Faraway Places And Interesting People:

Small Wars, Faraway Places Michael Burleigh, 2014-11-25 A sweeping history of the Cold War's many hot wars born in the last gasps of empire. The Cold War reigns in popular imagination as a period of tension between the two post World War II superpowers, the United States and the Soviet Union without direct conflict. Drawing from new archival research, prize-winning historian Michael Burleigh gives new meaning to the seminal decades of 1945 to 1965 by examining the many largely forgotten hot wars fought around the world. As once great Western colonial empires collapsed, counterinsurgencies, campaigns raged in the Philippines, the Congo, Iran, and other faraway places. Dozens of new nations struggled into existence, the legacies of which are still felt today. Placing these vicious struggles alongside the period defining United States and Soviet standoffs in Korea, Vietnam, and Cuba, Burleigh swerves from Algeria to Kenya to Vietnam and Kashmir, interspersing top-level diplomatic negotiations with portraits of the charismatic local leaders. The result is a dazzling work of history, a searing analysis of the legacy of imperialism, and a reminder of just how the United States became the world's great enforcer.

You Meet Such Interesting People Bess Whitehead Scott, 2008-08-28 It wasn't easy in those days for a woman to get her foot in the city room door. Bess made it because she understood one of the basic principles of the newspaper business: everyone has a story. You have only to discover it and tell it well. She will tell you in this book about meeting interesting people. You will learn that there are few more interesting than Bess Scott herself. William P. Hobby. At the age of twenty-five, Bess Whitehead Scott became the first woman reporter for the city desk of the Houston Post. The year was 1915. The author's memoir of the first ninety-seven years of her life illustrates how determination, courage, hard work, and caring family and friends propelled her past enormous obstacles, including poverty and a hearing impairment. Born near Blanket, Texas, in 1890, she grew up on a small farm held together by her widowed mother and eight brothers and sisters. Scott graduated from Baylor University and taught school briefly before she persuaded the Post editors to give her a chance. Her success led to other jobs in the then unnamed field of public relations. Then, even before the filming of the silent movie classic *Birth of a Nation*, she went to the little film colony called Hollywood to try her hand at writing scenarios. Fame and fortune kept their distance from Bess Scott, but she did encounter many individuals whose fame or infamy, whose friendship or failures made a deep impression on her. Clark Gable and Lyndon Johnson were her friends; her best friend, Lila Danforth, was always there during rough times when her marriage failed and she had to support her two small children by double moonlighting to supplement her meager earnings as a reporter. The opportunities and rights of women, the handicapped, and single working mothers that are today taken for granted did not exist for Bess Whitehead Scott's mother or for her. Their talents and stamina in fighting rural and urban hardships exemplify a century of women's progress and highlight the roles played by the interesting people strung along the thread of their lives.

Mobilities in Remote Places Phillip Vannini, 2023-07-21 Mobilities in Remote Places explores the meanings challenges and opportunities of remoteness as practiced and experienced by those who live and work in some of the world s most remote communities As mobilities around the world proliferate in countless forms the meanings of remoteness undergo significant change Places once considered impossibly distant have appeared to become closer more accessible and less distinct from global centers of geopolitical power But instead of disappearing altogether configurations of remoteness evolve manifesting themselves through new possibilities new challenges and new insecurities Drawing from a variety of case studies from around the globe the contributors of the book examine remoteness as an outcome of evolving mobility constellations Rather than defining remoteness as an absolute or objective time distance condition the book shows how remoteness is a practice experience and representation that is situated relational and emergent This collection of original and thought provoking chapters will be of interest to students and researchers in the humanities and social sciences with an interest in mobilities place and human geography

The Adventures of A Time-Traveling Kid AQEEL AHMED, 2023-06-13 Summary of this story In the quiet town of Springville a boy named Max found a mysterious watch that could move through time in his grandmother s attic He had no idea that this finding would lead to a series of exciting adventures that would change his life and the ls of those around him Max found himself in different times and places when he wore the watch He met dinosaurs learned about old civilizations and saw historical events Along the way he became close with Daisy a friendly dinosaur and Amira a young traveler who loved adventures just as much as he did As Max moved through time he learned that the watch had a special feature that let him choose where he went Every time he turned the dial he and his friends were taken to a new and exciting time which fed their hunger for information and adventure Max s adventures weren t just about looking into the past they also helped him learn important skills He knew

