Changing Addiction Problems and Care Responses During and After a Major Crisis: Emergence of a 'New Normal' John Strang, Julia Rozanova, Alexandra A. Deac, Harry Skipper, 2024-07-24 Despite its lifesaving role addiction treatment and care are often among the first domains to lose resources when a crisis strikes Across the world disruptions in addiction related

care during the Covid 19 pandemic armed conflict or radical political change have been documented But what happens after the crisis is typically unknown How do addiction related problems change during a crisis and what are the responses at individual and societal level How do crises affect causes prevalence incidence or severity of addiction in different regions and populations Does the addiction care system permanently collapse or is the breakdown temporary and reversible How does a crisis evolve and what happens to addiction care services and their beneficiaries over time Is residual damage to addiction care services inevitable or can a crisis create opportunities for positive change at individual organizational and or system level Are harms and benefits un equally distributed among different addiction stakeholder groups And finally what does a new normal look like in addiction and addiction care and what new norms underpin it These questions not only encompass the importance of such a topic but also the implications on public health that are applicable worldwide that need to be addressed

Substance Abuse Joyce H. Lowinson, 2005 The premier text on substance abuse and addictive behaviors is now in its updated and expanded Fourth Edition with up to the minute insights from more than 150 experts at the front lines of patient management and research This edition features expanded coverage of the neurobiology of abused substances new pharmacologic therapies for addictions and complete information on club drugs such as Ecstasy New sections focus on addiction in children adolescents adults and the elderly and women s health issues including pregnancy The expanded behavioral addictions section now includes hoarding shopping and computer Internet abuse Includes access to a Companion website that has fully searchable text

Promoting Healthy Behaviour Dominic Upton, Katie Thirlaway, 2024-04-26 The new edition of this leading text is an essential guide to promoting healthy behaviour in a multi cultural society providing a holistic stance that integrates both physical and mental health and wellbeing With a comprehensive overview of the interplay between social class gender ethnicity and individual health differences the book also looks at key lifestyle issues such as eating well smoking drinking alcohol and safe sex as well as the mechanisms for behavioural change Each chapter features engaging case studies points for discussion and student activities Updated since the COVID 19 pandemic the new edition also discusses the effects of lockdowns on healthy behaviours An accessible and engaging text the third edition of *Promoting Healthy Behaviour* will continue to be essential reading for both students and practitioners across nursing public health and allied health professions

Substance Use and Older People Ilana Crome, Li-Tzy Wu, Rahul (Tony) Rao, Peter Crome, 2014-10-14 Substance use and addiction is an increasing problem amongst older people The identification of this problem is often more difficult in older patients and is frequently missed particularly in the primary care context and in emergency departments but also in a range of medical and psychiatric specialties *Substance Use and Older People* shows how to recognise and treat substance problems in older patients However it goes well beyond assessment and diagnosis by incorporating up to date evidence on the management of those older people who are presenting with chronic complex disorders which result from the problematic use of alcohol inappropriate prescribed or over the counter medications tobacco

or other drugs It also examines a variety of biological and psychosocial approaches to the understanding of these issues in the older population and offers recommendations for policy Substance Use and Older People is a valuable resource for geriatricians old age psychiatrists addiction psychiatrists primary care physicians and gerontologists as well as policy makers researchers and educators It is also relevant for residents and fellows training in geriatrics or geri psychiatry general practitioners and nursing home physicians Public Health Reports ,1998 **Alcohol Alert** ,2002-07 *Problems of Drug Dependence* College on Problems of Drug Dependence (U.S.).
