Edges of Transatlantic Commerce in the Long Eighteenth Century Seohyon Jung, Leah M. Thomas, 2021-05-03 Edges of Transatlantic Commerce in the Long Eighteenth Century examines and challenges the boundaries of the Atlantic in the eighteenth century with a particular focus on commerce Commerce as a keyword encompasses a wide range of documented and undocumented encounters that invoke topics such as shared or conflicting ideas of value affective experiences of the emerging global system and development of national economies as well as their opponents By investigating what gets exchanged created or obscured on the peripheries of transatlantic commercial relations and geography in the eighteenth century the chapters in this collection reimagine the edge as a liminal space with a potential for an alternative historical and aesthetic knowledge To ground this inquiry in a more material dimension the chapters engage specifically with what is being exchanged sold or communicated across the Atlantic by exploring ideas that are being shaped concealed undermined or exploited through intricate exchanges With its contributions from multiple contexts and disciplinary perspectives Edges of Transatlantic Commerce offers insights into relatively neglected aspects of the transatlantic world to cultivate the value that the edges allow us to conceive

Intermarriage and the Friendship of Peoples Adrienne Edgar, 2022-05-15 Co winner of the Central Eurasian Studies Society's prize for best book in History and the Humanities in 2022 and 2023 and winner of the The Joseph Rothschild Prize in Nationalism and Ethnic Studies of the Association for the Study of Nationalities Intermarriage and

the Friendship of Peoples examines the racialization of identities and its impact on mixed couples and families in Soviet Central Asia. In marked contrast to its Cold War rivals the Soviet Union celebrated mixed marriages among its diverse ethnic groups as a sign of the unbreakable friendship of peoples and the imminent emergence of a single Soviet people. Yet the official Soviet view of ethnic nationality became increasingly primordial and even racialized in the USSR's final decades. In this context Adrienne Edgar argues mixed families and individuals found it impossible to transcend ethnicity fully embrace their complex identities and become simply Soviet. Looking back on their lives in the Soviet Union ethnically mixed people often reported that the official nationality in their identity documents did not match their subjective feelings of identity that they were unable to speak their own native language and that their ambiguous physical appearance prevented them from claiming the nationality with which they most identified. In all these ways mixed couples and families were acutely and painfully affected by the growth of ethnic primordialism and by the tensions between the national and supranational projects in the Soviet Union. *Intermarriage and the Friendship of Peoples* is based on more than eighty in-depth oral history interviews with members of mixed families in Kazakhstan and Tajikistan along with published and unpublished Soviet documents, scholarly and popular articles from the Soviet press, memoirs and films and interviews with Soviet era sociologists and ethnographers.

Spanish New Orleans John Eugene Rodriguez, 2021-03-17 John Eugene Rodriguez's *Spanish New Orleans* is the first comprehensive academic analysis of how Spain governed the largest imperial city in its North American empire. Rodriguez suggests that the Spanish empire was at least on the northern edge slipping into economic and perhaps political independence a decade before the overthrow of its Bourbon Spanish rulers in 1808. His work questions that of earlier historians who argued that Latin America was fundamentally conservative and complaisant under Bourbon rule. Instead *Spanish New Orleans* shows that in the capital of Louisiana Spanish rulers were slowly losing control of three interwoven aspects of the city: demography, trade and political discourse. Rodriguez demonstrates how the multiethnic, multilingual population of the city played a central role in encouraging trans-imperial free trade and especially trade with the United States to the point of economic dependence. This dependence in turn prompted the Bourbon governors in New Orleans to negotiate both economic and political discourse in a city that was steadily moving closer in every way to the United States. Far from being a peripheral city in a peripheral colony by 1803 New Orleans was reshaping the Spanish empire beyond the comprehension of the Spanish king. Chapters on the city's foundational merchants, literacy and the judicial system all point to the unique character of this imperial city on the American periphery. This study marks new methodological paths for historians of Latin America and early U.S. history by making use of enormous data compilations on population, ethnicity and economics. Rodriguez also analyzes previously ignored eighteenth-century Spanish language documents including petitions, postal records and military rosters and engages underutilized tools such as signature analysis. Through his use of original sources and innovative methodologies Rodriguez makes new and intriguing comparisons between New

Orleans and other contemporary Spanish imperial cities as well as cities in the then expanding United States In Spanish New Orleans Rodriguez goes beyond simply positioning New Orleans within Spanish imperial history Taking a broader view he considers what Spanish New Orleans reveals about the challenges and opportunities faced by the Spanish Bourbon empire and he sheds light on how a new North American empire could so quickly and easily absorb a Spanish city
