Edwin Whitefield Nineteenth Century North American Scenery:

Edwin Whitefield--nineteenth-century North American Scenery Bettina A. Norton,1977 Edwin Whitefield was an American 19th century painter and lithographer known for his depictions of landscapes and houses Prints and Printmakers of New York State, 1825-1940 David Tatham,1986-08-01 For well over a century New York has been a microcosm of the art and craft of American printmaking Until 1825 printmaking in America was almost entirely an artisan s craft Then with the arrival of lithography the realization arose that printmaking could also be a fine art The essays published in this collection contribute to the body of scholarship by identifying important but hitherto insufficiently studied aspects of the graphic arts and treating them authoritatively Their subjects concern prints in New York State whose great metropolitan city was after 1825 the acknowledged center of nearly everything important in the graphic arts in the U S The history of American prints from 1825 on is enormously rich yet until the 1970s it was the least studied and understood aspect of the history of art in North America It is a history more deeply rooted in popular culture and more closely tied for a long time to the world of commerce than the other arts The usually small scale sometimes ephemeral and often highly subtle or highly unsubtle nature of prints makes it easy to overlook them The collection of essays included here were originally presented at the Twelfth Annual North American Print Conference held in 1981 in Syracuse New York Locally organized these conferences have been held during the last decade throughout the U S and Canada to further the study of the history of the pictorial graphic arts in North America Contributors include several leading historians of the graphic arts of nineteenth century America Their chapters bring to life and flesh out figures who were previously little more than names establish facts that correct long held erroneous assumptions introduce many prints of exceptional interest that have remained out of the public view for generations and provide a rich new context for many familiar images *Views and Viewmakers of Urban America* John William Reys,1984 Union list catalog of the lithographic views of cities and towns made during the 19th century The Evolution of Washington, DC James M. Goode,2015-03-17 The Evolution of Washington DC is a striking volume featuring select pieces of the extraordinary collection of Washingtoniana donated by Albert H Small to the George Washington University in 2011 It showcases treasures such as an 1860 lithograph of the equestrian statue of Andrew Jackson in front of the White House and a contemporary print of old Potomac River steamboats Other unique pieces include early designs for the White House the Capitol and the Washington Monument as well as presidential portraits and Civil War memorabilia Each object from architectural plans and topographical maps to letters and advertisements tells a fascinating story and together they illustrate the history of our nation s capital and indeed our nation itself *Visualizing the Nineteenth-century American City* Isabel Thompson Breskin,2002 **Big House, Little House, Back House, Barn** Thomas C.
