*Economics and Decision Making for Environmental Quality* James Richard Conner, Edna Tusak Loehman, 1974

Economics and Decision Making for Environmental Quality J. Richard Conner, Edna Loehman, 1974      **Economics and Decision Making for Environmental Quality** E. Loehman, 1974      Environmental Policy Analysis for Decision Making J. Loomis, Gloria Helfand, 2006-01-09

1 ENVIRONMENTAL POLICY ANALYSIS WHAT AND WHY Why environmental policy analysis Environmental issues are growing in visibility in local national and world arenas as a myriad of human activities leads to increased impacts on the natural world Issues such as climate change endangered species wilderness protection and energy use are regularly on the front pages of newspapers Governments at all levels are struggling with how to address these issues Environmental policy analysis is intended to present the environmental and social impacts of policies in the hope that better decisions will result when people have better information on which to base those decisions Conducting environmental policy analysis requires people who understand what it is and how to do it Interpreting it also requires those skills We hope that this book will increase the abilities both of analysts and of decision makers to understand and interpret the impacts of environmental policies Policy analysis books almost invariably begin by pointing out that policy analysis can take many forms This book is no different As you will see in Chapter 1 we consider policy analysis to be information provided for the policy process That information can take many forms from sophisticated empirical analysis to general theoretical results from summary statistics to game theoretic strategies

**Planning and Environmental Protection** Chris E Miller, 2001-09 This collection of essays examines the roles which land use planning can play in the protection of the environment The subjects covered range from traditional concerns like pollution nuisance and contaminated land to biodiversity and the pursuit of sustainable development which forms the defining element of current environmental policy across the European Community and in most other developed economies Environmental assessment is discussed along with the succession of public law actions Twyford Down included by environmental activists which were necessary to convince the English courts of the full implications and the direct effect of the EC Directive 85 337 The later chapters become progressively more concerned with the planning system as the forum of negotiation and more participatory approaches as distinct from fiscal instruments and command and control regulation to encouraging sustainability The contributors represent a variety of academic disciplines law geography planning environmental management offering complementary insights into the planner's role in allocating land uses so as to minimise waste generation and energy consumption as well as maximising local amenity Science for Environmental Protection National Research Council, Division on Earth and Life Studies, Board on Environmental Studies and Toxicology, Committee on Science for EPA's Future, 2012-12-21 In anticipation of future environmental science and engineering challenges and technologic advances EPA asked the National Research Council NRC to assess the overall capabilities of the agency to develop obtain and use the best available scientific and technologic information and tools to meet persistent emerging and future mission challenges and opportunities Although the committee cannot predict with certainty what new environmental problems EPA will face in the next 10 years or more it worked to identify some of the common drivers and common characteristics of problems that are likely to occur Tensions inherent to the structure of EPA's work contribute to the current

and persistent challenges faced by the agency and meeting those challenges will require development of leading edge scientific methods tools and technologies and a more deliberate approach to systems thinking and interdisciplinary science

Science for Environmental Protection The Road Ahead outlines a framework for building science for environmental protection in the 21st century and identified key areas where enhanced leadership and capacity can strengthen the agency's abilities to address current and emerging environmental challenges as well as take advantage of new tools and technologies to address them The foundation of EPA science is strong but the agency needs to continue to address numerous present and future challenges if it is to maintain its science leadership and meet its expanding mandates Planning for Sustainability Stephen M. Wheeler, 2013-07-18 How can human communities sustain a long term existence on a small planet This challenge grows ever more urgent as the threat of global warming increases Planning for Sustainability presents a wide ranging intellectually well grounded and accessible introduction to the concept of planning for more sustainable and livable communities The text explores topics such as how more compact and walkable cities and towns might be created how local ecosystems can be restored how social inequalities might be reduced how greenhouse gas emissions might be lowered and how more sustainable forms of economic development can be brought about The second edition has been extensively revised and updated throughout including an improved structure with chapters now organized under three sections the nature of sustainable planning issues central to sustainable planning and scales of sustainable planning New material includes greater discussion of climate change urban food systems the relationships between public health and the urban environment and international development Building on past schools of planning theory Planning for Sustainability lays out a sustainability planning framework that pays special attention to the rapidly evolving institutions and power structures of a globalizing world By considering in turn each scale of planning international national regional municipal neighborhood and site and building the book illustrates how sustainability initiatives at different levels can interrelate Only by weaving together planning initiatives and institutions at different scales and by integrating efforts across disciplines can we move towards long term human and ecological well being Current Issues in Business Law Kristine Strada-Rozenberga, Maria do Rosário Anjos, 2018-12-10 This volume contains the scientific papers presented at the Eighth International Conference Perspectives of Business Law in the Third Millennium that was held on 16 November 2018 at Bucharest University of Economic Studies Romania The scientific studies included in this volume are grouped into three chapters National and International Business Law Business and Corporate Criminal Law Labor Law in Business Context The present volume is addressed to practitioners researchers students and PhD candidates in juridical sciences who are interested in recent developments and prospects for development in the field of business law at international and national level
