The Farm Press, Reform and Rural Change, 1895-1920 John J. Fry, 2005-04-27 This project contributes to our understanding of rural Midwesterners and farm newspapers at the turn of the century While cultural historians have mainly focused on readers in town and cities it examines Midwestern farmers It also contributes to the new rural history by exploring the ideas of Hal Barron and others that country people selectively adapted the advice given to them by reformers Finally it furthers our understanding of American farm newspapers themselves and offers suggestions on how to use them as sources

Almost Pioneers John Fry, 2013-08-06 In the fall of 1913 Laura and Earle Smith a young Iowa couple made the gutsy some might say foolhardy decision to homestead in Wyoming There they built their first house a claim shanty half dug out of the ground hauled every drop of their water from a spring over a half mile away and fought off rattlesnakes and boredom on a daily basis Soon other families moved to nearby homesteads and the Smiths built a house closer to those neighbors The growing community built its first public schoolhouse and celebrated the Fourth of July together although the festivities were cut short because of snow By 1917 however the Smiths had moved back to Iowa leasing their land to a local rancher and using the proceeds to fund Earle s study of law The Smiths lived in Iowa for most of the rest of their lives and sometime after the mid 1930s Laura wrote this clear vivid witty and self deprecating memoir of their time in Wyoming a book that captures the pioneer spirit of the era and of the building of community against daunting odds

The Rise and Fall of King Coal Mark Aldrich, 2025-04-15 This book tells the story of the rise and decline of Old King Coal as the dominant source of energy and power in the United States from roughly the late eighteenth century to World War II More broadly put it is a book about the various energy transitions during these years but the emphasis is on coal as a source of fuel and power

A New Heartland Janet Galligani Casey, 2009-04-16 This study investigates American rurality and modernity as mutually sustaining concepts and centres on women s engagement with those concepts The aim is to articulate a different mode of American modernism that signals meaning and appeal for women and to show how that mode responds to prevalent attitudes in the culture at large

The Trials of Nina McCall Scott W. Stern, 2018-05-15 The nearly forgotten story of the fight against the American Plan a government program designed to regulate women s bodies and sexuality A consistently surprising page turner a brilliant study of the way social anxieties have historically congealed in state control over women s bodies and behavior New York Times Book Review Nina McCall was one of many women unfairly imprisoned by the United States government throughout the twentieth century Tens probably hundreds of thousands of women and girls were locked up usually without due process simply because officials suspected these women were prostitutes carrying STIs or just promiscuous This discriminatory program dubbed the American Plan lasted from the 1910s into the 1950s implicating a number of luminaries including Eleanor Roosevelt John D Rockefeller Jr Earl Warren and even Eliot Ness while laying the foundation for the modern system of women s prisons In some places vestiges of the Plan lingered into the 1960s and 1970s

and the laws that undergirded it remain on the books to this day Nina McCall's story provides crucial insight into the lives of countless other women incarcerated under the American Plan Stern demonstrates the pain and shame felt by these women and details the multitude of mortifications they endured both during and after their internment Yet thousands of incarcerated women rioted fought back against their oppressors or burned their detention facilities to the ground they jumped out of windows or leapt from moving trains or scaled barbed wire fences in order to escape And as Nina McCall did they sued their captors In an age of renewed activism surrounding harassment health care prisons women's rights and the power of the state this virtually lost chapter of our history is vital reading America, History and Life, 2003 Provides historical coverage of the United States and Canada from prehistory to the present Includes information abstracted from over 2 000 journals published worldwide *There Goes the Neighborhood* David R. Reynolds, 2002-04-25 Despite being the centerpiece of rural educational reform for most of the twentieth century rural school consolidation has received remarkably little scholarly attention The social history and geography of the movement the widespread resistance it provoked and the cultural landscapes its proponents sought to transform have remained largely unexplored Now in *There Goes the Neighborhood* David Reynolds remedies this situation by examining the rural school consolidation movement in that most midwestern of midwestern states Iowa From 1912 to 1921 Iowa was the center of national attention as state and local education leaders attempted to implement a new model of rural education intended to be emulated throughout the rest of the Midwest As part of the Country Life movement whose leaders sought to create a more modern future for farm families an alternative form of rural community that combined the advantages of both city and country the initially successful model collapsed in the early twenties not to be revived until after World War II Reynolds focuses on how and why rural school consolidation was so vigorously resisted in most of Iowa why it failed in the twenties and what its lasting consequences have been Combining social and oral history modern social theory historical geography and ethnography *There Goes the Neighborhood* is the most authoritative analysis to date of the politics geography and social history of rural school consolidation in any state

