Beyond the Dichotomy Between Altruism and Egoism Emiliana Mangone, 2020-06-01 The birth of the social sciences and specifically of sociology begets some open questions among which the debate on altruism and the concept of social solidarity The term altruism was firstly used by Auguste Comte It is one of the few terms born within the scientific field that will enter the common language roughly maintaining the same meaning For the positivist Comte altruism represented the powerful impulse to the intellectual and moral development of humanity to which we must strive as a future state The term commonly means all those actions whose benefits fall on others and not on the agent actor In short for Comte altruism means to live for others *vivre pour autrui* The centrality of altruism as part of the reflections of social sciences can be found in many classic authors Durkheim for example explains the foundations of social solidarity in modern society precisely through the opposition between altruism and egoism and defines its implications in the book *Le Suicide* in 1897 also identifying what will later become the main typology of suicide by contrasting altruistic suicide with egoistic suicide Likewise both Weber and Marx while not using the term altruism as such refer to it indirectly The former when describing the ethics of love for the charismatic authority as opposed to legal and rational authority the latter when corroborating his polemics against Christian charity The interest in altruism as an object of study of social sciences however is progressively waning especially in Europe From the second half of the last century theoretical and empirical studies show the indifference of social scientists towards this object except for the Russian American sociologist Sorokin who in 1949 founded the Harvard Research Center in Creative Altruism In recent years however the topic seems to take renewed vigor especially in the United States with the birth in 2012 of the section Altruism Morality Social Solidarity within the American Sociological Association It considered these three aspects as a single field of disciplinary specialization since they are significantly dependent on socio cultural reality This is the situation in the United States In Europe there is a renewed interest in studies on altruism especially in French language sociology above all starting from the numerous contributions to reading and re reading work on Marcel Mauss's on gift of 1925 and in following the anti utilitarian movement and studies of the school of social representations of Moscovici which leads to the definition of the elementary forms of altruism The book aims to analyze the concept of altruism starting from classical philosophy up to the systems of ideas of contemporaneity considering the approaches and authors of reference in an interdisciplinary and transdisciplinary way The representations of altruism and egoism in contemporary society are constantly changing following the transformations of society itself Having abandoned the idea that the factors leading to altruism or egoism lay only in

human nature we find them in people's conduct, freedom, relationships, their associative forms, and society. The attention is thus turned to two elements of the daily life of individuals: culture and social relations. The book tries therefore through the meso theories developed in recent decades which study the relationships between life, world, and social system to describe the links between altruism, egoism, culture, and social relations. We will pay particular attention to the relationality of individuals in an attempt to overcome the dichotomy altruism/egoism by reading some aspects little considered by previous studies or contemplated only indirectly or marginally. The ultimate goal is to highlight how positive actions are necessary for the contemporary society and how social sciences must go back and study positive socio-cultural actions and phenomena, not only negative, as a way to promote them for the well-being of the society. Self and Others Jan Österberg, 1988-10-31 1. The Aim of This Essay: Ethical Egoism, the doctrine that roughly speaking one should promote one's own good, has been a live issue since the very beginnings of moral philosophy. Historically it is the most widely held normative theory, and next to Utilitarianism it is the most intensely debated one. What is at stake in this debate is a fundamental question of ethics: Is there any reason, except self-interest, for considering the interests of other people? The ethical egoist answers No to this question, thus rejecting the received conception of morality. Is Ethical Egoism an acceptable position? There are many forms of Ethical Egoism, and each may be interpreted in several different ways. So the relevant question is rather: Is there an acceptable version of Ethical Egoism? It is the main aim of this essay to answer this question. This Egoism means that I will be confronted with many other controversial questions, for example: What is a moral principle? Is value objective or subjective? What is the nature of the self? For the acceptability of most versions of Ethical Egoism it has been alleged depends on what answers are given to questions such as these. I will show that in some of these cases there is in fact no such dependence. It is of course impossible to adequately discuss all these questions within the compass of my essay.

