Critical International Political Economy Stuart Shields,Ian Bruff,Huw Macartney,2011-02-01 Amidst the continued debate surrounding the foundations of IPE coupled with recent methodological and theoretical divides this book argues that an attempt should be made to re visit the notion of the critical The challenge posed by contributors to this volume is to assess the development of so called critical IPE and interrogate whether the theoretical foundations it was built upon have reached their potential The essays in this volume take up this challenge in a number of different ways but all share a common concern to re assess the purpose of critical approaches reflect on why certain social theorists have been favoured as a point of departure yet others have largely been ignored In light of recent debates on the notion of a trans Atlantic divide within IPE the collection the contributors aim demonstrates how the distinction between the critical and the orthodox or empirical is only significant if the critical is geared towards a larger more substantial body of critical social enquiry and engages with what it means to conduct such enquiry

Charli Carpenter,2016-05-23 Examining the influence of gender constructs on the international regime protecting war affected civilians R Charli Carpenter examines how in practice belligerents advocates and humanitarian players interpret civilian immunity so as to leave adult civilian men and older boys at grave risk in conflict zones Providing a wealth of ground breaking case studies the author argues that in order to understand the way in which laws of war are implemented and promoted in international society we must understand how gender ideas affect the principle of civilian immunity Each case study demonstrates the importance of assumptions about gender relations in shaping international politics and in developing a framework for incorporating an attention to gender into the often gender blind scholarship on international norms As such this book will be of interest to international relations theorists and to human rights scholars students and activists alike
