## **Effective Schooling For Pupils With Emotional And Behavioural Difficulties:**

**Effective Schooling for Pupils with Emotional and Behavioural Difficulties** John Visser, 2013-10-23 First Published in 1998 Increasing pressure and new demands on LEAs schools and their staff have led to an overall reduction in the number of special schools for children with EBD and a questioning of their place within the range of provision for these pupils Recent attention has also been drawn by HMCI to the number of these schools which have failed to pass the OFSTED inspection process This book is based on a national examination of special schools providing for pupils with EBD The authors identify factors associated with good practice and offer advice on how schools can become more effective in providing for the country's most troubled and challenging pupils They also highlight aspects of successful provision which can be applied in mainstream schools and pupil referral units

**Handbook of Emotional and Behavioural Difficulties** Peter Clough, 2005 The book reveals itself to be both a scholarly and practical resource that will be indispensable to anyone seeking insight and direction for understanding and responding to EBD in the 21st century Professor Paul Cooper The University of Leicester

**Effective Schools for Disaffected Students** Paul Cooper, 2002-03-11 Disaffected pupils respond well in circumstances where they feel secure where they have a sense of being valued and respected and where they perceive there to be opportunities for them to succeed Effective Schools for Disaffected Students offers insights into how these outcomes might be achieved in both mainstream and segregated settings The investigation is based on the views of pupils who have been excluded from mainstream schools for pupils with emotional and behavioural difficulties The author relates the pupils' experiences of the different types of school to research in the area of school effectiveness He offers some practical guidelines on ways in which teachers and managers can work towards reducing disaffection in schools within the real life contexts in which they occur The book will appeal to anybody whose concerns are with the everyday realities of schooling

**'Problem' Girls** Gwynedd Lloyd, 2005 The author of this book uses a perspective which recognises current thinking about emotional and behavioural difficulties but crucially acknowledges the gender specific difficulties faced by girls and young women

topics or issues across various applications of action research      *The Routledge International Companion to Emotional and Behavioural Difficulties* Ted Cole, Harry Daniels, John Visser, 2012-10-12 Responding to disruptive or troubled pupils with emotional and behavioural difficulties EBD remains a highly topical issue The challenges these children present relate to wider issues of continuing political concern the perceived declining discipline in schools school and social exclusion the limits to inclusion for children with special needs increasing mental health difficulties in children youth crime and parenting skills It s little wonder that the EBD often known as BESD or SEBD category is one of the most common forms of SEN around the world This topical and exhaustively researched Companion examines the difficulties of defining EBD and the dangers of allocating this imprecise label to children Bringing together the work of contributors from fifteen countries and across four continents this book features the research of leading experts in the global field of EBD who discuss and debate educators key concerns by looking at the overlaps between EBD ADHD and mental health difficulties outlining the types of appropriate schooling for children with EBD urging readers to look beyond pupils challenging behaviour in order to understand and respond to the social biological and psychological causation considering the key areas of assessment whole school and targeted approaches that help pupils with EBD in mainstream and in special settings outlining helpful work with families the crucial contribution of effective multi agency working and the importance of supporting and developing teachers who work with challenging pupils Containing contrasting views on controversial topics this Companion s approachable style makes it an essential reference book for academics policy makers practitioners educators and students who are working towards a higher degree in education      Perspectives on Student Behaviour in Schools Mere Berryman, Ted Glynn, Janice Wearmouth, 2007-05-07 The authors of this comprehensive text discuss the root causes of disruptive behaviour tackle assessment issues and develop effective intervention strategies that will be of practical use to teachers and other educators Whilst theorising behaviour management from a range of perspectives psychodynamic behavioural and socio cultural the authors remain firmly focused on practical issues of policy making assessment and intervention and address a wide range of related issues such as policy in relation to behaviour in schools at local authority national and international level cultural concerns race gender school discipline and exclusion medical perspectives of topical interest such as ADHD autism and diet assessment at district community classroom and individual level and how these underpin theory This book will appeal to anyone for whom behaviour in schools is a key concern such as student teachers teacher educators senior school managers and practising teachers undertaking further study in the field      Transferring the Notion of Good Practice when Working with Pupils with Emotional, Behavioural and Social Difficulties in a Cypriot Educational Context Stella Tryfonos, 2014-11-19 Pupils with Social Emotional and Behaviour Difficulties often known as SEBD and EBD comprise a group of learners who present challenges to their educators and the educational system often working with these pupils can be challenging and stressful for their teachers as well as any professional involved In England research concerning the education and learning of

pupils with SEBD has progressed considerably in the past three decades and good practice when working with pupils who present these difficulties has been widely investigated In Cyprus however it is not nearly so widely known about and has not been researched to any great extent This book explores the situation in the Cypriot education system and begins by expanding the reader's knowledge on developments on the education of those pupils whose behaviour raises challenges to the educational system and causes concerns to those involved The book is informed by research which was undertaken by the author in Cyprus and documents the views of educators and professionals on good practice It explores the microsystem of a school and will enrich the knowledge and understanding of those with personal and professional interests in working with these pupils to be ready to accommodate their needs The book also contributes to a better understanding of the nature of SEBD especially since the number of students presenting such difficulties in Cypriot primary education requires practitioners to be ready to provide the best practices possible
