Reynolds, Elaine Fletcher-Janzen, 2007-01-02 Offers a thoroughly revised comprehensive A to Z compilation of authoritative information on the education of those with special needs **Learning and Learning Difficulties** Peter Westwood, 2013-05-24 This text explores a number of different perspectives and theories on human learning and motivation The author gives significant attention to different types of learning across the curriculum and examines effective types of teaching to facilitate different forms of learning Detailed consideration is given to factors that contribute to common learning problems in school and many practical suggestions are provided for preventing or overcoming Moral Issues in Special Education Robert F. Ladenson, 2020-08-15 The book identifies and some of these difficulties analyzes important yet insufficiently explored moral issues in k 12 special education It aims to achieve a successful combination of experience and theory The experience comes from the many years the author was an Illinois special education due process hearing officer 1987 2007 The theory comes from the even more years he taught and did scholarly work in the areas of moral political legal and educational philosophy as a philosophy professor 1969 2012 Each of the moral issues considered in the book figured importantly in one or more of the most significant disputes the author was called upon to adjudicate Throughout the book he draws upon important concepts in moral political legal and educational philosophy as conceptual resources He considers these concepts invaluable for analyzing moral issues especially when a person experiences discomfort caused by a sense that an issue is morally problematic but finds it hard to articulate the crux of the issue Throughout the book however the author has tried hard to write in language that readers unfamiliar with the terminology and discourse style of philosophy can understand and always to make it apparent why and how particular philosophical points bear upon important moral issues in k 12 special education Resources in Education ,1998-10