The Ethics of Altruism Jonathan Seglow, 2004-02-19. The chief problem of human life, wrote Auguste Comte, is the subordination of egoism to altruism. This collection examines the nature and value of altruism as a moral virtue, restoring it to its proper place at the centre of our moral and political thinking. The first five essays in the collection explore the relationship between altruism and other moral concepts such as self-interest, autonomy, community, and impartiality. The five essays in the second part show how altruism is invoked in practical moral problems, including aid to developing countries, the market for human body parts, multiculturalism, and the politics of recognition and medical ethics. Through these discussions the central role of altruism in moral thinking is brought into sharper focus. **Altruism** Henry Epps, 2012-08-31. Altruism deals with the philosophy of helping others and putting the greater happiness for the good for the most people as a way of life.

Egoism, Altruism, and Social Justice Sjaap de Vries, 1991. **The Relation of Egoism and Altruism to Personal Identity** Adrian Martin Gough, 1988. **Unto Others** Elliott Sober, David Sloan Wilson, 1999-10-01. The authors demonstrate that unselfish behavior is in fact an important feature of both biological and human nature. Their book provides a panoramic

view of altruism throughout the animal kingdom from self sacrificing parasites to the human capacity for selflessness even as it explains the evolutionary sense of such behavior

The Good, the Bad, and the Just Riël Vermunt, 2016-03-16 Drawing on multidisciplinary findings and ideas this book discusses fair allocation of social resources such as goods services and information in a novel and integrated way The role of the essential features of allocation behavior motivation cognition and emotion as well as morality and reactions to perceived unfairness are examined in the newly developed Justice Model The author offers explanations as to why how and to what extent people in an effort to attain justice allocate social resources between self and others and among others It is held that the allocation event featuring actor recipient and observer as well as the resources to be allocated by an actor can function as a guideline for the essentials of fair behavior The work explores the conditions under which an actor may deviate from a just division of social resources thus instigating a reaction from recipients and observers The study covers various levels of analysis ranging from the intra personal to the societal The book will be of interest to academics and researchers working in the areas of crime law justice public policy and governance

A Scientific Search for Altruism Charles Daniel Batson, 2018 A Scientific Search for Altruism provides an example of how the scientific method can be used to address a fundamental question about human nature

Aristotle's Eudaimonism and the Rivalry Between Egoism and Altruism , 2005 In this dissertation I explore the variety of interpretations that have been given on Aristotle and the debate between ethical egoism and ethical altruism It can be phrased as the For Whom question of ethics in the sense of asking whose good or happiness eudaimonia should be one's main or final goal in ethics that of self or others In Aristotle this debate especially centers on his philosophy of friendship philia and the meaning of his claims that a friend is another self I begin by looking at the ideas of those who do not believe terms like egoism or altruism can be used with Aristotle and from their critique I develop basic working definitions of egoism and altruism that can apply to Aristotle's discourse Then I look at the wide spectrum of interpretations beginning with traditional egoistic eudaimonism those viewpoints that defend the traditional view that Aristotle's ethics is one of ethical egoism From there I move to views that uphold parts of the egoistic view but also argue that there is legitimate altruism or other regard in Aristotle Explorations of forms of altruistic elements continue through impersonal and personal views all the way to collective and citizenship or civic altruism Exploring the strengths and weaknesses of the variety of positions I then move to altruistic eudaimonism theories which hold Aristotle's ethics to be just as much or even more so one of altruism than egoism Finally in the last three chapters I use Aristotle's own archer analogy as an interpretive tool to help construct an alternative middle ground interpretation that seeks to pull from the strong points of the previous interpretations Following construction of the possible alternative view I apply it to the various issues and problems involved in the For Whom debate on Aristotle especially the issues of other selves self love contemplation and the noble kalon fineness or nobility

Altruism Versus Egoism Robert

Villegas, 2025-05-12 Sometimes a book just comes together As I am writing the various sections I do not always realize how they are supposed to go together With this book I was particularly concerned about which chapter should be the first the chapter that offers a highly positive perspective or the chapter that offers a negative position In this book I reverse the general view that many people have about both egoism and altruism Where many people regard altruism as superior morally I reverse the tables In my view it is egoism that is morally superior and I explain here what is good about egoism and what is evil about altruism In short I hold that egoism is highly beneficial for the individual I seek to expose the truth that egoism favors the human mind and human life while altruism exploits the mind and encourages man to live in slavery for the sake of moral authorities
