Effective Management in Therapeutic Recreation Service, Third Edition Marcia Jean Carter, Christen G. Smith, 2013-12-31

Effective Management in Therapeutic Recreation Service Marcia Jean Carter, Gerald S. O'Morrow, 2022

Effective Management in Therapeutic Recreation Services Fourth Edition provides theoretical and practical knowledge about the management of therapeutic recreation services in health and human service organizations. The text was written for upper level undergraduate and graduate students as well as practitioners. The text was also prepared for a therapeutic recreation specialist who has responsibility for managing direct therapeutic recreation service and the assignment and direction of staff volunteers and interns who deliver the service. While all the information useful to a potential manager or practicing manager is not in this one volume, the intent is to present the important portions of management information relevant to the professional who is a first line manager. Changes are taking place on a daily basis in health and human service organizations which in turn affect recreational therapy practice and its management. Management regardless of setting will change dramatically in the future. Thus some statements may not be as appropriate as they were at the time the manuscript was prepared.

Gaining an understanding of the recreation and parks profession is crucial to success in the field and to effective leadership within the field. *Recreation and Parks: The Profession* is a one of a kind resource that delineates the components that make this complex field a profession. Written by well known recreation authority Betty van der Smitten, this book defines the marks of the recreation and parks profession and identifies the steps involved in becoming a professional in the field. Profiles of 62 professional organizations within the profession provide a Web site that features a time line of the development of areas and organizations of the profession and the most up to date Web addresses for organizations detailed in the text. Outlines a comparative history of 15 categories of the recreation and parks field in the United States and Canada and presents a classic to contemporary bibliography of resources that showcases an inclusive body of knowledge on the profession. Part I describes recreation and parks as a profession and provides students with steps to lay a solid foundation to become a professional. Part II grounds readers with a comparative historical overview of the recreation and parks field from the 1500s to the present day. The author divides the field into 15 categories and offers suggestions on how to use the time line. Part III profiles 62 professional organizations. Each profile includes the organization's mission, goals, structure, history, publications, services, and professional credentialing information. In addition, it lists the organization's Web sites, contact information, and other vital information that students use in completing course work in applying for internships and in researching various aspects of the profession. Part IV contains a bibliography of selected resources on recreation and parks from classic to the present. *Recreation and Parks: The Profession* includes a Web site that not only provides links to other current Web sites for the organizations profiled but it also is linked to a color coded version of the time line.
