Margins Jeremy Groskopf,2021-12-07 Between the advent of print advertising and the dawn of radio came cinema ads These ads aimed at a captive theater audience became a symbol of the developing binary between upper class film consumption and more consumerist media In Profit Margins Jeremy Groskopf examines how the ad industry jockeyed for direct advertisement space in American motion pictures In fact advertisers who recognized the import of film audiences fought exhibitors over what audiences expected in a theater outing Looking back at these debates in four case studies Groskopf reveals that advertising became a marker of class distinctions in the cinema experience as the film industry pushed out advertisers in order to create a space free of ads By restricting advertising especially during the rise of high class palatial theaters the film industry continued its ongoing effort to ascend the cultural hierarchy of the arts An important read for film studies and the history of marketing Profit Margins exposes the fascinating truth surrounding the invention of cinema advertising techniques and the resulting rhetoric of class division *Diversity and Society* Joseph F. Healey,2011-03-02 Derived in part from Joseph F Healey s best selling text Race Ethnicity Gender and Class this accessible 10 chapter text teaches concepts and theories through current engaging topics such as the Obama election and presidency and the economic recession An analysis of minority dominant relations is presented clearly reinforced through case studies and enhanced through gender and comparative perspectives Particular emphasis is given to the history of race and ethnicity in the United States with more coverage than any other brief text **Failure** Vicki E. Alger,2016-07-01 A comprehensive account and frank assessment of federal involvement in education is long overdue Education policy expert Vicki E Alger remedies this deficiency with her book Failure The Federal Miseducation of America s Children As its title indicates Failure makes no effort to sugar coat its findings Created in 1979 after a lobbying campaign that spanned generations the Department of Education has failed to live up to its promises Federal involvement whether related to testing funding or academic curricula has failed to abide by the Constitution s implication that education must remain the domain only of state and local governments and private institutions Most of all the central government s pervasive meddling in education has failed America s school children and their parents Education policy has long been mired in controversies often with opposing sides missing the mark Failure helps us step back from the skirmish du jour and redirects our focus to the big picture showing us what s gone wrong over the decades and the institutional causes of these failures It also offers a bold blueprint for returning the federal government to its constitutional

role and for cultivating an educational system that meets the needs of students and parents rather than bureaucrats
Concerned citizens of every stripe will benefit from Failure's history of federal education policy its brutally honest report
card for the Department of Education its look at education systems across the globe and its ambitious policy
recommendations Failure might even succeed in reframing the way the federal education establishment thinks about
education policy
