Making of the New Spirituality James A. Herrick, 2004-12-02 James A Herrick offers an intellectual history of the New Religious Synthesis examining the challenges it poses to Judeo Christian tradition demonstrating its sources and manifestations in contemporary culture and questioning its acceptance in church and society American Spiritualities Catherine L. Albanese, 2001-04-22 This reader explores current interest in spirituality in the United States It traces the concept and presence of spirituality in the nation's past and explains the strong attraction to spiritual themes in the present with attention to questions of definition historical usage and connection to religion Twenty seven selections pursue the difference and diversity among Americans in terms of their spiritual styles here understood as modes of experiential knowledge Catherine L Albanese has organized these selections to reflect four approaches to spirituality knowing through the body or ritual based spiritualities knowing through the heart or evangelical and emotionally toned spiritualities knowing through the will or prophetic and social action spiritualities and knowing through the mind or metaphysically oriented spiritualities Taken together these essays make the argument that the spiritual is human made essentially religious and surely not the same at all American times and places The anthology includes selections by Catherine L Albanese Janet and Robert Aldridge Daniel Berrigan Joseph Epes Brown Charles W Colson Annie Dillard Virgilio Elizondo Tamar Frankiel Emma Goldman Charles E Hambrick Stowe B K S Iyengar Curtis D Johnson Martin Luther King Jr Chen Kung Jerena Lee Shirley MacLaine Aimee Semple McPherson Thomas Merton Carry A Nation E Burke Rochford Jr Jerry Rubin Molly Rush Starhawk Henry David Thoreau Ralph Waldo Trine Joachim Wach B Alan Wallace Steven Wilhelm and Dhyani Ywahoo Catherine L Albanese is Professor of Religious Studies at the University of California Santa Barbara She is the author of the widely used textbook *American Religions and Religion* now in its third edition and of numerous other articles and books including *Nature Religion in America From the Algonkian Indians to the New Age* Albanese is a former president of the American Academy of Religion 552 pages 6 1 8 x 9 1 4 bibl index cloth 0 253 33839 5 65 00 L 50 00 paper 0 253 21432 7 27 50 s 21 00 Religion in the Lands That Became America Thomas A. Tweed, 2025-05-13 A sweeping retelling of American religious history showing how religion has enhanced and hindered human flourishing from the Ice Age to the Information Age Until now the standard narrative of American religious history has begun with English settlers in Jamestown or Plymouth and remained predominantly Protestant and Atlantic Driven by his strong sense of the historical and moral shortcomings of the usual story Thomas A Tweed offers a very different narrative in this ambitious new history He begins the story much earlier 11 000 years ago at a rock shelter in present day Texas and follows Indigenous Peoples African Americans transnational migrants and people of many faiths as they transform the landscape and confront the big lifeway transitions from foraging to farming and from factories to fiber optics Setting aside the familiar narrative themes he highlights sustainability showing how religion both promoted and inhibited individual communal and environmental flourishing during three sustainability crises the medieval Cornfield Crisis which destabilized Indigenous ceremonial centers the Colonial Crisis which began with the

