Ehipgorbachev And His Revolutn Pr

Jack L. Snyder

Ehipgorbachev And His Revolutn Pr:

Gorbachev and his Revolution Mark Galeotti, 1997-01-29 By turns radical uncertain ambitious and autocratic Mikhail Gorbachev and his bid to reform the Soviet Union have shaped the contemporary world This concise and lively book provides an introduction to the man and his times setting them in the context of a decaying and ramshackle empire and an ideology long since betrayed by its professed followers Drawing on the latest memoirs and scholarship this book follows Gorbachev s increasingly desperate attempts to control the forces he unleashed and hold together a state whose days were over

Soviet History in the Gorbachev Revolution R. W. Davies, 2015-12-30 Since Gorbachev took office in 1985 every aspect of the Soviet past has been under scrutiny Tens of millions of Soviet citizens are eagerly absorbing and debating the vast outpouring of novels books and articles and films and TV programmes about their past Much new information has appeared often sensational about how the Stalin regime worked and what it meant for top politicians generals intellectuals and ordinary citizens Stalinists Russian nationalists democratic socialists and others are locked in bitter debate Was the victory of Stalinism inevitable Was there an alternative road to socialism Even Lenin and his policies are now questioned The Politburo itself is deeply divided about how far the debate should go and what conclusions should be drawn from it The reconsideration about the past is part of the discussion about the way forward for Soviet society how big should be the role of the market How much freedom and democracy

Russia's Revolution from Above 1985-2000 Gordon M. Hahn, Relying on a wealth of detailed institutional policy and elite information Hahn presents a magisterial study that fills a significant void in our understanding of USSR s destruction While readers may at times feel overwhelmed readers are presented with a conceptual approach that can be useful for appreciating ongoing institutional changes and often subtle elite maneuverings in the post Soviet era John P Willerton University of Arizona This is a big book in all respects weighty both in size and scholarship The core is a meticulous analysis of the perestroika period of the Soviet Union 1985-91 Followed by a concluding general chapter that applies the earlier analysis to post Communist Russia 1992-2000 The work is based on years of painstaking analysis considerable archival research and numerous interviews The Russian Review This is an important book with a number of substantive strengths Slavic Review The fall of the Soviet communist regime in 1991 offers a challenging contrast to other instances of democratic transition and change in the last decades of the twentieth century The 1991 revolution was neither a peaceful revolution from below as occurred in Czechoslovakia nor a negotiated transition to democracy like those in Poland Hungary or Latin America It was not primarily the result of social modernization the rise of a new middle class or of national liberation movements in the non Russian union republics Instead as Gordon Hahn argues the Russian transformation was a bureaucrat led state based revolution managed by a group of Communist Party functionaries who won control over the Russian Republic RSFSR in the mid 1990s Hahn describes how opportunistic Party and state officials led by Boris Yeltsin defected from the Gorbachev camp and proceeded in 1990-91 to dismantle the institutions that bound state and party These

revolutionaries from above seized control of political economic natural and human resources and then separated the party apparatus from state institutions on Russian Republic territory With the failed August 1991 hard line coup Yeltsin banned the Communist Party and decreed that all Union state organs including the KGB and military were under RSFSR control In Hahn's account this mode of revolutionary change from above explains the troubled development of democracy in Russia and the former Soviet republics Hahn shows how limited mobilization of the masses stunted the development of civil societies and the formation of political parties and trade unions with real grass roots The result is a weak society unable to nudge the state to concentrate on institutional reforms society needs for the development of a free polity and economy Russia's Revolution from Above goes far in correcting the historical record and reconceptualizing the Soviet transformation It should be read by historians economists political scientists and Russia area scholars Gordon M Hahn is visiting scholar at the Hoover Institution Stanford University His articles on Soviet and Russian politics have appeared in *Europe Asia Studies Problems of Post Communism Russian Review* and *Russian History Histoire Russe* *Gorbachev's Reforms* Susanne Sternthal, 1997-10-28

