Paranormal Encounters on Britain's Roads Peter A. McCue, 2018-02-19 In this detailed book Dr Peter McCue reflects on the enormous range of paranormal phenomena to have been reported along Britain's roads and examines the theory that certain areas seem to be hotspots for such occurrences such as the A75 and B721 roads in southern Scotland and the Blue Bell Hill area in Kent He delves into the sightings of apparitional vehicles encounters with colliding apparitions phantom hitch hikers out of place big cats phantom black dogs UFOs missing time strange memory gaps vehicle interferences such as mysterious breakdowns and incidents in which drivers and passengers seem to have been translocated in space or time This thorough book debates the evidence and theories in a critical but open minded way and is a welcome addition to the genre

Mountain Mysteries Larry D. Thacker, 2006-11 A near obsessive pursuit of ghost stories and odd superstitions cranks up this serious study of Appalachian tales of the supernatural and their origin in both old world customs and real historical events An effort to preserve and record one aspect of a dying way of life the book relies on interviews and historic documents to search for the facts behind local lore of murder witchcraft and weird hauntings Several campfire worthy ghost stories are recounted in their entirety including The Swinging Gate of Fern Lake Hollow and an unexpectedly large number of stories about aliens and UFOs provide an interesting comparison of three century old mysteries and those stirred up in comparatively recent times

Britain's Paranormal Forests Peter A. McCue, 2019-10-07 Peter A McCue examines intriguing reports of people experiencing uncanny events in Britain's woods and forests from mysterious lights and strange animal encounters to ghostly experiences Much of the reported witness testimony was obtained first hand by McCue or other researchers While he draws sceptical conclusions about some of the alleged incidents

he takes others seriously and considers possible explanations Fully illustrated and written in McCue's inimitable style Britain's Paranormal Forests will make you think again about your next walk in the woods *How to Think Impossibly* Jeffrey J. Kripal, 2024-07-26 From precognitive dreams and telepathic visions to near death experiences UFO encounters and beyond so called impossible phenomena are not supposed to happen but do happen all the time These are the kinds of fantastic experiences that Jeffrey J Kripal takes up in *How to Think Impossibly* The impossible Kripal asserts is a function not of reality but of our present social constructions and subsequent perceptions and cognitions In other words we think these events and experiences are impossible but they are only impossible within our historically constructed frameworks In *How to Think Impossibly* Kripal thinks with specific individuals and their extraordinary experiences in vulnerable open and often humorous ways These lines of thought interweave the mental and material dimensions of humanistic and scientific inquiry resulting in a developing awareness in the reader that what we think of as the impossible is not impossible at all *Hair of the Alien* Bill Chalker, 2005-08-19 The shocking true story of a case unlike any other in the annals of UFO investigation DNA research or alien abduction July 23 1992 In Sydney Australia twenty eight year old Peter Khoury was awoken by what appeared to be two females both striking and unearthly kneeling on his bed What transpired between them was a physical assault as bizarre and disorienting as it was unnatural Then as quickly as they had arrived they vanished Khoury had become one of a legion of alien abductees with inexplicable experiences but this particular incident stood apart from all the others This time there was evidence two strands of white blond hair from one of the females Khoury's case would result in the very first forensic DNA analysis of alien abduction evidence and revealed an extraordinary biological anomaly one genetically close to human yet almost impossibly far from the human mainstream A gripping account of one of the great mysteries of our time *Hair of the Alien* brings us closer than ever before to understanding our past our origins and our place in the universe **Bermuda Triangle Legacy** Rob MacGregor, Bruce Gernon, 2017-10-08 Whatever happened to Flight 19 five Navy bombers that vanished on a routine training mission and the untold numbers of others who have disappeared in the Bermuda Triangle What can we learn from intrepid adventurers like Christopher Columbus Charles Lindbergh and Bruce Gernon the co author of this book who survived frightening encounters in the Triangle and lived to tell the tale *The Fog* presents pilot Bruce Gernon's groundbreaking new theory of the Bermuda Triangle based upon his own firsthand experiences eyewitness reports from other close call Triangle survivors and leading scientific research Gernon believes that a rare natural phenomenon may be behind many of the seemingly paranormal happenings in the Triangle causing time distortions pilot disorientation and equipment malfunctions But the notorious Bermuda Triangle hasn't given up all its secrets *The Fog* also explores the Triangle's connection to UFOs a secret navy base and a possible link to a vanished ancient civilization *Journal of the Society for Psychical Research* Society for Psychical Research (Great Britain), 2007 **The Paranormal Review**, 2006 **Cumulated Index to the Books**, 1999 *The British National Bibliography* Arthur James Wells, 1999 [Forthcoming](#)

Books Rose Army,2002 *Bibliographic Guide to Psychology* New York Public Library. Research Libraries,2000 The Myth and Mystery of UFOs Thomas E. Bullard,2016-10-17 When United Airlines workers reported a UFO at O Hare Airport in November 2006 it was met with the typical denials and hush up that usually accompany such sightings But when a related story broke the record for hits at the Chicago Tribune s website it was clear that such unexplained objects continued to occupy the minds of fascinated readers Why wonders Thomas Bullard don t such persistent sightings command more urgent attention from scientists scholars and mainstream journalists The answer in part lies in Bullard s wide ranging magisterial survey of the mysterious frustrating and ever evolving phenomenon that refuses to go away and our collective efforts to understand it In his trailblazing book Bullard views those efforts through the lens of mythmaking discovering what UFO accounts tell us about ourselves our beliefs and the possibility of visitors from beyond Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow alien and how it views relentless official denial as a part of conspiracy to hide the truth He also describes how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the human past and mythic themes and which UFO witnesses and researchers use to make sense of such phenomena and our place in the cosmos Bullard s book takes in the whole spectrum of speculations on alien visitations and abductions magically advanced technologies governmental conspiracies varieties of religious salvation apocalyptic fears and other paranormal experiences Along the way Bullard investigates how UFOs have inspired books movies and television series blurred the boundaries between science science fiction and religion and crowded the Internet with websites and discussion groups From the patches of this crazy quilt he posits evidence that a genuine phenomenon seems to exist outside the myth Enormously erudite and endlessly engaging Bullard s study is a sky watcher s guide to the studies stories and debates that this elusive subject has inspired It shows that despite all the competing interests and errors clouding the subject there is substance beneath the clutter a genuinely mysterious phenomenon that deserves attention as more than a myth *The World of Flying Saucers: A Scientific Examination of a Major Myth of the Space Age* Lyle Gifford Boyd,Donald H.
