Electronic Day Trading 101:

Electronic Day Trading 101 Sunny J. Harris, 1999-11-10 By now you've probably heard lots of stories about the thousands of individuals worldwide who armed with little more than their PCs are making a killing day trading stocks online. Could electronic day trading be your ticket to financial independence? Here's your chance to find out. Written by Sunny J. Harris, a successful electronic trader and one of today's most respected trading educators, *Electronic Day Trading 101* is a complete step-by-step introduction to online day trading: what it is, how it works, and how to get started in business for yourself and succeed. Requiring no prior stock market or electronic investing experience, it covers all the basics from stock market fundamentals and essential trading terminology to sophisticated techniques for evaluating your trading performance. With dozens of illustrations and real-life examples, Harris fills you in on what you need to know about trading hardware and software, selecting an online broker or ECN, opening a trading account, developing a trading system that's right for you, trading from home or from a trading salon, performing fundamental and technical analysis, and researching stocks online. Perry Kaufman, author of *Trading Systems* and *Day Trade Futures Online*. Larry Williams, 2000-05-29, Wiley. Online Trading for a Living: When to get in, when to get out. Build, test, trade a winning system. Online brokers, research, market data. For those who are well-suited to day trading and short-term trading, the futures market is one of the best games in town. As the original short-term vehicle, the futures market allows the trader to collapse the time frame in which he or she can reach the desired profit target or pain threshold. As a result, wins and losses are compounded much more quickly than in stock trading, and in the case of wins, often more profitably. The ability to gain leverage with very little on margin gives you the trader the ability to earn more off smaller swings. And enough home runs could allow you to become your own boss, work from home in your bathrobe, or even work from your cell phone while lying on the beach. So far, so good. But what does it take to win? In *Day Trade Futures Online*, award-winning veteran futures trader
