Gynecologic Oncology C.T. Griffiths, Arlan F. Fuller, 2012-12-06 At the turn of the century gynecology had achieved independence from surgery in most medical schools although gynecologists were surgeons their interests were turning toward nonsurgical aspects of their specialty In 1900 merely two years after the Curies discovery radium was first used as a treatment for carcinoma of the cervix In that day cervical cancer claimed more women's lives than any other malignancy and was described by William P Graves the second professor of gynecology at Harvard as follows Cancer of the cervix may rightly be termed of all tumors one of the most deadly and most ghastly It kills by slow torture causing in later stages months of agonizing pain and producing a discharge of such a foul and nauseating character as to repel proper medical assistance Nurses declined to care for these cases while many public hospitals closed their wards to them as patients In late twentieth century parlance the dramatic results of radium therapy would indeed have been called a breakthrough and radium techniques later combined with external irradiation were developed by gynecologists no longer just surgeons Pathology was the basic science of gynecology and gynecologists with a special interest in pathology served as pathologist to the departments of gynecology As late as 1970 six months of the three year residency program in obstetrics and gynecology at Harvard were devoted to formal training in pathology      Workshop on Radiotherapy for Lung Cancer, 1985
