Theological Wordbook John F. Walvoord,Donald Cambell,John A. Witmer,2000-10-17 Stimulating theology is an oxymoron for most people Theology sounds like something for the severely intellectual full of complicated ideas that escape the typical Christian reader In reality theology is meant to

enhance our understanding of God Most of the words that make up the Christian vocabulary are common words drawn from the realities of life and therefore are easily applicable to real life Based on this premise four leading authors have come together to create this excellent volume The Theological Wordbook tackles tough words such as propitiation regeneration righteousness and predestination but it does so in a natural plain spoken manner designed to be enlightening rather than evasive Also literally dozens of words you are likely to use every day such as forgiveness mind peace rest family truth and guilt have profound biblical value Using The Theological Wordbook can enable you to more fully appreciate what the Bible teaches on these crucial topics and how each of these terms is relevant for life today As this happens your understanding of God will expand And as the words you use speak and hear in the community of faith become more familiar you will become more connected to your own spiritual heritage The Theological Wordbook is the link between understanding God's Word in your head and accepting it in your heart

Growth by Accident, Death by Planning Bob Whitesel,2010-10-01 It is a familiar experience A congregation that had been growing in numbers and spiritual vitality reaches a plateau and then begins to decline Most of the time the plateau occurs long before the church arrives at the optimum number of members it hoped to attract What has happened here Why does growth slow down stop and then decline The real question to ask says Bob Whitesel is why the church grew in the first place Most of the time young growing churches make a series of decisions based not upon careful planning and analysis but rather upon necessity and intuition Thus these decisions are not planned strategies but strategies that often occur by accident owing their genesis to circumstance These unplanned strategic decisions are driven not by knowledge but often simply by the church s environment When that growth slows these same churches begin to engage in more careful planning The problem is that this planning so often ignores the considerations and decisions that led to the church s growth to begin with The result is stagnation and eventual decline In the plain direct style that is his hallmark Whitesel lays out where churches go wrong in their planning for growth and how they can correct themselves He does so by looking at three related phenomena first the factors that cause initial growth second the erroneous decisions that lead to getting stuck on the plateau and finally corrective steps that churches can take to regain growth and vitality *The Wesleyan Preaching Resource* Derl