how important it was to keep history alive and value different cultures He made sure that his presence did not change the way things went Max got smarter and more responsible as he went through life He realized that the time traveling watch gave him both power and duty Max told his family and friends about his amazing adventure when he got back to Springville He set up a special exhibit to show items and pictures from his time traveling adventures Children and adults alike were enthralled by the show which sparked a desire to learn and a sense of wonder in the community Children in Springville were interested in history and science because of Max s stories They read books and learned to appreciate the wonders of the past Springville became a center for scientific study preserving history and cultural exchange because of Max s legacy Max devoted his life to learning about history as he got older He became a well known researcher and historian His travels through time had a big impact on his future and he used what he had learned and seen to make important contributions to the field of preserving history People all over the world were moved by Max s story which reminded them of how important it is to be curious make friends and find out what one s own potential is The Max Foundation kept its memory alive by giving children and adults scholarships training programs and other tools to help them on their own journeys of self discovery In the end Max s story wasn t just about traveling through time It was also about the power of imagination the strength of friendship and the fact that each person has a world of options inside them It was a good lesson that everyone has the power to change their own lives and make a difference in the world

Story begins Once upon a time a little boy named Max lived in the quiet town of Springville which was tucked between rolling hills and fragrant fields The room was full of his ideas and wild thoughts Max s bright blue eyes and curious heart were drawn to stories about brave acts and magical worlds He read books at a worrisome rate especially ones that took him to faraway places and told him what ancient treasures really meant Every night when he went to bed his mind was full of exciting trips he had yet to take Max had a strong desire to go on his own trip one in which he could see parts of the Earth that had never been seen before and learn the secrets of the universe He didn t know that fate was working behind the scenes to make all of his deepest wishes come true Max was having a normal day until he found an old book with a leather cover hidden in the darkest parts of his grandmother s attic The book s yellowing pages and broken pictures held a lot of mysteries that needed to be answered Max s eyes were drawn to a flash of light in the distance as he slowly turned the thin leaves Between the worn out paper a faded picture of his grandfather standing proudly next to a strange pocket watch had been slid down Max felt a rush of energy because he was interested in the picture and liked how pretty the watch was He got a sinking feeling in the pit of his stomach when he realized that this watch held the key to his amazing quest Max s hands were shaking when he found the watch in the attic where it had been hidden The watch had stood the test of time and now its metal case had beautiful carvings on it In the meantime the hands of the watch didn t move at all during a moment of endless waiting Max felt a strange warmth rush through his fingers as he grabbed the watch This made a connection between his whole being and the weird power of the watch When Max was

younger he liked to go to his grandmother's attic when the sun was shining and golden rays of light were coming in through the windows. He had always been curious about the secrets and treasures hidden in this interesting area and today was no different. As he climbed the old wooden stairs, his heart was beating fast because he was looking forward to what he would find at the top. The attic looked like it was stuck in the past because it was full of old trunks, lost books, and treasures from a long time ago. Max's eyes darted from one corner to another as he looked for something to interest him and get his mind going. Then, as if he were being led by a force he didn't understand, his eyes were pulled to a small old wooden box in a dusty corner of the room. As Max walked up to the box, he was very interested in what was inside. He carefully cleaned off the dust that had built up on its surface, showing the intricate carvings that had been cut into the wood. The box seemed to tell old stories over and over again and promise exciting new adventures. Max opened the lid carefully, and his hands were cold the whole time. When he looked down, he saw a treasure chest. A small watch with a fancy design was calling to him from inside a box with some old photos and scribbled notes. Max was attracted to it like a magnet, and he couldn't help but go toward it. It seemed like the watch had been waiting for Max all along because it had a mysterious air about it. Max was quickly drawn to the face of the watch, which was full of symbols and numbers. Each symbol's meaning was a secret, and it pointed to strange things that could happen or happen in the future. As he held the watch in his hands, he could feel a relaxing warmth coming from its smooth surface. Because of this, his heart rate went up, and he got pretty excited. Max had a lot of questions running through his head: Who owned the watch before you? What exciting things had happened while it was there? The watch seemed to be the key to a universe that was bigger than anything he had ever imagined. It was a doorway to a world of wonder and magic that he had never imagined. Max could see beautiful engravings on the sides of the watch as he looked at it more closely. The engravings showed mythical monsters, celestial bodies, old signs, and symbols of knowledge and other things. It was like the watch itself was a map to all the amazing things in the universe, ready for a brave adventurer to solve its mysteries and figure out what they meant. Max felt more and more like he belonged to the watch as time went on. He felt like the watch had chosen him for a part that was much bigger than he could understand. He then put the watch on his wrist. A rush of energy went through his whole body, leaving him with a tingling feeling of eager expectation. Max didn't know that the watch he was wearing could change the way time went. It was a treasure from a long time ago, full of the mystery of old times. Max was asked to follow the symbols and numbers on its face to go back in time and find something really cool. These symbols and numbers were more than just decorations; they were the locations for a huge tapestry of time. Max's eyes lit up with joy and wonder as he looked at the time on the watch he had just put on his wrist. He had a feeling that nothing in his life would ever be the same again. There were journeys waiting for him, puzzles to solve, and stories to become a part of him. Max had no idea that he was about to go on a series of amazing journeys that would take him back in time to see the rise and fall of great societies, meet legendary people, and find hidden truths that would change the course of his life. As soon as Max

