Mendoza,2021-07-23 Every day we make decisions that are primarily based on what we believe have learned or accept as truth from our personal experiences At birth we begin to develop independent problem solving skills Making decisions and taking control of things is normal and expected No wonder God becomes more of a resource than The Source in our lives Most positions I held required me to be all in in both tangible and emotional ways I accepted the advice and direction of my worldly mentors and coaches without ever considering God s opinion This attitude and action rarely created the success I desired In fact I took risks that turned into disasters personally financially and professionally For years I jumped at every program book or idea that promised I would be able to manifest my desires What I

discovered is I never quite succeeded the way I wanted and had a false sense of success I questioned and doubted every decision and often created more problems than solutions I was always left searching for my purpose and my something more As I reflected on these experiences I started to look at my relationship with God differently I did not notice anything unusual until one morning God asked me if I was all in with Him All in with God Was I As I began to pray for wisdom God began to reveal to me various places where I was in fact not all in By addressing these areas getting obsessed with God and His opinion and being obedient to His word my life completely changed This experience produced the All In Paragon A step by step strategy for making a faith based paradigm shift resulting in quantum leap success and unstoppable flow **The**
