen in the West** Saeko Yazaki, Michael Conway, 2025-02-20 Historically and culturally Sufism and Zen may not seem to have anything in common However in the West their spiritual messages are often perceived as strikingly similar In this book scholars analyse the ways in which Sufism and Zen were introduced to and developed in the West The collection shows that the popularity of these religions arose not because of the substantive shared elements within the two traditions but because their promoters in the West employed similar strategies to respond to the interests of a modern Western audience The first book to make a close comparison of Sufism and Zen this study is an important contribution to understanding Western religious life and processes of easternisation It sheds new light on how Sufism and Zen came to represent a spirituality that is both countercultural and in touch with modern sensitivities