put the lid back on the wooden box people began to talk about dark and scary things in the attic The watch had picked him to go on an adventure and he was going to go Max came down from the attic with a new sense of purpose eager to take the first step into a world where time would be his playground and the watch would be his guide At this point Max and the magical watch began their trip which would turn out to be a story of self discovery bravery and the power of the human mind Max would travel through time and see great societies rise and fall meet legendary people and bravely and persistently get through dangerous waters Max s first trip which was made possible by the watch was to old Greece a place full of stories and myths He found himself in the middle of the Olympic Games where he saw the start of a long lasting tradition and stood next to some of the best athletes in the world He was blown away by the beauty of the Parthenon interested in the history of Athens and enthralled by his conversations with the smart people who helped make the world what it is today Max s understanding grew with each time jumped and as he traveled through history he grew to love the variety and depth of people s lives Max loved the sights sounds and tastes of each time period getting lost in the rich wave of human history He went everywhere from the busy markets of ancient Rome to the great courts of the Chinese rulers The watch became more than just a way to get around It also became a way to learn It gave Max the chance to see important events in history like the signing of the Magna Carta and the first flight of the Wright brothers These events did more than just catch his attention they also made him feel like he had to protect what he had learned As Max traveled through time he met other people who like him were interested in finding new places and learning new things In the past when he was in Egypt he met a young girl named Amina who had a strong connection to the pharaohs They became inseparable because they worked together to figure out what the hieroglyphs meant and what the pyramids were hiding Max didn t know his watch was different until a long time later It could go through the clouds of time letting the person holding it go to distant times in the distant past and distant times in the distant future The watch was a doorway to a world that was so big it was hard to imagine It lets the person who wore it spin through time and meet amazing animals and places Max was very happy when he realized that he was about to go on a trip which had been his dream for a long time Springville where he lived had recently become mysterious and interesting Max imagined himself standing at a crossroads in time about to start his own amazing trip His thoughts were full of the bubbling excitement of anticipation Max would be taken to undiscovered places every time the watch went off There he would meet long dead civilizations monsters from stories and wise sages who knew how to solve the secrets of the universe He would fly through the air with monsters with wings find lost towns make friends with mermaids from the deep sea and see nations rise and fall When Max put the watch that could go back in time closer to his chest he felt like he had a new task and was very excited He could see into the past and the future with the watch and it would also show him how brave and strong he was With each new adventure Max would learn something new about the meaning of his life This would shape his personality and leave an imprint on time Max didn t know that his story would be written down in

Springville's history books or that his name would become part of legend Max didn't think either of these From then on Max's life would be a never ending story of bravery discovery and the unbreakable power of a young dreamer's heart Max went on his big journey as a hero to be ready to change the world and leave an indelible mark Before going on his trip he carefully put the watch that could go back in time in his pocket on what was going on in the world around him Max took each step of his journey with a spirit of interest and a desire to learn about new things The first time he went back in time he found himself in the time of the ancient Egyptians Max was fascinated by the huge pyramids and busy shops of a long gone civilization He made friends with scribes who taught him all about hieroglyphics When he saw the beautiful Sphinx being built he was filled with awe

these things their understanding of how all living things is linked will grow a lot which will make them love nature even more The end of their trip is putting on a play that shows how they've changed what they've learned and the new friends they've made Under Miss Daisy's watch they write the play's plot make the costumes and practice for many hours The performance shows how hard they work how good they are at telling stories and how much storytelling can move people to make big changes in their lives As the story comes to an end the ants' desire to learn grows and gets stronger They leave the meadow to study environments like forests mountains and even the depths of the ocean They go on to jobs in science art music and storytelling where they use their knowledge and skills to make the world a better place The Ants First Day in School is a fun story about how exciting learning is how strong friendships are and how getting a good education can change your whole life It's a gentle but powerful way to remind readers of their own limitless potential and how important it is to respect curiosity creativity and working as a team The story encourages young people to go on their own learning adventures enjoy the wonders of the world and do good things in their communities