Gorbachev's reforms in domestic and foreign policy were motivated by the overriding objective of making Soviet socialism a legitimate and viable alternative among the world community of nations Drawing on recently opened archives this study examines the radicalization of Gorbachev's reforms and the resistance to them from the conservatives in the party apparatus and the military Gorbachev sought to demilitarize the Soviet Union from the beginning but that process took on a more revolutionary hue as he came to understand how deeply embedded Stalinism was He sought to continue where Lenin had left off believing that Stalin had sidetracked and deformed Soviet socialism Toward this end Gorbachev redefined the image of the enemy by emphasizing common human values in international relations over class conflict and altered the nature of the threat by stressing the primacy of economic over military competition Gorbachev changed the terms of political discourse and by changing the way in which the Soviet Union viewed the world he sought to make improvements in relations with the West and to decrease the military burden of his overstretched country *Gorbachev's Glasnost* Oliver Trager, 1989 A collection of newspaper editorials and cartoons on the subject of the Gorbachev government and the General Secretary's style of leadership known as glasnost *Reluctant European* Stephen Wall, 2020-09-25

In 2016 the voters of the United Kingdom decided to leave the European Union The majority for Leave was small Yet in more than 40 years of EU membership the British had never been wholeheartedly content In the 1950s governments preferred the Commonwealth to the Common Market In the 1960s successive Conservative and Labour administrations applied to join the European Community because it was a surprising success whilst the UK's post war policies had failed But the British were turned down by the French When the UK did join more than 10 years after first asking it joined a club whose rules had been made by others and which it did not much like At one time or another Labour and Conservative were at war with each other and internally In 1975 the Labour government held a referendum on whether the UK should stay in Two thirds of voters decided to do so But the wounds did

not heal Europe remained them not us The UK was on the front foot in proposing reform and modernisation and on the back foot as other EU members wanted to advance to ever closer union As a British diplomat from 1968 Stephen Wall observed and participated in these unfolding events and negotiations He worked for many of the British politicians who wrestled to reconcile the UK's national interest in making a success of our membership with the sceptical even hostile strands of opinion in parliament the press and public opinion This book tells the story of a relationship rooted in a thousand years of British history and of our sense of national identity in conflict with our political and economic need for partnership with continental Europe

Myths of Empire Jack L. Snyder, 2013-05-21 Overextension is the common pitfall of empires Why does it occur What are the forces that cause the great powers of the industrial era to pursue aggressive foreign policies Jack Snyder identifies recurrent myths of empire describes the varieties of overextension to which they lead and criticizes the traditional explanations offered by historians and political scientists He tests three competing theories realism misperception and domestic coalition politics against five detailed case studies early twentieth century Germany Japan in the interwar period Great Britain in the Victorian era the Soviet Union after World War II and the United States during the Cold War The resulting insights run counter to much that has been written about these apparently familiar instances of empire building

Gorbachev's Third World Dilemmas Kurt M. Campbell, S. Neil Macfarlane, 2022-12-28 Gorbachev's Third World Dilemmas 1989 examines the strategic political and ideological criteria which shaped Soviet policies toward the developing world Organized around particular themes and issues it pays attention to both theoretical fundamentals in Soviet doctrine and to Soviet actions in specific regions The topics range widely and include the Soviet conception of regional security Soviet arms transfers and military aid to the developing world the developing world in Soviet military thinking the USSR and crisis in the Caribbean Soviet policy towards Southern Africa notably Angola and Mozambique and Soviet policy towards Southwest Africa It looks at the activist foreign policy that Gorbachev inherited and explores the elements of change and continuity that Gorbachev and the Soviets faced

Down with Big Brother Michael Dobbs, 2013-10-17 The author of this volume was present during the final decade of the Soviet empire first for Reuters then for the Washington Post While Dobbs watched playwrights and electricians were transformed into presidents while Communist Party leaders became jailbirds or newly minted tycoons He identifies the seeds of destruction and shows how Mikhail Gorbachev in particular was the unwitting inspiration for the upheaval of the empire while he thought he could save the Communist Party by reforming it Dobbs conclusion is that though Big Brother may be dead his dark legacy is still alive in the turbulence in Russia Romania Bosnia and other countries that once made up the most brutal empire of the 20th century

Editorials on File, 1991

Intellectuals and Apparatchiks, *Arsenals of Folly* Richard Rhodes, 2008-11-04 Pulitzer Prize winning author Richard Rhodes delivers a riveting account of the nuclear arms race and the Cold War In the Reagan Gorbachev era the United States and the Soviet Union came within minutes of nuclear war until Gorbachev boldly launched a campaign to eliminate nuclear

weapons setting the stage for the 1986 Reykjavik summit and the incredible events that followed In this thrilling authoritative narrative Richard Rhodes draws on personal interviews with both Soviet and U S participants and a wealth of new documentation to unravel the compelling shocking story behind this monumental time in human history its beginnings its nearly chilling consequences and its effects on global politics today

