Immigrant Publishers Richard Abel, William Gordon Graham, 2009-01-01 In the first third of the twentieth century the publishing industry in the United Kingdom and the United States was marked by well established and comfortable traditions pursued by family dominated firms The British trade was the preserve of self satisfied men entirely certain of their superiority in the world of letters their counterparts in North America were blissfully unaware of development and trends outside their borders In this unique historical analysis Richard Abel and Gordon Graham show how publishing evolved post World War II to embrace a different more culturally inclusive vision Unfortunately even among the learned classes only a handful clearly understood either the nature or the likely consequences of the mounting geopolitical tensions that gripped pre war Europe The world was largely caught up in the ill informed and unexamined but widely held smug and shallow belief that the huge price paid in the war to end all wars had purchased perpetual peace a peace to be maintained by the numerous post war high minded treaties ceremoniously signed thereafter The history presented here has as its principals a handful of those who fled to the Anglo Saxon shores in the pre World War II era The remainder made their way to Britain and the United States following that war They brought an entirely new vision of and energetic pursuit of the cultural role of the book and journal in a society a vision which was quickly adopted and naturalized by a perspicacious band of post war native born book people Richard Abel is secretary of the LOGOS foundation and long standing member of its editorial board He founded and started numerous publishing house including Timber Press Amadeus Press and what is now Blackwell North America He has had well over forty years experience in the publishing industry Gordon Graham is founder and editor emeritus of LOGOS He was previously chairman and chief executive of Butterworths He has written extensively on the publishing industry and is a doyen of publishing history and practice in the United Kingdom

American Artists Engage the Built Environment, 1960-1979 Susannah Bieber, 2023-07-31 This volume reframes the development of US

American avant garde art of the long 1960s from minimal and pop art to land art conceptual art site specific practices and feminist art in the context of contemporary architectural discourses Susanne Bieber analyzes the work of seven major artists Donald Judd Robert Grosvenor Claes Oldenburg Robert Smithson Lawrence Weiner Gordon Matta Clark and Mary Miss who were closely associated with the formal aesthetic innovations of the period While these individual artists came to represent diverse movements Bieber argues that all of them were attracted to the field of architecture the work of architects engineers preservationists landscape designers and urban planners because they believed these practices more directly shaped the social and material spaces of everyday life This book's contribution to the field of art history is thus twofold First it shows that the avant garde of the long 1960s did not simply develop according to an internal logic of art but also as part of broader sociocultural discourses about buildings and cities Second it exemplifies a methodological synthesis between social art history and poststructural formalism that is foundational to understanding the role of art in the construction of a more just and egalitarian society The book will be of interest to scholars working in art history architecture urbanism and environmental humanism Austrian Information ,1994 *Eyewitness Companions: Art* Robert Cumming,2005-10-17 This title covers all of the key movements in Western art history from Classicism to conceptual art and profiles more than 780 of the world's greatest artists Specially commissioned illustrations and photographs written by experts in each field using the award winning design of the Eyewitness Travel Guides Eyewitness Companions are the ultimate visual handbook to a wide range of subjects Text previously published in ART A Field Guide **Vanishing Vienna** Frances Tanzer,2024-05-14 In *Vanishing Vienna* historian Frances Tanzer traces the reconstruction of Viennese culture from the 1938 German annexation through the early 1960s The book reveals continuity in Vienna's cultural history across this period and a framework for interpreting Viennese culture that relies on antisemitism philosemitism and a related discourse of Jewish presence and absence This observation demands a new chronology of cultural reconstruction that links the Nazi and postwar years and a new geography that includes the history of refugees from Nazi Vienna Rather than presenting the Nazi exile and postwar periods as discrete chapters of Vienna's history Tanzer argues that they are part of a continuous spectrum of cultural evolution the result of which was the creation of a coherent Austrian identity and culture that emerged by the 1950s As she shows antisemitism and philosemitism were not contradictory forces in post Nazi Austrian culture They were deeply interconnected aspirations in a city where nostalgia for the past dominated cultural reconstruction efforts and supported seemingly contradictory impulses Viennese nostalgia at times concealed the perpetuation of antisemitic fantasies of the city without Jews At the same time the postwar desire to return to a pre Nazi past relied upon notions of Austrian culture that Austrian Jews perfected in exile as well as on the symbolic remigration of a mostly imagined Jewish culture now taxed with redeeming Austria in the aftermath of the Holocaust From this perspective philosemitism is much more than a simple inversion of antisemitism instead Tanzer argues philosemitism problematic as it may be defines Vienna in the era of postwar

reconstruction In this way Vanishing Vienna uncovers a rarely discussed phenomenon of the aftermath of the Holocaust a society that consumes redefines and bestows symbolic meaning on the victims in their absence
