Effective Sanctions On South Africa The Cutting Edge Of Economic Intervention:

Effective Sanctions on South Africa George W. Shepherd, 1991-03-22 This work as its title suggests is a testament to the fact that economic sanctions are effective instruments of change in South Africa George W Shepherd Jr and the other contributing writers provide us with a glimpse inside South Africa as well as a reflection of the emerging humanitarian global system Shepherd and the others demonstrate both theoretically and empirically important lessons in the use and effectiveness of international and nongovernmental economic sanctions in influencing the internal affairs of other nations in order to limit human rights violations After an introductory chapter on effective sanctions and the economic impact in South Africa contributed chapters demonstrate that the international legal basis for racial equality in the world is not spent Others point to the role of nongovernmental organizations in pressuring corporations and banks the possibility of influencing ruling elites the shift in U S policy to include sanctions in its anti apartheid stance and the replacement of Western military support of apartheid by growing international economic prohibition of new investments and limitations of trade Most significantly this book shows how the economy and politics of South Africa have been moved toward negotiations by both external and internal anti apartheid pressures This important new book concludes with a thorough bibliography and helpful indices that document the actions taken against South Africa

Sanctions and Honorary Whites Masako Osada, 2002-02-28 This study critically examines for the first time the unlikely friendship between apartheid South Africa and non white Japan In the mid 1980s Japan became South Africa s largest trading partner while South Africa purportedly treated Japanese citizens in the Republic as honorary whites under apartheid Osada probes the very different foreign policy making mechanisms of the two nations and analyzes their ambivalent bilateral relations against the background of postcolonial and Cold War politics She concludes that these diplomatic policies were adopted not voluntarily or willingly but out of necessity due to external circumstances and international pressure Why did Japan exercise sanctions against South Africa in spite of their strong economic ties How effective were these sanctions What did the sensational term honorary whites actually mean When and how did this special treatment begin How did South Africa get away with apparently treating the Japanese as whites but not Chinese other Coloureds Indians and so forth By using Japan s sanctions against South Africa and South Africa s honorary white treatment of the Japanese as key concepts the author describes the development of bilateral relations during this unique era The book also covers the fascinating historical interaction between the two countries from the mid 17th century onward

Effective Sanctions on South Africa George W. Shepherd, 1991-03-30 This work as its title suggests is a testament to the fact that economic sanctions are effective instruments of change in South Africa George W Shepherd Jr and the other contributing writers provide us with a glimpse inside South Africa as well as a reflection of the emerging humanitarian global system Shepherd and the others demonstrate both theoretically and empirically important lessons in the use and effectiveness of international and nongovernmental economic sanctions in influencing the internal affairs of other nations in order to limit

human rights violations After an introductory chapter on effective sanctions and the economic impact in South Africa contributed chapters demonstrate that the international legal basis for racial equality in the world is not spent Others point to the role of nongovernmental organizations in pressuring corporations and banks the possibility of influencing ruling elites the shift in U S policy to include sanctions in its anti apartheid stance and the replacement of Western military support of apartheid by growing international economic prohibition of new investments and limitations of trade Most significantly this book shows how the economy and politics of South Africa have been moved toward negotiations by both external and internal anti apartheid pressures This important new book concludes with a thorough bibliography and helpful indices that document the actions taken against South Africa

Rethinking the Rise and Fall of Apartheid Adrian Guelke, 2017-03-16 Providing a much needed antidote to recent revisionist attempts to rehabilitate apartheid this major new text by a leading authority offers a considered and substantive reassessment of the nature endurance and significance of apartheid in South Africa as well as the reasons for its dramatic collapse Paying particular attention to the international dimension as well as the domestic the author assesses the impact of anti apartheid protest of changing attitudes of Western governments to the apartheid regime and the evolution of South African government policies to the outside world

How Sanctions Work N. Crawford, A. Klotz, 1999-01-28 How Sanctions Work surveys theories of international sanctions and offers detailed analyses of the effect of sanctions on apartheid South Africa Chapters by respected international experts cover cultural isolation oil and military embargoes trade boycotts financial sanctions and divestment consequences for black South Africans and regional effects The book shows how sanctions both directly and indirectly hurt the apartheid regime while in some cases offering succour to the anti apartheid movement

The South African State Transformed? Louis A. Picard, Thomas M. Mogale, Caitlin C. Corrigan, 2024-09-10 This book examines the nature of the 1994 political transition in South Africa and its impact on post apartheid South Africa Specifically it examines the failures of liberalism within the context of the transitional process that led to the institution if not the practice of a non racial state in 1994 The term liberal is an eclectic term defining a several of views political and economic We use the term here within context but essentially define it as a commitment to open views the willingness to consider change and to value basic human rights The nature of institutional change in South Africa as it moved towards a democratic state would influence whether South Africa would succeed as a newly industrializing pluralist democratic country or collapse into yet another African failed state As South Africa moves toward its fourth decade of majority rule the view towards the future is much less promising than it was in 1994

