A little bit of proper communication at the right time could have set all the doubts to rest The woman just enjoyed shopping every day at one particular time She was definitely not indulging in whatever activity the lurid imagination of the writer thought up And you wasted 2 hours reading a silly sob story about a misunderstanding which would have cleared up with just a little effective communication known as talking Effective Communication Richard Hawkins, 2018-05-15 All of us communicate Whether it is with our family friends or colleagues at the work communication is something that all of us do as second nature But whether we communicate effectively or not well that is something entirely different altogether And yes there is a difference between communicating and being and communicating EFFECTIVELY Great communication skills can make a world of difference When you are able to communicate effectively you ll find that people understand you a lot better you are able to build connections a lot easier and more opportunities start to happen to you at work because people are impressed by how well you can present yourself your thoughts and ideas At work effective communication is what is going to be your ace in the hole on your path to success Did you know that employers consider effective on the job communication skills as one of the most important skills any employee can have That is what effective communication can do for you Employees who can communicate well will find themselves rising within the ranks of a corporation far quicker than their peers because this is a prized skill to have a skill that is very often overlooked by many which is a huge mistake to make The great news is communication skills are something that everyone can improve on All that is needed from you is commitment time and lots of practice on your part as you build a foundation while you start to develop more effective communication skills as you progress If you are ready to start improving your ability to effectively get your messages across in any situation in life this book is what you need to help you get started Your success in life and your ability to be able to converse well with others around you is how you build successful relationships that will help you reach further in all aspects of life whether it may be family life friendships everyday encounters work and even romance Why Because everything hinges on communication that is why it is such an important life skill that everyone should and must develop if they are not already doing so This book is your opportunity to learn what it takes to be an effective communicator how to overcome basic communication barriers and what you can do to start making a difference in the way you communicate in your life today