Story begins Once upon a time there was a group of hardworking ants who lived in a small anthill on the edge of a large always busy field The hardworking ants got a great name throughout the whole field for how hard they worked and how well they worked together People thought of them as the perfect example of hard work and community because of how hard they worked to gather food build hard tunnels and keep their community going This was the name they were known by Even though they looked very serious there was a spark of interest in their little hearts The ants' daily routines were getting boring and they silently wanted something new and exciting to happen They were driven by a strong desire to learn as much as they could and to explore the world beyond their immediate surroundings They wanted to go to unknown places and see the amazing things that were outside of their anthill but they were stuck there Their minds were excited to see new things and they couldn't wait to dive into the mysteries and thrills that lay ahead These small beings were well aware that there was still a lot to learn and know so they decided to go on an epic journey to learn new things and broaden their views Their tiny antennae twitched with excitement as they got ready to take in every interesting detail and soak up the beauty that was just out of reach The ants' hearts were beating in a steady rhythm telling them to get out of their comfort zone and fall headfirst into the huge ocean of information that was waiting for them They knew there were a lot of questions riddles and important lessons to learn Their desire to learn led them to leave the confines of their anthill and take advantage of the many opportunities that awaited them in the bigger world The ants went off with a strong desire to learn explore and add to the huge amount of information that was already around them They were excited and ready to learn new things as a group This gave them a strong drive that helped them move forward as they began an exciting journey of intellectual growth and knowledge They would work together to figure out the complexities of the natural world be amazed by the wonders of the universe and find the wisdom jewels hidden in the vast amount of knowledge As they moved forward into the vast unknown they stayed committed to each other and to working as a team Each

ant brought their own unique skills and points of view to the talk They helped each other and shared what they knew to get around problems and find new points of view On their educational trip they kept going because they were determined to go to new places and learn about interesting things So the ants left their anthills to see what was outside of it They did so with both excitement and thanks in their hearts They had built a strong base through hard work and teamwork but what really moved them forward was their insatiable curiosity and desire to learn new things As they moved step by step into the beauty of undiscovered land they enjoyed the thrill of finding new things and the thrill of satisfying their natural interest The ants trip was about more than just getting information and knowledge It was also about how their fragile brains and hearts changed Because of their journey they would learn more and have more understanding and compassion They would become messengers of knowledge sharing what they had learned with the rest of their kind and encouraging future generations to go on their own journeys to learn more and become wiser The ants thought that the world outside of their anthill was a beautiful place full of treasures and secrets that were just waiting to be found And because they worked hard worked together and were very curious they would not leave any questions open or any stones unturned in their search On that beautiful morning the warm sun rays hit the anthill s surface and the anthill woke up with its own pulsing energy The ants were busy getting ready for their first day of school which was a big deal As they ran around you could hear the sound of their little feet The air was full of anticipation so the anthill buzzed with an electric buzz of eagerness This was the day they had been waiting for with bated breath the day when their thirst for knowledge would be quenched and their world would grow Miss Daisy their favorite teacher had been working hard to get ready for this important event When the ants walked into the classroom they were shocked and amazed by what they saw Miss Daisy had worked hard to set up the room so that it was now a nice and friendly place to learn The room was full of tiny desks and chairs that had been shrunk to fit their small bodies One of the walls had a great whiteboard that was ready to be filled with wise words and new ideas And much to their joy one corner of the anthill proudly showed off a small library Its shelves were full of books that offered to show people how amazing the world outside their door was Miss Daisy met each ant with a smile and a twinkle in her eye This made the ants feel like they were loved and cared for She had spent a lot of time planning this day because she knew it would have a big effect on these younger students futures Her hard work and enthusiasm for teaching were inspiring and they helped create an atmosphere of love warmth and hope As the ants sat down at their tiny seats they looked around in amazement at all the possibilities that lay ahead Miss Daisy started the day by saying who she was and how much she likes to learn and discover new things She told them that school would be full of interesting new things to try discoveries to make and chances to grow as people The ants listened carefully and became interested They couldn t wait to start this learning trip

Faraway Places Albert Trajstman,2019-02-01 Faraway Places is a collection of three novellas that goes to dark and dingy places that the faint hearted might wish are truly faraway But are they Not when you take a crazed trip with an odd ball who dreams of a faraway

place while all the while he is on a slow burn to insanity Maybe he can solve the problem of living in a caravan alongside a garbage tip with a foul mouthed significant other and a companion dog That s not an easy problem to solve when you lack initiative Perhaps the frozen wastelands of pre revolutionary Russia are a change of location but still you ll find that it s that kind of faraway place where many bizarre things could be possible dogheaded people might exist a nasty con man can become a tsar and if you want to save your skin there are people you should avoid If that s not enough then waiting to be solved is the provenance of two mysterious trunks and their contents in the basement of St Petersburg s Hermitage Finally a misconception about a killing on an isolated farm in a British colony in 1815 leads to disastrous consequences Decent men can commit abominable acts and criminals can be decent In this faraway place it s brutal times all round brutal times for the original native inhabitants for settlers and their women and for the convicts and child convicts A gripping read
