The Cultural Psyche Dinesh Sharma, 2021-04-01 As envisaged by Robert A LeVine many years ago the human development indicators have improved in many societies as income healthcare and educational opportunities have been enlarged Global transformations have led to significant decline in extreme poverty and an increase in working class and middle class families around the world in the emerging economies throughout Africa and Asia As the technological and global influences continue to challenge the dominant narrative in academic psychology conflated with WEIRD data assumptions interdisciplinary research will continue to increase in value and scope where LeVine s classical approach in psychological anthropology combined with psychoanalysis developmental psychology demography language or area research and population studies offers a path forward The essays collected here in addition to honoring LeVine s work hold out the promise of a real convergence between psychology and anthropology or the development of a psychosocial science a confluence between positivism and relativism empiricism and ethnography and social sciences and human sciences The scientific search for universal laws and the ever expanding search for cultural meanings in the diverse communities around the world must continue simultaneously and in conjunction with the transnational or global challenges we face today Hybridity fostered by interdisciplinary researchers has stood the test of time as the social sciences have gradually outgrown the monolithic ways of looking at the world The project of a psychosocial science represented by the work of Robert A LeVine at the intersection of psychology anthropology

Lacan to the Letter Bruce Fink, 2004 To read Lacan closely is to follow him to the letter to take him literally making the wager that he comes right out and says what he means in many cases though much of his argument must be reconstructed through a line by line examination And this is precisely what Bruce Fink does in this ambitious book a fine analysis of Lacan s work on language and psychoanalytic treatment conducted on the basis of a very close reading of texts in his *ICrits A Selection* As a translator and renowned proponent of Lacan s works Fink is an especially adept and congenial guide through the complexities of Lacanian literature and concepts He devotes considerable space to notions that have been particularly prone to misunderstanding notions such as the sliding of the signified under the signifier or that have gone seemingly unnoticed such as the ego is the metonymy of desire Fink also pays special attention to psychoanalytic concepts like affect that Lacan is sometimes thought to neglect and to controversial concepts like the phallus From a parsing of Lacan s claim that

commenting on a text is like doing an analysis to sustained readings of The Instance of the Letter in the Unconscious The Direction of the Treatment and Subversion of the Subject with particular attention given to the workings of the Graph of Desire Fink's book is a work of unmatched subtlety depth and detail providing a valuable new perspective on one of the twentieth century's most important thinkers Bruce Fink is a practicing Lacanian psychoanalyst analytic supervisor and professor of psychology at Duquesne University in Pittsburgh He is the author of A Clinical Introduction to Lacanian Psychoanalysis 1997 and The Lacanian Subject 1995 He has coedited three volumes on Lacan's seminars and is the translator of Lacan's Seminar XX On Feminine Sexuality the Limits of Love and Knowledge 1998 Icrits A Selection 2002 and Icrits The Complete Text forthcoming

Co-Creative Transactional Analysis Graeme Summers, Keith Tudor, 2018-05-01 Co creative transactional analysis is an approach to a particular branch of psychology which as the phrase suggests emphasises the co mutual joint aspect of professional relationships whether therapeutic educative and or consultative and by implication of personal relationships The co of co creative acknowledges the transactional inter relational mutual joint and co operative as well as partnership Developed by the authors over some fifteen years the co creative approach has found a resonance not only amongst psychotherapists but also educationalists consultants and coaches The book itself represents and reflects the co creative approach in that it is based on a critical dialogue between the authors themselves about their collaborative and independent work as well as between invited contributors and the authors

Psychoanalytic Theories of Affect Ruth Stein, 2018-03-28 This book collates and clarifies psychoanalytic theories on affect and how they relate to the clinical process The author outlines and analyses the most important theories on affect and examines empirical work presented over the past 100 years exposing the rigidity of some existing notions

Subject and Agency in Psychoanalysis Frances Moran, 1993-05 Psychoanalysis works with words words spoken by a subject who asks that the analyst listen This is the belief that underlies Francis Moran's rewarding exploration of a central problem in psychoanalytic theory namely the separation of the concepts of subject and agency Subject and Agency in Psychoanalysis contends that Freud simultaneously employs two

frameworks for explaining agency one clinical and one theoretical As a result Freud's exploration of agency proceeds from two logically incompatible assumptions The division between these assumptions is a part of Freud's psychoanalytic legacy Moran reads the Freudian inheritance in light of this division showing how Klein and Hartmann's theoretical concepts of subject are adrift from the subject who speaks in analysis Moran also shows that while Lacan's subject provides more focus on this issue Lacan reverts to the Freudian division in his use of logically contradictory assumptions concerning the location of agency Drawing on contemporary theory development from Lacanian innovations to the social theories of Anthony Giddens Moran proposes a new and fertile approach to a fundamental problem significantly narrowing the gap between psychoanalytic theory and practice

The Evolution and Application of Clinical Theory Judith Marks Mishne, 1993
