## **Education And Living:**

**Education and Schmid's Art of Living** Christoph Teschers, 2017-07-14 Instead of simply following the current neoliberal mantra of proclaiming economic growth as the single most important factor for maintaining well being Education and Schmid's Art of Living revisits the idea of an education focused on personal development and the well being of human beings Drawing on philosophical ideas concerning the good life and recent research in positive psychology Teschers argues in favour of shifting the focus in education and schooling towards a beautiful life and an art of living for today's students Containing a thorough discussion of the ideas of contemporary German philosopher Wilhelm Schmid this book considers the possible implications of developing a more humanistic and life centred approach to educational policy research and practice showing that Schmid's concept of *Lebenskunst* provides a firm philosophical basis for this endeavour Among others this book draws on analytical and continental traditions to challenge current views and assumptions in regard to education and the role of schooling for contemporary societies As a result Teschers work is sure to spark a debate about the direction of educational policy and practice in the 21st century Education and Schmid's Art of Living is essential reading for academics and students with an interest in education Given the importance of such topics as the relationship between education and society teacher education and how best to structure schools and learning environments Teschers work will appeal to academics and students in a diverse range of fields including education philosophy sociology and psychology

*Life and Moral Education in Greater China* John Chi-Kin Lee, Stephen Yam-wing Yip, Raymond Ho-Man Kong, 2021-03-30 Arguing for life moral and values education as a bedrock for the original goals of school education this monograph explores how life and values education is conceptualised and imparted in Greater China Under a globalized transnational and technological world where there has been an increase in people's mobility in information and cultural exchanges there is also a growing emphasis on personal and professional ethics Against this context life moral and values education has gained attention for its impact on shaping students characters as future citizens However the cultivation of these values is made deeply diversified and complex by varying interpretations of life education and values education across societies given that different societies are influenced by different socio cultural traditions educational ideologies and religious beliefs The means and approaches towards life education also vary vastly from formal school subjects school based programmes as well as teachers and peers role modelling community services extra curricular activities school discipline charity work pastoral care and school ethos Recognising this inherent diversity and complexity in the approach to and the dissemination of life education the contributors to this volume survey the practice of life education in Greater China so far suggesting that life education is most effective when it is diversified dynamic and developmental across contexts This book will provide the opportunity for engaging in important and serious debates about the future and the values that will underpin it and will prove of special interest to scholars and practitioners working on education policies curriculum development and teacher education in Greater China

**School Life ,1949      The Living Church ,1919      Education for Sustainable Happiness and Well-Being**

Catherine O'Brien,2016-04-14 In this innovative and cogent presentation of her concept of sustainable happiness Catherine O'Brien outlines how the leading recommendations for transforming education can be integrated within a vision of well being for all Solution focused the book demonstrates how aspects of this vision are already being realized and the potential for accelerating education transitions that enable people and ecosystems to flourish Each chapter assists educators to understand how to apply the lessons learned both personally and professionally The aim is to support educators to experience themselves as change makers with growing confidence to implement new teaching strategies and inspire their students to become change makers as well engaged in deep learning that develops character connections with life and invigorating collaborations that revitalize the very purpose of education      *Music Lessons for a Living Planet* Daniel J.
