Gold Trail:

Mexican Gold Trail Glenn S. Dumke, 2006 Publisher Description *The Gold Trail* Harold Bindloss, 1914 **The Gold Trail** Harold Bindloss, 1910 **Hard Road West** Keith Heyer Meldahl, 2020-03-04 The dramatic journeys of the 19th century Gold Rush come to life in this geologist's tour of the American West and the events that shaped the land. In 1848 news of the discovery of gold in California triggered an enormous wave of emigration toward the Pacific. The dramatic terrain these settlers crossed is so familiar to us now that it is hard to imagine how frightening even godforsaken, its sheer rock faces and barren deserts once seemed to them. *Hard Road West* brings their perspective vividly to life, weaving together the epic overland journey of the covered wagon trains and the compelling story of the landscape they encountered. Taking readers along the 2,000 mile California Trail, Keith Meldahl uses settler's diaries and letters as well as his own experiences on the trail to reveal how the geology and geography of the West shaped our nation's westward expansion. He guides us through a landscape of sawtooth mountains, following the meager streams that served as lifelines through an arid land all the way to California itself, where colliding tectonic plates created breathtaking scenery and planted the gold that lured travelers west in the first place. Alternates seamlessly between vivid accounts of the 19th century journey and lucid explanations of the geological events that shaped the landscape traveled. Library Journal **Gold** Stewart Edward White, 1913 **The Gold Trail** Bindloss Harold, 2016-06-23 Unlike some other reproductions of classic texts 1 We have not used OCR (Optical Character Recognition) as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits, maps, sketches, etc. We have endeavored to keep the quality of these images so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy **Bonanza** William MacLeod Raine, 1926 *The Gold Crusades* Douglas Fetherling, 1997-12-15 Among the hordes of starry-eyed argonauts who flocked to the California gold rush of 1849 was an Australian named Edward Hargraves. He left America empty-handed only to find gold in his own backyard. The result was the great Australian rush of the 1850s, which also attracted participants from around the world. A South African named P. J. Marais was one of them. Marais too returned home in defeat, only to set in motion the diamond and gold rushes that transformed southern Africa. And so it went. Most previous historians of the gold rushes have tended to view them as acts of spontaneous nationalism. Each country likes to see its own gold rush as the one that either shaped those that followed or epitomized all the rest. In *The Gold Crusades: A Social History of Gold Rushes 1849-1929* Douglas Fetherling takes a different approach. Fetherling argues that the gold rushes in the United States, Canada, Australia, New Zealand, and South Africa shared the same causes and results, the same characters and characteristics. He posits that they were in fact a single discontinuous event, an expression of the British imperial experience and nineteenth-century liberalism. He does so with dash and style and with a sharp eye for the telling anecdote, the out-of-the-way document, and the bold connection between seemingly unrelated
