Economic Reform In The Prc In Which Chinas Economists Make Known What Went:

Economic Reform In The Prc C. W. Borklund,2019-03-04 In February 1978 the post Mao leadership revealed an ambitious ten year program 1976 1985 with a 600 million capital outlay aimed at propelling China into the front ranks of the industrialized nations by the year 2000 through the modernization of agriculture industry science and technology and defense The new leadership soon realized that **Competing Economic Paradigms in China** Steven Mark

Cohn,2017-09-05 When the Chinese economic reforms began in 1978 Marxist economics infused all the institutions of economic theory in China from academic departments and economics journals to government departments and economic think tanks By the year 2000 neoclassical economics dominated these institutions and organized most economic discussion This book explains how and why neoclassical economic theory replaced Marxist economic theory as the dominant economics paradigm in China It rejects the idea that the rise of neoclassical theory was a triumph of reason over ideology and instead using a sociology of knowledge approach links the rise of neoclassical economics to broad ideological currents and to the political economic projects that key social groups inside and outside China wanted to enable The book concludes with a discussion of the nature of economic theory and economics education in China today [How China Escaped Shock Therapy](#)

Isabella M. Weber,2021-05-26 China has become deeply integrated into the world economy Yet gradual marketization has facilitated the country s rise without leading to its wholesale assimilation to global neoliberalism This book uncovers the fierce contest about economic reforms that shaped China s path In the first post Mao decade China s reformers were sharply divided They agreed that China had to reform its economic system and move toward more marketization but struggled over how to go about it Should China destroy the core of the socialist system through shock therapy or should it use the institutions of the planned economy as market creators With hindsight the historical record proves the high stakes behind the question China embarked on an economic expansion commonly described as unprecedented in scope and pace whereas Russia s economy collapsed under shock therapy Based on extensive research including interviews with key Chinese and international participants and World Bank officials as well as insights gleaned from unpublished documents the book charts the debate that ultimately enabled China to follow a path to gradual reindustrialization Beyond shedding light on the crossroads of the 1980s it reveals the intellectual foundations of state market relations in reform era China through a longue dur e lens Overall the book delivers an original perspective on China s economic model and its continuing contestations from within and from without **Economic Reform In The Prc** George C Wang,1982-08-04 **Current Economic Problems**

In China Kwok-Kwan Fung,2019-09-10 An analysis of the PRC s current economic problems and a critical evaluation of the nation s efforts to solve them this book brings together papers and speeches by Xue Muqiao one of China s most prominent economists and one of its key spokesmen for liberal economic reform Xue addresses such issues as commune and brigade enterprises employment a **China: A Political History, 1917-1980** Richard C. Thornton,2019-08-27 It is the purpose of

this work to provide an integrated analytical framework that will serve as a guide to further study of the vast and complex subject of Chinese Communist politics The outpouring of materials from U S Soviet Chinese Communist and Chinese Nationalist sources in recent years has greatly enriched our fund of knowledge about China For the historian of Chinese politics the new data have provided answers to hitherto unresolved problems and raised questions about seemingly settled issues Although it is now possible to piece together the main outlines of the struggle for power in China obviously no single volume can presume to encompass all aspects of the story

The China Quandary Robert G Sutter, 2019-06-21 The American reconciliation with the People's Republic of China PRC begun by President Richard Nixon and developed by succeeding U S presidents has enjoyed wide support in the United States as one of the most important breakthroughs in U S foreign policy since the cold war In broad terms each American administration from Richard Nixon's to Ronald Reagan's has sought to use better relations with China as a means to position the United States favorably in the U S Soviet PRC triangular relationship to stabilize Asian affairs secure a balance of forces in the region favorable to the United States and its allies and friends and foster a peaceful and prosperous future for Taiwan to build beneficial economic cultural and other bilateral ties and to work more closely with the PRC on issues of global importance such as world food supply population control and arms limitations China has supported the opening of relations with the United States as a means to strengthen China's national security against the Soviet threat and to oppose the expansion of Soviet power in Asian and world affairs to obtain U S and other Western economic commodities investment and technology and to benefit from cultural educational and tourist exchanges

The Chinese Mosaic Leo J Moser, 2019-06-18 Although the Han Chinese constitute about 95 percent of the population of the PRC they are much more diverse than most Westerners realize The numerous subgroups of Han speak dialects that seem almost like different languages and they have a wide range of cultural traditions differing cuisines operative forms life styles and attitudes toward

Perspectives On Development In Mainland China King-yuh Chang, 2019-05-28 The contributors to this book explore a variety of issues concerned with mainland China's political processes military structure and economic development among them changes in both the ideological superstructure and the organizational base of Chinese politics the problem of succession military strategies and civil military relations the use of

