

# A History of Electricity/Electrochemistry

- Thales of Miletus (640-546 B.C.) is credited with the discovery that amber when rubbed with cloth or fur acquired the property of attracting light objects.
- The word electricity comes from "elektron" the Greek word for amber.
- Otto von Guericke (1602-1686) invented the first electrostatic generator in 1675. It was made of a sulphur ball which rotated in a wooden cradle. The ball itself was rubbed by hand and the charged sulphur ball had to be transported to the place where the electric experiment was carried out.

Thales of Miletus

Otto von Guericke
