**Community water management and agricultural extension services** Buisson, Marie-Charlotte, Saikia, Panchali, Maitra, Shourav, About the Research for Development R4D

Learning Series The WLE Research for Development R4D Learning Series is one of the main publication channels of the program Papers within the series present new thinking ideas and perspectives from WLE research with a focus on the implications for development and research into use Papers are based on finalized research or emerging research results In both instances papers are peer reviewed and findings are based on sound scientific evidence and data though these might be incomplete at the time of publication The series features findings from WLE research that emphasize a healthy functioning ecosystem as being a prerequisite to sustainable intensification resilience of food systems and human well being The series brings together multi disciplinary research global synthesis and findings that have implications for development practitioners and decision makers at various levels

**Farm Management Notes for Asia and the Far East**, 1995 Sustainable Intensification in Smallholder Agriculture Ingrid Oborn, Bernard Vanlauwe, Michael Phillips, Richard Thomas, Willemien Brooijmans, Kwesi Atta-Krah, 2017-02-17 Sustainable intensification has recently been developed and adopted as a key concept and driver for research and policy in sustainable agriculture It includes ecological economic and social dimensions where food and nutrition security gender and equity are crucial components This book describes different aspects of systems research in agriculture in its broadest sense where the focus is moved from farming systems to livelihoods systems and institutional innovation Much of the work represents outputs of the three CGIAR Research Programs on Integrated Systems for the Humid Tropics Aquatic Agricultural Systems and Dryland Systems The chapters are based around four themes the conceptual underpinnings of systems research sustainable intensification in practice integrating nutrition gender and equity in research for improved livelihoods and systems and institutional innovation While most of the case studies are from countries and agro ecological zones in Africa there are also some from Latin America Southeast Asia and the Pacific

*Sustainable Forest Management in a Changing World: a European Perspective* Peter Spathelf, 2009-12-04 Yet another book on the topic of Sustainable Forest Management can only be justified by new information that is of direct relevance The contents of this volume concentrate on the very latest factors and developments thus hopefully contributing both to the book's attractiveness and to closing gaps in the discipline's database This book is written for researchers in the field of forest management international forestry and climate change related issues legal and policy advisors as well as for managers of private companies who deal with SFM The authors of the various sections are scientists in the field of forestry and other environmental sciences They represent different institutions mainly universities and research agencies in Germany but also high level international institutions in development co operation such as the World Bank FAO and IIASA The scope of the book is to refresh the meanings and perceptions of SFM against the background of the rapid changes in our natural and social environment Climate change and the rapid increase of atmospheric CO<sub>2</sub> concentration is a global process with negative impacts of different kinds among others on natural ecosystems such as forests A crucial issue therefore is how forest management can contribute to forest conservation in light of changing climatic conditions Moreover policy changes

such as the introduction of certification schemes and the new emphasis laid on Non Wood Forest Products justify the re evaluation of the role of SFM in delivering ecological goods and services from our forests

**Use and Potential of Wild Plants in Farm Households** Vernon Hilton Heywood,1999-01-01 This book is designed to raise awareness of the use of wild plants in farming systems around the world It describes the contribution of wild plants as a source of food fuel wood shelter medicines and dyes and their role in income generation for the improved welfare of farm households and local people Wild plants are also of paramount importance as sources of wild germplasm that might enhance the productivity disease resistance winter hardiness drought survival of cultured species This publication analyses the potential of wild species as well as the natural social economic legal and institutional factors that constrain their use and development potential

**Farm and Community Information Use for Agricultural Programmes and Policies** J. M. Dixon,Food and Agriculture Organization of the United Nations,M. Hall,J. Brian Hardaker,1994

**Business Management for Tropical Dairy Farmers** John Moran,2009-05-22 Most countries in South East Asia have established smallholder dairy farming industries through social welfare and rural development programs to provide a regular cash flow for poorly resourced farmers These farms are now being treated as accepted rural industries and require a more business minded approach based on changes to farm profitability Business Management for Tropical Dairy Farmers gives smallholder dairy farmers the business management skills they will need to remain sustainable Drawing on detailed financial analyses of smallholders in countries such as Pakistan Thailand and Malaysia it shows how to budget cash inputs to match cash outflows during different seasons of the year and how to invest wisely in improving cattle housing and feeding systems If farmers make greater use of formats and structures for farm costs and returns it will increase their awareness of the relative importance of all their financial inputs in terms of cost of production per kilogram of milk produced on the farm It will also allow them to make more meaningful and timely decisions by correctly costing planned changes to their routine farming practices The book will also be of use to support organisations to more clearly define the key drivers of profit on smallholder farms and to government departments and national dairy organisations to routinely evaluate and update their industry policies

**Journal for Farming Systems Research-extension** ,1995

**The Use of Spices and Medicinals as Bioactive Protectants for Grains** P. Golob,1999-01-01 Opinion now favours a shift away from reliance on conventional insecticides towards the use of more natural sustainable methods of protecting stored foods from insect damage This bulletin considers alternative materials applicable for use as food storage protectants concentrating particularly on plants which have found other uses as food spices or in medical applications Over 100 plant species are described in detail with photographs There is also a brief update on current research on the use of plant materials as storage protectants
