Selling Women's History Emily Westkaemper, 2017-01-09 Only in recent decades has the American academic profession taken women's history seriously But the very concept of women's history has a much longer past one that's intimately entwined with the development of American advertising and consumer culture *Selling Women's History* reveals how from the 1900s to the 1970s popular culture helped teach Americans about the accomplishments of their foremothers promoting an awareness of women's wide ranging capabilities On one hand Emily Westkaemper examines how this was a marketing ploy as Madison Avenue co-opted women's history to sell everything from Betsy Ross Red lipstick to Virginia Slims cigarettes But she also shows how pioneering adwomen and female historians used consumer culture to publicize histories that were ignored elsewhere Their feminist work challenged sexist assumptions about women's subordinate roles Assessing a dazzling

array of media including soap operas advertisements films magazines calendars and greeting cards *Selling Women's History* offers a new perspective on how early and mid twentieth century women saw themselves Rather than presuming a drought of female agency between the first and second waves of American feminism it reveals the subtle messages about women's empowerment that flooded the marketplace [Cassette Books](#) Library of Congress.
