Agatha Schwartz,2010-10-27 At the end of the nineteenth century Austro Hungarian society was undergoing a significant re evaluation of gender roles and identities Debates on these issues revealed deep anxieties within the multi ethnic empire that did not resolve themselves with its dissolution in 1918 Concepts of gender and modernity as defined by the Habsburg Monarchy were modified by the conservative liberal radical right wing and Communist regimes that ruled the empire s successor states in the twentieth century While these values have taken on new dimensions again in the post Communist period the Habsburg Monarchy s influence on gender and modernity in Central Europe is still palpable With a truly interdisciplinary approach drawing on the fields of women s studies gender studies sociology history literature art and psychoanalysis that touches on a variety of subjects gender roles sexual identities misogyny painting writing minorities this volume explores the lasting impact of the Austro Hungarian Empire in contemporary Central Europe which is fraught with gender conflict and tension between modernist and anti modernist forces The Austro Hungarian Empire was a fascinating multi ethnic society Its experience and understanding of gender and modernity provides important relevant lessons for today s world as it becomes increasingly intercultural and as issues of identity become more and more complex Published in English

tabula rasa approach to design signifying less a harsh disdain for site and more a response to a reality in which the ceremony of the stairs had died and was replaced by the pervasive flatness of the modern floor