Economic Sanctions David Cortright, 2018-03-05 As the challenge of preventing military conflict has become increasingly complex in the post Cold War era economic sanctions are being applied with growing frequency Sanctions are also being used to enforce international law to deter aggression and terrorism to defend democracy and human rights and to prevent nuclear proliferation This study addresses questions about the utility appropriateness and success or failure of sanctions as well as their impact on the poor

and innocent Specific case studies focusing on recent conflicts such as those in Haiti Iraq South Africa and the former Yugoslavia demonstrate the principal aspects of economic sanctions

Diplomatic Interventions K. Fierke, 2005-04-22

Diplomatic Interventions argues that war is a social construction In so doing it unsettles the definition of intervention as a coercive interference by one state in the affairs of another to examine the range of communicative or diplomatic practices which through their presence modify the experience of war The tension between claims that war is pervasive and that war is a social construct is analysed in relation to a range of moral legal military economic cultural and therapeutic interventions The concluding chapter highlights how the book itself is a critical intervention that requires us look at again from a new angle at international practice

U.S. Relations with South Africa: An Annotated Bibliography Y G-M Lulat, 1990-12-31 A comprehensive two volume annotated bibliography of books and monographs journal articles government documents documents of nongovernmental organizations and substantive magazine and newspaper articles published since the late nineteenth century Annotated entries contain a short abstract a table of contents and information on reviews Each volume contains an author and subject index and a periodical is included in Volume Two Topics covered include US Foreign Policy Southern Africa in US South African Relations Nuclear Technology and Other Sectors of Trade and Economic Relations Education Scientific and Cultural Exchanges African Americans and South Africa Divestment Disinvestment and Sanctions Divestment Disinvestment and Sanctions Comparative Studies This two volume work is part of a larger project that included publication of a nearly 700 page book titled *United States Relations with South Africa A Critical Overview from the Colonial Period to the Present* which is a critical overview of relations between the United States and South Africa going nearly as far back as the very beginning of their inception as permanent European colonial intrusions and it not only gives attention to the importance of contributions from nonofficial actors in shaping official relations but also considers the impact of the geopolitical location of South Africa within southern Africa where the presence of other nations particularly Angola Mozambique Namibia and Zimbabwe looms large

Political Gain and Civilian Pain Thomas George Weiss, 1997 The use of sanctions is increasing in the post Cold War world Along with this increase the international community must ask itself whether sanctions work in the sense that they incite citizens to change or overthrow an offending government and whether sanctions are really less damaging than the alternative of war Here for the first time sanctions and humanitarian aid experts converge on these questions and consider the humanitarian impacts of sanctions along with their potential political benefits The results show that often the most vulnerable members of targeted societies pay the price of sanctions and that in addition the international system is called upon to compensate the victims for the undeniable pain they have suffered Well chosen case studies of South Africa Iraq the former Yugoslavia and Haiti illustrate how much pain the community of states is willing to inflict upon civilians in the quest for political gains Together with an analytical framework and policy conclusions this important book seeks to clarify the range of options and strategies to policymakers who impose sanctions and to

humanitarian officials who operate in sanctioned environments **Ibss: Political Science: 1991** British Library of Political and Economic Science,1993 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences

Boycotts Past and Present David Feldman,2018-12-29 In this book historians and social scientists examine boycotts from the eighteenth century to the present day Employed in struggles against British rule in the American colonies against racial discrimination in the United States during the Civil Rights movement and Apartheid in South Africa today it is Israel that is the focus of a campaign for Boycott Divestment and Sanctions BDS Boycotts have featured in campaigns undertaken by labour consumer and nationalist movements Jews were the focus of some boycotts instigated by nationalist movements in Central and Eastern Europe and Jewish businesses were targeted by the National Socialist regime in Germany In this collection contributors explore the history of past boycott movements and examine the different narratives put forward by proponents and opponents of the current BDS movement directed against Israel one which places the movement within a history of struggles for human rights the other which regards BDS as the latest manifestation of an antisemitic tradition