displacement of Indigenous Peoples and the enslavement of Africans and the Industrial Crisis which brought social inequity and environmental degradation The unresolved Colonial and Industrial Crises continue to haunt the nation Tweed suggests but he recovers historical sources of hope as he retells the rich story of America s religious past     Traveling Directions for Women Sharon M. Cadiz Ed D.,2013-04 Traveling Directions is a self help guide to support women in their coping response to a variety of challenging life cycle events and issues The focus is on holistic self directed healing and recovery using experiential exercises guideposts and roadside tips poetry essays and a rich array of lessons learned Opening the book begins the journey and engages the reader to stay open to developing the skill of self awareness about where they are at all times The book unfolds with a variety of brief descriptive chapters giving glimpses of where the journey can lead and how to keep one s bearings The ultimate goal is to help women secure a durable understanding about the importance of being awake in their lives and taking that awareness to the heights of positive personal development     *The Thunder Within* John J. Heney,2002     *The International Who's Who of Women 2002* Elizabeth Sleeman,2001 Over 5 500 detailed biographies of the most eminent talented and distinguished women in the world today     **Psychology as Religion** Paul C. Vitz,1994 This is a virtually rewritten second edition of New York University Professor Paul Vitz s profoundly important analysis of modern psychology Vitz maintains that psychology in our day has become a religion a secular cult of self and has become part of the problem of modern life rather than part of its resolution     *Toward a Global Science* Susantha Goonatilake,1998 Asian science such as mathematics Chinese printing gunpowder and the compass all contributed to the development of European science During the last few centuries however scientific contributions with Asian roots have diminished and been marginalized and deligitimised Yet the center of the world economy today is shifting to Asia with shifts in science and technology bound to follow Toward a Global Science is driven by the proposition that pre Renaissance acquisition of Asian knowledge did not exhaust Asian civilization s potential contribution There are many useful elements to modern science still lying hidden in Asian civilizational stores waiting to be mined The author gives details of recent contributions from South Asian medicine mathematics and psychology and explores how South Asian inputs can be useful in navigating the philosophical and ethical problems raised by two dominant technologies of the future namely biotechnology and information technology As an illustrative example it describes how a fruitful marriage of one technology virtual reality with South Asian philosophy can enliven both the technology as well as philosophy It also examines how Asian positions could be used to feed some key contemporary philosophical discussions on science Using a model of the civilizational construction of science the book views science without Eurocentric blinders It documents how science was built initially by transfers from non European civilizations and why the given historiography of science has to be rethought Throughout the book the author gives examples of parallels and antecedents between East and West in science and estimates the potential reservoir of Asian knowledge in each field The book also deals with the many knotty problems in recovering science from past traditions The author

distinguishes between his secular efforts from religious and other attempts that claim the equivalence of all knowledge systems      *Spirituality and Alternativity in Contemporary Japan* Ioannis Gaitanidis, 2022-10-20 This book critically analyses the creation and effects of spirituality as both discourse and practice in Japan It shows how the value of spirituality has been sustained by scholars who have wished for a more civic role for religion by the publishing industry whose exponential growth in the 1980s fashioned those who later identified as the representatives of this new spirituality culture by spiritual therapists who have sought to eke out a livelihood in an increasingly professionalized and regulated therapeutic field and by the cruel optimism of an increasingly precarious workforce placing its hopes in the imagined alternative that the supirichuaru represents Ioannis Gaitanidis offers a new transdisciplinary conceptualisation of alternativity that can be applied across and beyond the disciplines of religious studies media studies popular culture studies and the anthropology sociology of medicine

**Journal of Dharma** ,1992      *New Age Religion and Western Culture* Wouter J. Hanegraaff, 2018-09-24 Recent years have seen a spectacular rise of the New Age movement and an ever increasing interest in its beliefs and manifestations This fascinating work presents the first ever comprehensive analysis of New Age Religion and its historical backgrounds thus providing the reader with a means of orientation in the bewildering variety of the movement Making extensive use of primary sources the author thematically analyses New Age beliefs from the perspective of the study of religions While looking at the historical backgrounds of the movement he convincingly argues that its foundations were laid by so called western esoteric traditions during the Renaissance Hanegraaff finally shows how the modern New Age movement emerged from the increasing secularization of those esoteric traditions during the 19th century This ground breaking publication is compulsive reading for all those involved or interested in the New Age movement      **Off the Hook** Earl Wayne Heflinger, 2018-03-15 The author uses his own personal story of being born into a Christian fundamentalist family with extreme beliefs to paint a vivid picture of what life is like in toxic ideologies such as fundamentalist religion The book has three parts The first describes the spiritual abuse of his childhood due to stifling rules and restrictions inflicted by his parents caught up in their church's teachings on his thought processes and behavior The remarkably poignant stories show in painful detail how his self esteem was crushed how he was never intended to think for himself and how he was made to feel different and totally out of place in the world all by loving but misguided parents During his school days his social life was severely stunted because he felt like an outsider everywhere but in church The second part discusses his lifelong struggle with spiritual healing and his transition from a spoon fed belief system to a personally chosen worldview He thoughtfully muses about all the significant elements of religious spiritual belief systems God Jesus the Bible sin morality science life after death marriage divorce and others and contrasts his evolving beliefs with those of organized religion This is presented to give the reader a comprehensive illustration of how one particular seeker has constructed a personalized belief system through continual rethinking and updated understanding The third part calls on the author's advanced education and professional experience in business and

government in analyzing and developing systems and procedures It describes with a wealth of tips and checklists the process by which he escaped a toxic ideology and came to feel intellectually free and off the hook It ends with heartfelt encouragement for anyone similarly affected by repression to accept all available helpful resources and muster the determination to claim their personal power