Transforming Agrarian Economies Thomas P. Tomich, Peter Kilby, Bruce F. Johnston, 2018-05-31 The world's 58 poorest countries are diverse in many respects but they share the characteristic of a labor force overwhelmingly dependent on agriculture. Challenging the assumption that mass poverty and chronic hunger are insoluble problems, this book systematically explores the multiple aspects of economic development in these countries, which are home to 60 percent of the world's population. The authors offer a broad-based development strategy to raise incomes through agricultural productivity growth and expanded rural employment. They present rich new information on the rural informal sector and on agriculture industry interactions and they analyze the impact of macroeconomic and social policies on the rural economy. Policy instruments aimed at bringing about broad-based development are carefully assessed from fiscal policy to development of new seeds and farm implements. The book includes detailed case studies of countries that have seized or missed development opportunities. Comparison of the successful economic transformations of Japan and the United States shows how key ideas, which the authors call strategic notions, have enabled policymakers to act with foresight. Analyses of strategic choices in China, the Soviet Union, Taiwan, Mexico, Kenya, and Tanzania also show how development strategies that emerge from the real world political economy reflect a mix of individual interests and strategic notions. **Negotiating Identities** Ildikó

Bellér-Hann, 2015 The ten chapters of this book, all of them published previously in specialist works, derive from the author's ethnographic research among the Uyghur of Xinjiang and Kazakhstan in the mid 1990s. Approaching beliefs and practices as politically embedded, the articles have historical value in documenting the possibilities and constraints of fieldwork in this region in the 1990s. They also offer a point of departure for new studies of the Uyghur and their relations with their neighbors in the increasingly difficult conditions which characterize the early twenty-first century. Series: *Halle Studies in the Anthropology of Eurasia*, Vol. 31. Subject: Sociology, Anthropology. **Pioneering Death** Peter Boag, 2022-05-24 On an autumn

day in 1895, eighteen-year-old Loyd Montgomery shot his parents and a neighbor in a gruesome act that reverberated beyond the small confines of Montgomery's Oregon farming community. The dispassionate slaying and Montgomery's consequent hanging exposed the fault lines of a rapidly industrializing and urbanizing society and revealed the burdens of pioneer narratives boys of the time inherited. In *Pioneering Death*, Peter Boag examines the Brownsville parricide as an allegory for the destabilizing transitions within the rural United States at the end of the nineteenth century. While pioneer families celebrated and memorialized founders of western white settler society, their children faced a present and future in frightening decline. Connecting a fascinating true crime story with the broader forces that produced the murders, Boag uncovers how Loyd's violent acts reflected the brutality of American colonizing efforts, the anxieties of global capitalism, and the buried traumas of childhood in the American West. When the Chinese communists came to power in 1949 they promised to turn society upside down Efforts to build a communist society created hopes and dreams coupled with fear and disillusionment The Chinese people made great efforts towards modernization and social change in this period of transition but they also experienced traumatic setbacks Covering the period 1949 to 1976 and then tracing the legacy of the Mao era through the 1980s Felix Wemheuer focuses on questions of class gender ethnicity and the urban rural divide in this new social history of Maoist China He analyzes the experiences of a range of social groups under Communist rule workers peasants local cadres intellectuals ethnic minorities the old elites men and women To understand this tumultuous period he argues we must recognize the many complex challenges facing the People's Republic But we must not lose sight of the human suffering and political terror that for many now ageing quietly across China remain the period's abiding memory
