communicative competence but as an educational objective in its own right If the aim of foreign language education is to

foster cross cultural awareness and self realization language pedagogy needs to come to grips with a range of fundamental

issues what do we mean by cultural context Can discourse practices be taught like rules of grammar What role does

literature play in the development of second language literacy How can learners acquire both an insider's and an outsider's

understanding of the foreign culture as expressed through its language By exploring these and other issues the book can help

language teachers reflect on their profession and place it within its larger societal and educational context In turn they can help learners become not only skilful users of the language but also active architects of a new cross cultural world order

The German Joyce Robert K. Weninger, 2016-11-29 The first comprehensive account of the enormous impact of Joyce on German modernist and postmodern writers An indispensable book on Joyce s German face Gerald Gillespie Stanford University In August 1919 a production of James Joyce s *Exiles* was mounted at the Munich Schauspielhaus and quickly fell due to harsh criticism The reception marked the beginning of a dynamic association between Joyce German language writers and literary critics It is this relationship that Robert Weninger analyzes in *The German Joyce* Opening a new dimension of Joycean scholarship this book provides the premier study of Joyce s impact on German language literature and literary criticism in the twentieth century The opening section follows Joyce s linear intrusion from the 1910s to the 1990s by focusing on such prime moments as the first German translation of *Ulysses* Joyce s influence on the Marxist Expressionism debate and the Nazi blacklisting of Joyce s work Utilizing this historical reception as a narrative backdrop Weninger then presents Joyce s horizontal diffusion into German culture Weninger succeeds in illustrating both German readers great attraction to Joyce s work as well as Joyce s affinity with some of the great German masters including Goethe and Rilke He argues that just as Shakespeare was a model of linguistic exuberance for Germans in the eighteenth century Joyce became the epitome of poetic inspiration in the twentieth This volume through Weninger s critiques and repositions simultaneously revisits the fraught relationship between influence and intertextuality in literary studies and reassesses their value as tools for contemporary comparative criticism today Robert K Weninger emeritus professor of German and comparative literature at King s College London is author or editor of over ten books including *Arno Schmidts Joyce Rezeption 1957 1970 Ein Beitrag zur Poetik* Arno Schmidts and is a past editor of the *Journal of Comparative Critical Studies* [A Companion to Twentieth-Century German Literature](#) Raymond Furness, Malcolm Humble, 2003-09-02 Containing entries on over four hundred authors of fiction poetry and drama from Germany Austria and Switzerland this invaluable work of reference presents material of a range and depth that no other book on the subject in English attains For the second edition the entries have been updated to include the most recent works of German literature A number of new entries have been added dealing in particular with the East German literary scene and the changing literary landscape after reunification In addition to basic biographical facts the Companion offers summaries information on involvement in literary groups and political developments schools and movements critical terms and aspects of the other arts including film *Encyclopedia of Contemporary German Culture* John Sandford, 2013-04-03 Pre and post unification culture Includes Austria and Switzerland Annotated suggestions for further reading English and German language works [German Literature of the Twentieth Century](#) Ingo Roland Stoehr, 2001 Traces literary developments in the German speaking countries from 1900 to the present This study of German literature in the past hundred years sets its subject clearly in the artistic and political context of developments in Western

Europe during the century It begins with the turn of the century aestheticism and visions of decay led by Schnitzler Hofmannsthal and other Austrian writers and the quite different explosion of new artistic energy in the Expressionist and Dada movements These movements are succeeded by the rise of Modernism culminating in the inter war years the poetry of Rilke Brecht's epic theatre and novels by Thomas Mann Kafka Hesse Musil Döblin and Broch the influence of Nazism on literary production is considered The study of developments after 1945 reflects the struggle to establish a post Holocaust literature and to deal with the questions posed by the political division of Germany Finally the convergence of East and West German literature after unification is addressed Ingo R Stoeckh teaches literature at Kilgore College Texas and is editor of the bilingual journal of German literature in English translation *Dimension 2*