Norms in International Relations Audie Klotz,2018-09-05 Applying a social constructivist approach to her richly detailed case history Audie Jeanne Klotz demonstrates that normative standards such as racial equality can serve as much more than a weak constraint on fundamental strategic concerns Norms can play a crucial role in the formation of global policy After forty years of protest against apartheid the world celebrated Nelson Mandela s inauguration as South Africa s first democratically elected president Klotz considers why racial discrimination in South Africa became a global concern and why in a remarkable change of practice nations and international organizations adopted sanctions against the Pretoria regime By explaining how the world community actively came to condemn apartheid Norms in International Relations contributes to broader debates on the role of norms in global politics Klotz rehearses a fascinating history combining the power politics of economic sanctions and the normative politics of racial equality She reenacts the events that resulted in the United Nations decision to oppose apartheid The author also analyzes anti apartheid activism in the British Commonwealth and in the Organization of African Unity and she documents changing attitudes toward South African racial separateness in the United States Britain and Zimbabwe The New Sovereignty Abram Chayes,Antonia Handler Chayes,2009-07-01 States

resort to regulatory agreements to address problems as disparate as nuclear proliferation international trade species destruction and intellectual property while threatening military or economic sanctions in order to deter noncompliance This book argues that this approach is misconceived and proposes a new model of treaty compliance **South Africa** T.

Davenport,C. Saunders,2000-03-08 A survey of the whole of South African history from pre colonial times to 1999 suitable for serious students of the subject It handles all major topics with special focus on the dramatic changes that have occurred since 1990

Societies Under Siege Lee Jones,2015-10-15 Today international economic sanctions are imposed in response to

virtually every serious international crisis whether to promote regime change and democratisation punish armed aggression or check nuclear proliferation But how exactly is the economic pain inflicted by sanctions supposed to translate into political gain What are the mechanisms by which sanctions operate or fail to operate This is the first comparative study of this vital question Drawing on Gramscian state theory *Societies Under Siege* provides a novel analytical framework to study how sanctions are mediated through the domestic political economy and state society relations of target states and filter through into political outcomes whether those sought by the states imposing sanctions or as frequently occurs unintended and even highly perverse consequences Detailed case studies of sanctions aimed at regime change in three pivotal cases South Africa Iraq and Myanmar are used to explore how different types of sanctions function across time and space These case studies draw on extensive fieldwork interviews archival documents and leaked diplomatic cables to provide a unique insight into how undemocratic regimes targeted by sanctions survive or fall *The New Dynamics of Multilateralism* James P.

Muldoon,Joann Fagot Aviel,Richard Reitano,2018-04-19 This timely new book focuses on the various dynamics of contemporary multilateralism as it relates to global issues global governance and global institutions Invited authorities including academics business people and members of international groups contribute original essays on how multilateralism as an institution has been affected by globalization the rise of civil society and global business emerging economic and political conditions and new threats to peace and security in the world Emphasizing practical applications over theoretical foundations *The New Dynamics of Multilateralism* helps students understand how the practice of multilateral diplomacy has been influenced by the changes in the processes and procedures of international organizations and the role of multilateralism in the transformation of the international system of governance and the transition to an emerging new global order **The**

Convention on the Rights of the Child A. Glenn C. Mower,1997-02-28 Based on official records and reports relevant secondary sources and observations of members of the Convention s implementary organ The Convention on the Rights of the Child describes and evaluates the first international human rights treaty to deal specifically with the rights and freedoms of the child Mower deals first with the significance origin and development of the Convention on the Rights of the Child then describes and analyzes its substantative content procedures and mechanisms for the Convention s implementation He concludes with an examination of the factors that are most likely to determine the rate of progress toward the realization of the convention s goals Based on official records relevant secondary sources and observations of members of the Convention s implementary organ the book will be of considerable use to scholars and researchers in the fields of human rights and children s welfare Protest, Power, and Change Roger S. Powers,William B. Vogelee,Douglas Bond,Christopher Kruegler,1997-01-01 Covers tactics leaders and famous actions From Solidarity s passive aggressive faceoff with communism to the courageous sit ins and marches of the Civil Rights Movement here is the first systematic survey of peaceful confrontations between the forces for the status quo and the forces for change All the important events tactics and leaders

are covered Women s suffrage blockades IRA hunger strikes monkey wrenching Charter 77 the Clamshell Alliance Rosa Parks Leo Tolstoy Martin Luther King Lech Walesa and many more Focuses on critical issues Clear comprehensive and authoritative the Encyclopedia examines such critical contemporary issues as violence the nature of power conflict resolution the mechanisms of social movements the application of moral authority and defines and surveys the underlying assumptions and prevailing thinking of all activists for change A practical blueprint for peaceful protest the first and only work of its kind For this first systematic treatment of the subject expert contributors from around the world have written essays on key persons events ideas works institutions groups and methods The result is a primer and practical guide on all aspects of nonviolent action There is an introduction a listing of the entries by category and a comprehensive index Special features First and only encyclopedia on the subject Spotlights the most important peaceful struggles of the 20th century Examines 104 nonviolent movements campaigns and events Profiles 70 activists and scholars including a dozen Nobel Peace Prize laureates Surveys 42 organizations that have led nonviolent movements Details 40 methods of peaceful protest **The International Journal of African Historical Studies** ,1992
