

# How does behavioural science help improve the workplace?

Behavioral science has a long tradition of being applied to organizational settings directly and indirectly. Interventions rooted in psychology can help improve the workplace on various levels and are used in companies worldwide.

## Performance management

Performance management seeks to enhance performance by setting goals for individuals and teams that they identify with.

## Creativity and innovation

Creativity and innovation thrives when people feel comfortable to think uniquely. Organizations that allow for warmth, tolerance and failure foster better outputs.

## Nudging behavior

Human irrationality can be harnessed and steered to particular outcomes. Nudging can help productivity, innovation, task efficiency and more by altering individuals' starting positions.

## Workplace culture and processes

Daily procedures that consider well-being and respectful communication, as well as using psychology to inform hiring can help hire the right people, who will succeed and feel good.