Technology, Politics, And Society In China Rudi Volti, 2019-07-11 This study is the first to summarize the major technological policies implemented in China since 1949 and to place them in their social and historical context Dr Volti looks at technological change in China as part of a broader process of economic political cultural and organizational change focusing primarily on four key areas agriculture energy ground transportation and medicine and public health He emphasizes how technological change has been shaped by political and ideological structures notes how China's unique cultural heritage has affected adoption of technologies developed outside China and assesses China's success in developing technologies appropriate to its specific needs as an economically and politically developing nation He draws on interviews with technicians engaged in the transfer

of technology to China as well as extensive primary source materials **The Labors of Sisyphus** Joan Roland, 2017-07-05

Almost a half century has passed since the inception of the People's Republic of China. In that time a charismatic leader has ruled and died leaving a wake of Destruction in his quest to transform China. In that time too the PRC's most powerful ally and mentor the Soviet Union has dismantled and announced that communism had failed. Today China fluctuates between tradition and modernity, ideology and pragmatism between an antiquated collectivist ethic and a new spirit of individualism. It is a country precariously suspended between past and future. Maria Hsia Chang's *The Labors of Sisyphus* is a long overdue reassessment of the meaning and purpose of the Chinese communist revolution. In it she discusses the thought of Mao Zedong and Deng Xiaoping reform and its dilemmas, regionalism in greater China and autonomous areas and nationalism. She also examines China's immediate present and uncertain future. If it manages to transform economic growth into development, China filled with natural resources and a large capable labor force has the potential to become a world superpower. It could also collapse under the weight of its own problems: regionalism, a flawed state sector, corruption and a pronounced decline in state capacity. If China succeeds, an imposing new economic power will enter the global stage, one that is often arbitrary and prone to despotism and xenophobia unless it is tempered by political reform. Prior accounts of communist China have failed to capture China's evolving present. In all its complexity and variety, misrepresenting Maoist China. In the process, Information shortfall was partly to blame as recently as August 1994 the Chinese government itself decried falsification of statistics by government officials and cadres. Sinologists in the 1960s and 1970s had to approach analysis of contemporary China with clear recognition of the limitations involved and the questionable validity of the factual sources available. Maria Hsia Chang lends structure, meaning and purpose to the very complex recent political and historical past of communist China. With greater access to more accurate information, Chang is able to analyze objectively without political motive or intention, providing readers with a fresh look at the People's Republic. Her pathbreaking work will be of interest to scholars of international economics and politics, sinologists and historians. *The Labors of Sisyphus* Maria Hsia Chang, 1999-10-01

be derived from customary cultural norms Experience shows that imported models although they may be enshrined in law lead to economic stagnation unless actual practice is monitored and reformed and the laws change to reflect these necessary adjustments Thus the model proposed here begins with the Company Law of 1994 and proceeds to show how practical experience is already providing valuable data for the task of improving the law

Citizens and Groups in Contemporary China Victor Falkenheim, 2020-08-06 Citizens and Groups in Contemporary China began with two symposia held in 1977 and 1978 The first a workshop on The Pursuit of Interest in China was held in August 1977 at the University of Michigan and was organized by Michel Oksenberg and Richard Baum It was supported by a grant from the Joint Committee on Contemporary China of the Social Science Research Council and the American Council of Learned Societies using funds provided by the Andrew Mellon Foundation Its principal goal was to use detailed case studies to explore the relevance of interest group approaches to the study of Chinese politics The second a panel organized by the editor for the 1978 Chicago meeting of the Association of Asian Studies sought to apply participatory approaches to the role of social groups in the Chinese political process The striking degree of overlap in the focus methodology and participants in both meetings suggested to a number of the paper writers that there was a need for a more eclectic approach which would focus simultaneously on individual and group actors The recognition that a volume based on such an approach might serve the needs of students and scholars seeking to examine the dynamics of informal influence and power in China was the stimulus for publishing the studies presented here in book form ix

Market and Plan under Socialism Jan S. Prybyla, 2019-11-07 In this volume the author provides an analysis of the centrally planned socialist state economies and their common percentage in the Stalinist Plan introduced in the Soviet Union in the late 1920s Prybyla first explores the neoclassical plan in two variants conservative and liberal the radical plan Maoplan and the Yugoslav experiment neomarket Yugoplan He then examines specific countries as their governments search for alternative solutions to the economic problems that plague them His dynamic presentation of the economic models clearly shows the transformation of the original Stalinist model reveals the obstacles to reform created by the structural problems that exist within these economies and demonstrates that inherent deficiencies within the systems must in time affect growth and balance

