G.D.H. Cole and British Sociology Matt Dawson, 2024-12-01 This book explores G D H Cole s significant yet often overlooked role in the history of British Sociology from 1920 1960 Eager to achieve a sense of scientific legitimacy following its institutionalisation in the early 1900s British sociology had no space for a scholar like Cole who saw sociology as an innately normative and political project which in his case was dedicated to the development of socialism Conceptualising Cole s relationship to sociology as one of semi alienation suggesting an openness to the principles of the discipline yet disagreement with the form it takes in the current day Dawson shows how Cole made a number of important sociological contributions which were grounded in an early form of structuration theory including the production of one of Britain s first sociology textbooks and an early monograph on the sociology of class A passionate advocate for what sociology could be Cole was a promoter of the sociological Marx and

interrogator of Durkheim as part of his desire to develop sociology in Britain including at his own institute of the University of Oxford Cole also produced a distinctive corpus of public and creative sociology expressed in newspaper articles poems and songs Drawing on archival research Dawson reintegrates Cole into the history of British Sociology and in so doing offers valuable insight into sociology's history and its contemporary form emphasising a normative critical and public form of the discipline *Bulletin of the British Library of Political and Economic Science* British Library of Political and Economic Science,1926 The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950 George Watson,I. R. Willison,1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries *Routledge Library Editions: The Gold Standard* Various Authors,2021-03-05 Re issuing 8 seminal volumes in the history of economics originally published between 1930 and 1987 but which still have enduring validity the volumes in this set by Barthold A Butensch n Karl Gustav Cassel G D H Cole Diane B Kunz H L Puxley George F Warren and Frank A Pearson and Charles Morgan Webb Set the British political and financial crisis of 1931 in an international context Provide a definitive account of an exciting episode in British politics Discuss the inadequacy of orthodox Gold Standard theory in the light of post war monetary phenomenon Examine the American use of silver and changes to China's currency system Form an invaluable commentary on the monetary instability of these crucial years Represent an influential study of the relationship between the prices of gold and other commodities
