## **Education For Responsible Citizenship The Report Of The National Task Force On Citizenship Education:**

*Education for Responsible Citizenship* National Task Force on Citizenship Education, Institute for Development of Educational Activities, 1977      **Citizenship Curriculum in Asia and the Pacific** David L. Grossman, Wing On Lee, Kerry J. Kennedy, 2008-08-31 Based on case studies of 11 societies in the world's most dynamic region this book signals a new direction of study at the intersection of citizenship education and the curriculum Following their successful volume *Citizenship Education in Asia and the Pacific Concepts and Issues* published as No 14 in this series the editors widely regarded as leaders in the field in the Asia Pacific region have gone beyond broad citizenship education frameworks to examine the realities tensions and pressures that influence the formation of the citizenship curriculum Chapter authors from different societies have addressed two fundamental questions 1 how is citizenship education featured in the current curriculum reform agenda in terms of both policy contexts and values and 2 to what extent do the reforms in citizenship education reflect current debates within the society From comparative analysis of these 11 case studies the editors have found a complex picture of curriculum reform that indicates deep tensions between global and local agendas On one hand there is substantial evidence of an increasingly common policy rhetoric in the debates about citizenship education On the other it is evident that this discourse does not necessarily extend to citizenship curriculum which in most places continues to be constructed according to distinctive social political and cultural contexts Whether the focus is on Islamic values in Pakistan an emerging discourse about Chinese democracy a nostalgic conservatism in Australia or a continuing nation building project in Malaysia the cases show that distinctive social values and ideologies construct national citizenship curricula in Asian contexts even in this increasingly globalized era This impressive collection of case studies of a diverse group of societies informs and enriches understanding of the complex relationship between citizenship education and the curriculum both regionally and globally      Citizen Education Today Elizabeth C. Farquhar, Karen S. Dawson, 1979

Holding Accountability Accountable Kenneth A. Sirotnik, 2004 Kenneth Sirotnik asserts that however well intentioned past and current accountability practices in public education are miseducative misdirected and misanthropic In this provocative book well respected educators join Sirotnik to provide critical analyses and sophisticated perspectives on prevailing high stakes accountability practices They offer both conceptual and practical foundations for rethinking what it means to act responsibly when it comes to calling our schools school systems educators and students into account

*Democracy's Midwife* Jack Crittenden, 2002-01-01 The philosopher educator John Dewey wrote that Democracy has to be born anew every generation and education is its midwife In an America where every vote though considered equally counts for very little Democracy's Midwife offers the vision of a new kind of democratic system a deliberative democracy energized by an educated citizenry Jack Crittenden's excellent new study looks behind the modern democratic rhetoric to reveal a

system of government that excludes citizens from participating directly in decision making The book combines a thorough examination of the theoretical underpinnings of democratic education with radical solutions for the overhaul of a system of civic education dating back to the Founding Fathers Democracy s Midwife is both a denunciation of an education system that has failed to prepare future citizens for participation in public life and a timely blueprint for the creation of a civic minded electorate prepared for the responsibility of self government

**Society and the Environment** Joseph Zajda,2002 Using both local and global perspectives examines some of the major issues in the study of society and environment Focuses on the study of people as social beings and the way they interact with each other within society and culture and the environment

Aims to empower future teachers to act as informed and committed educators **Children's Social Consciousness and the Development of Social Responsibility** Sheldon Berman,1997-04-17 This book breaks new ground in our

understanding of the development of social consciousness and social responsibility in young people and the educational practices that promote this development Berman shows that children s awareness of the social and political world emerges far earlier and their social and moral abilities are more advanced than we thought Drawing on the research literature in such fields as moral development citizenship education political socialization prosocial development and psychosocial development Berman provides educators and researchers with the developmental understandings and instructional strategies necessary to enable students to become active caring and responsible members of our social and political community *Lawrence*

*Kohlberg's Approach to Moral Education* F. Clark Power,Ann Higgins,Ann Higgins-D'Alessandro,Lawrence Kohlberg,1989 Lawrence Kohlberg s Approach to Moral Education presents what the late Lawrence Kohlberg regarded as the definitive statement of his educational theory Addressing the sociology and social psychology of schooling the authors propose that school culture become the center of moraleducation and research They discuss how schools can develop as just and cohesive communities by involving students in democracy and they focus on the moral decisions teachers and students face as they democratically resolve problems As the authors put it We propose an educational renewal of our democratic society We have attempted to establish schools that do more than just teach about democratic citizenship that are themselves democratic societies **In From the Margins** ,2006-01-01 This book focuses at the margins of adult education work and civil society

Rather than focusing on active participants and active participation the objective is to scrutinize the whole adult population in terms of participation and to pay special attention to those who are so easily left out of studies concerning adult education learning at work or active participation in civil society The aim of the book is to bring into the discussion the views of those who do not find attending adult education possible and who thus form a challenge for the promotion of active citizenship In the collection of articles researchers from various disciplines and with cross disciplinary interests in adult education and marginalisation meet and discuss with each other within and beyond their own disciplines *The Quality of American Life in*

Giroux,2024-12-26 Reissued with a new introduction from Henry A Giroux this classic work provides theoretical and political tools for addressing how pedagogy knowledge resistance and power can be analyzed within and across a variety of cultural spheres including but not limited to the schools The time for radical social change has never been so urgent since the fate of an entire generation of young people if not democracy itself is at stake Giroux argues that challenge gives new meaning to the importance of resistance the relevance of pedagogy and the significance of political agency In a time of growing fascism

Central to contemporary debates in the United States on migration and migrant policy is the idea of citizenship and as apparent in the continued debate over Arizona s immigration law SB 1070 this issue remains a focal point of contention with a key concern being whether there should be a path to citizenship for undocumented migrants In *Disenchanted Citizenship* Luis F B Plascencia examines two interrelated issues U S citizenship and the Mexican migrants position in the United States The book explores the meaning of U S citizenship through the experience of a unique group of Mexican migrants who were granted Temporary Status under the legalization provisions of the 1986 IRCA attained Lawful Permanent Residency and later became U S citizens Plascencia integrates an extensive and multifaceted collection of interviews ethnographic fieldwork ethno historical research and public policy analysis in examining efforts that promote the acquisition of citizenship the teaching of citizenship classes and naturalization ceremonies Ultimately he unearths citizenship s root as a Janus faced construct that encompasses a simultaneous process of inclusion and exclusion This notion of citizenship is mapped on to the migrant experience arguing that the acquisition of citizenship can lead to disenchantment with the very status desired In the end Plascencia expands our understanding of the dynamics of U S citizenship as a form of membership and belonging