Executive Power and Soviet Politics Eugene Huskey, 2016-06-16 Ever since the behavioral revolution reached Communist studies more than 2 decades ago Western scholarship has tended to ignore the powerful and unwieldy institutional structure of the Soviet government Today suddenly it is clear that the dramatic political and legislative reforms of the Gorbachev years will remain incomplete as long as the issues of state bureaucratic power and executive prerogative are unresolved This volume brings together original studies of the Soviet executive under Gorbachev by specialists including Barbara Chotiner Stephen Fortescue Brnda Horrigan Ellen Jones Wayne Limberg T H Rigby and Louise Shelley Among the topics covered are the major economic national security and law enforcement ministries the presidency the cabinet and questions of presidential ministerial presidential legislative executive and party state relations

Newsweek, 1998 *The Impact of Gorbachev's Reform Movement on the Soviet Military* United States. Congress. House. Committee on Armed Services. Defense Policy Panel, 1989 *The Rise and Fall of the Communist Revolution* Warren Hasty Carroll, 1995 This magisterial study of international Communism presents the whole mighty drama of global socialism and Marxism from its pre Bolshevik origins through the establishment of a Communist empire over one third the world population to the shattering defeat of the Soviet state in 1991 A landmark work of history exhaustively documented and narrated in a compelling style

Transforming China Peter Nolan, 2004 At the end of the 1970s China was a poor country with a huge population ruled by the Chinese Communist Party The domestic economy was organized through direct administrative instructions and was isolated from the international economy After a quarter of a century China has been transformed beyond imagination In *Transforming China* Peter Nolan one of the foremost experts on the Chinese economy examines the enormous challenges faced by China s policymakers Spanning a period of thirty years from the late 1970s to the present day the essays in this book address different aspects of those challenges The development challenge involved devising policies that would raise the mass of the Chinese people out of poverty and avoid the disasters that had in the worst cases caused millions of deaths through famine The transition challenge involved firstly resolving the relationship between changes in the economic and political systems and secondly finding the correct sequence and nature of reforms necessary to improve economic performance The globalization challenge involved identifying the best way in which to integrate China s economic system with the international economy at a time of revolutionary change in the global business system Brought together in one collection for the first time these seminal essays seek both to enhance understanding of China s immense success in meeting these challenges in the past and to provide an indication of the challenges that still lie ahead China s system reforms have been described as groping for stones to cross the river The

journey across the river is far from over and the other bank is only dimly visible Congressional Record United States.

Congress,2001 **Negotiating with the Russians on Nuclear Arms** John H. Downs,1997-04-24 This is a fascinating story about private lawyers successfully negotiating with Russian professionals about critical nuclear arms problems during the Cold War from 1983 to 1991 The lawyers demonstrated that committed citizen diplomats could have an influence on official policies when governments were unable or unwilling to negotiate These delegates produced and distributed scholarly technically accurate joint papers recommending approaches and solutions to nuclear arms problems which the governments had not resolved because of relations poisoned by fear and distrust The book describes the extensive efforts of these Track II citizen diplomats to offset anti American propaganda permeating Soviet society It is a how to manual for non governmental organizations concerned with funding organizing and managing international conferences on complicated urgent problems

History, the White House and the Kremlin Michael Graham Fry,2016-10-06 Historical knowledge in its various forms learned observed and experienced is one of the principal intellectual resources available to politicians and the officials who serve them These policy communities habitually though sometimes naively inexpertly and misleadingly use history in the crafting of policy In this book the question of whether politicians use history wisely and judiciously is posed about those who inhabit the Kremlin as well as the White House The question has several dimensions which are examined here in a series of original essays Is historically based reasoning rational How influential is historical knowledge in deliberations over policy And does historically based reasoning lead to sound decisions about future policy The authors range over a wide area of economic and political issues Palestine Soviet policy British and United States hegemonies and comparable predicaments United States acceptance of its international responsibilities Soviet expansionism the Cuban Missile Crisis US policy towards Latin America and the historical content of President Bush Sr s response to Iraq s invasion of Kuwait
