The Far Traveler A. Bertram Chandler,2015-12-17 The Far Traveler was hardly the sort of starship to use in the study of lost space colonies Lost colonies were likely to be desperate eccentric and otherwise unappreciative And The Far Traveler was a rich woman s toy constructed of gold and directed by an omniscient dictatorial and feminine computer known as Big Sister John Grimes had become that golden vessel s captain A captain in name only because nobody could talk back to Big Sister or the haughty beauty who owned everything aboard But Grimes was a man of many resources and lost space colonies were placed that did not observe the civilized rules You could be sure therefore that the man known as the Commodore Hornblower of Outer Space would be likely to come through okay even if the ladies mechanical and physical never expected him to

Owen,2009-10-27 Answer the question unanswered for more than two millennia and perhaps you may yet restore the world On a September evening in 1931 John and Jack two of the Caretakers of the Imaginarium Geographica discover a cryptic warning on a medieval manuscript which is not only addressed to them but seems to have been written by their friend Hugo Dyson But before they can discover the origin of the strange book Hugo walks through a door in time and vanishes into the past And in that moment the world begins to change The Frontier which separates our world from the Archipelago of Dreams has fallen Dark and terrible beasts roam throughout England No one can be summoned from the Archipelago And both worlds have fallen into darkness under the reign of a cruel and terrible king The only hope to restore the proper order of things lies on a forgotten island at the edge of the Archipelago where a time travel device left by Jules Verne must be used to race through history itself from the Bronze Age to ancient Alexandria and the founding of the Silver Throne in one night And in that single night John and Jack will find that the only way to save their friend and stop the chaos destroying the world is to solve a 2 000 year old mystery Who is the Cartographer 13: A Collection of Horror and Weird Fiction Michael Boatman,2016-02-27 13 is a collection of horror stories reflecting various elements of the American Dream But here the Dream has been twisted beyond easy recognition These tales of Americana gone hideously and sometimes hysterically wrong feature a dark parade of misunderstood monsters homicidal heroes invading aliens media friendly fiends rogue presidents and even an occasional zombie Like the funhouse mirrors in a carnival for crackheads these stories reflect and distort the diversity of ills faced by a spinning roulette wheel of alternate Americas Here you ll find Americas that might have been or perhaps one that lurks giggling and debauched just over the next horizon The inhabitants of these other Americas tell jokes that cut One or two of them might carry a cream pie in one hand and a switchblade concealed down the backs of their pants Their Home Sweet Horrors occupy strange colonies realms that lie both within and outside traditional genre identifications spanning the literary range from weird western urban fantasy comic crime science fiction and subtle political commentary with cannibals There s even a Christmas story a tale of childhood survival featuring the last person you might reasonably expect to meet during the zombie apocalypse In our reality ever since the founding of the original thirteen colonies the American Dream remains strong of course a clarion call to action for friends and enemies alike Therefore many of the stories in 13 can be enjoyed strictly for laughs But in a nation fraught with environmental catastrophes global conflicts economic religious and racial unrest when the real monsters finally show up to check out the neighborhood who s to say the joke s not
