Slovakia Belgium Malaysia Singapore Rwanda Guyana and Trinidad and Tobago Free and fair elections are one of the most fundamental characteristics of democratic systems In ethnically divided societies elections and the rules and regulations on which they are based assume special importance because they provide important levers to guarantee or prevent adequate representation of different communal groups in the key institutions of the state Hence not only are elections contested vigorously but also the electoral systems according to which they are conducted This book was previously published as a special issue of *Ethnopolitics*

*Duverger's Law of Plurality Voting* Bernard Grofman, André Blais, Shaun Bowler, 2009-03-05 Maurice Duverger is arguably the most distinguished French political scientist of the last century but his major impact has strangely enough been largely in the English speaking world His book *Political Parties* first translated into English in 1954 has been very influential in both the party politics literature which continues to make use of his typology of party organization and in the electoral systems literature His chief contributions there deal with what have come to be called in his honor Duverger's Law and Duverger's Hypothesis The first argues that countries with plurality based electoral methods will tend to become two party systems the second argues that countries using proportional representation PR methods will tend to become multi party systems Duverger also identifies specific mechanisms that will produce these effects conventionally referred to as mechanical effects and psychological effects However while Duverger's Hypothesis concerning the link between PR and multipartism is now widely accepted the empirical evidence that plurality voting results in two party systems is remarkably weak with the U S the most notable exception The chapters in this volume consider national level evidence for the operation of Duverger's law in the world's largest longest lived and most successful democracies of Britain Canada India and the

United States One set of papers involves looking at the overall evidence for Duverger's Law in these countries the other set deals with evidence for the mechanical and incentive effects predicted by Duverger The result is an incisive analysis of electoral and party dynamics