Market Civilizations Quinn Slobodian, Dieter Plehwe, Esra Elif Nartok, Aditya Balasubramanian, Tobias Rupperecht, Isabella M. Weber, Antina von Schnitzler, Jeremy Walker, Paulo Chamon, Karin Fischer, Mila Jonjic, Nenad Pantelic, Lars Mjølset, Reto Hofmann, Jimmy Casas Klausen, 2022-05-24 A deep investigation of neoliberalism's proselytizers in Eastern Europe and the Global South Where does free market ideology come from Recent work on the neoliberal intellectual movement around the Mont Pelerin Society has allowed for closer study of the relationship between ideas interests and institutions Yet even as this literature brought neoliberalism down to earth it tended to reproduce a European and American perspective on the world With the notable exception of Augusto Pinochet's Chile long seen as a laboratory of neoliberalism the new literature followed a story of diffusion as ideas migrated outward from the

Global North Even in the most innovative work the cast of characters remains surprisingly limited clustering around famous intellectuals like Milton Friedman and Friedrich Hayek Market Civilizations redresses this absence by introducing a range of characters and voices active in the transnational neoliberal movement from the Global South and Eastern Europe This includes B R Shenoy an early member of the Mont Pelerin Society from India who has been canonized in some circles since the Singh reforms Manuel Ayau another MPS president and founder of the Marroqu n University an underappreciated Latin American node in the neoliberal network Chinese intellectuals who read Hayek and Mises through local circumstances and many others Seeing neoliberalism from beyond the industrial core helps us understand what made radical capitalism attractive to diverse populations and how often disruptive policy ideas went local

Disruptive Platforms Tymoteusz Doligalski, Michał Goliński, Krzysztof Kozłowski, 2021-12-19 It has taken platforms only twenty years to become digital economy hubs They have changed markets enterprises and society They have expedited communication collaboration and trade for consumers winning their attention and collecting their data In doing so they have made processes products and industries obsolete and disrupted the expectations and behaviours of market players This raises the question are digital platforms global innovators or disruptive monopolists Are they a solution to problems of the past or emissaries of a problematic future This book provides a multi faceted approach to platforms and their profound impact on markets and ecosystems Economic managerial social and political aspects are analysed and the differentiation of platforms and their disruptive potential is reviewed The book also examines the mechanism of achieving a monopolistic position including in the international supply chain and the greater influence of platforms on political activity and contemporary democracy With examples from Poland USA and China the contributions offer an international evaluation of disruptive platforms across a multitude of industries The edited collection prepared by scholars from the SGH Warsaw School of Economics will be valuable to researchers and academics across the fields of strategic management marketing innovations international business and the digital economy

State and Law in the Development Process Ann Seidman, 2016-07-27 Ann and Robert Seidman have written an invaluable theoretical and practical guide for those concerned with the role of the state in development Bereket Habte Selassie Professor of African Studies Howard University State and Law in the Development Process is a scholarly work and essential reading for undergraduate and postgraduate students taking courses on the Third World its history and development It provides an excellent bibliography and analysis which sets out the fundamentals of research into the future development of the Third World Expertly written it embodies a research methodology which is linked to a theoretical perspective John F McEldowney Senior Lecturer in Law University of Warwick The post 1945 collapse of colonialism and the emergence of new nationalist governments seemed to promise plenty for all third world peoples Four decades later those promises lay in shards This book proposes a theory to explain the failure of third world states to transform the institutions that produce poverty and powerlessness for the mass of the population Based on that theory it

proposes a methodology designed to facilitate the democratic exercise of state power through law to empower third world peoples to play an effective role in building a peaceful world of plenty for all **Documentation Internationale Du Travail** International Labour Office. Central Library and Documentation Branch,1984 **Food For One Billion** Robert C. Hsu,2019-03-22 This book examines the agricultural policies and programs adopted by the Chinese leadership since 1949 and analyzes the role of agriculture in China's changing development strategies Dr Hsu gives particular attention to the measures intended to improve agricultural technology and to the sources of funds for agricultural investment He concludes that although the collective system has been effective in mobilizing China's rural resources for agricultural development and in promoting progress in labor intensive agricultural technology periodic extreme leftist policies and interference by rural party cadres have caused various kinds of inefficiency offsetting the advantages gained from collective farming This is the first book to systematically analyze the ways in which China's agricultural development is being financed By critically examining the level and nature of state resources allocated to agriculture the author challenges the view that China has pursued an agriculture first strategy of economic development since the early 1960s
