Golden Apples:

The Three Golden Apples Натаниель Готорн, 2021-12-02 Golden Apples of the Sun Ian Wood, 2023-12-24 One day a beautiful golden comet streaked across the sky of Earth and from it came the strangest thing apple trees that weren't real trees and golden apples that weren't real gold They spread all over Earth from the Arctic to Zanzibar from the Amazon to the Zambesi What was going on here The aim of the aliens might surprise you but don't focus on that Focus on the beauty of their gift Note that this book is entirely unrelated to Ray Bradbury's *The Golden Apples of the Sun* which took its name as I do from W B Yeats's poem *The Song of Wandering Aengus* *THE THREE GOLDEN APPLES - A Legend of Hercules* Anon E. Mouse, 2017-03-06 ISSN 2397 9607 Issue 347 In this 347th issue of the Baba Indaba's Children's Stories series Baba Indaba narrates the Greek Fairy Tale *THE THREE GOLDEN APPLES* Have you ever hear of the golden apples that grew in the garden of the Hesperides Ah those were such apples as would bring a great price by the bushel if any of them could be found growing in the orchards of nowadays But there is not I suppose a graft of that wonderful fruit on a single tree in the wide world Not so much as a seed of those apples exists any longer And even in the old old half forgotten times before the garden of the Hesperides was overrun with weeds a great many people doubted whether there could be real trees that bore apples of solid gold upon their branches All had heard of them but nobody remembered to have seen any Children nevertheless used to listen open mouthed to stories of the golden apple tree and resolved to discover it when they should be big enough Adventurous young men who desired to do a braver thing than any of their fellows set out in quest of this fruit Many of them returned no more none of them brought back the apples No wonder that they found it impossible to gather them It is said that there was a dragon beneath the tree with a hundred terrible heads fifty of which were always on the watch while the other fifty slept But then the adventure was undertaken by a hero who had enjoyed very little peace or rest since he came into the world At the time he was wandering through the land with a mighty club in his hand and a bow and quiver slung across his shoulders He was dressed in the skin of the biggest and fiercest lion that had ever been seen and which he himself had killed although on the whole he was kind generous and noble Even so there was a good deal of the lion's fierceness in his heart for his name was Hercules also known as Heracles Everywhere he went he asked if anyone had news of the garden or if they could give directions to it Did Hercules ever get directions to the garden of the Hesperides Did he ever find his way there when so many before him had failed If he did get to the garden was he able to gain entry and did he get to pick a golden apple So many questions To find the answers to these questions and others you may have you will have to download and read this story to find out BUY ANY 4 BABA INDABA CHILDREN'S STORIES FOR ONLY 1 33% of the profit from the sale of this book will be donated to charities INCLUDES LINKS TO DOWNLOAD 8 FREE STORIES Each issue also has a WHERE IN THE WORLD LOOK IT UP section where young readers are challenged to look up a place on a map somewhere in the world The place town or city is relevant to the story HINT use Google maps Baba Indaba is a fictitious Zulu storyteller who

narrates children's stories from around the world Baba Indaba translates as Father of Stories Aramé and the Golden Apple Pedro Angel García Colarte, 2011-07-21 Pedro Angel Garcia Colarte makes his debut as a sage writer exploring the topics of wisdom virtue and honor in a world where myths legends and folktales come alive When a cankerous old man on a park bench tells the story of an old venerable tree and how Aram the lonely goatherd once saved it from ruin many years ago in antiquity the reader is transported to the world of the forgotten ancient civilizations that once ruled Eurasia The story weaves together the mysterious legend of Aratta the folktale of the Golden Apple Tree the myth of Osiris and other timeless tales providing a window to another time where the symbols of our past come alive Arams lowly and humble station in life as a goatherd does not hamper his quick and serendipitous ascendance to the kings court steeped in intrigue and danger Charged with the task of capturing a mythical creature which only he has seen Aram sets out on a journey across distant lands but not before unexpected obstacles appear Whether by his own wit chance or hidden forces beyond his understanding he confronts each challenge and succeeds only to find that he is no closer to the truth he secretly yearns to discover He enlists the support of an unlikely band of followers along the way and as news of his exploits spread his popularity increases and places him at the head of a widespread revolution in the kingdom **The Three Golden Apples** Nathaniel

Hawthorne, 2021-04-20 Did you ever hear of the golden apples that grew in the garden of the Hesperides Ah those were such apples as would bring a great price by the bushel if any of them could be found growing in the orchards of nowadays But there is not I suppose a graft of that wonderful fruit on a single tree in the wide world Not so much as a seed of those apples exists any longer And even in the old old half forgotten times before the garden of the Hesperides was overrun with weeds a great many people doubted whether there could be real trees that bore apples of solid gold upon their branches All had heard of them but nobody remembered to have seen any Children nevertheless used to listen open mouthed to stories of the golden apple tree and resolved to discover it when they should be big enough Adventurous young men who desired to do a braver thing than any of their fellows set out in quest of this fruit Many of them returned no more none of them brought back the apples No wonder that they found it impossible to gather them It is said that there was a dragon beneath the tree with a hundred terrible heads fifty of which were always on the watch while the other fifty slept In my opinion it was hardly worth running so much risk for the sake of a solid golden apple Had the apples been sweet mellow and juicy indeed that would be another matter There might then have been some sense in trying to get at them in spite of the hundred headed dragon But as I have already told you it was quite a common thing with young persons when tired of too much peace and rest to go in search of the garden of the Hesperides And once the adventure was undertaken by a hero who had enjoyed very little peace or rest since he came into the world At the time of which I am going to speak he was wandering through the pleasant land of Italy with a 4mighty club in his hand and a bow and quiver slung across his shoulders He was wrapt in the skin of the biggest and fiercest lion that ever had been seen and which he himself had killed and though on the whole he was kind and generous

and noble there was a good deal of the lion's fierceness in his heart As he went on his way he continually inquired whether that were the right road to the famous garden But none of the country people knew anything about the matter and many looked as if they would have laughed at the question if the stranger had not carried so very big a club *The Earthly Paradise: December: Golden apples. myself living inside the myths of the world as if they were expert scripts for real life inner adventures I never once thought I was crazy Why should I Quite the opposite I believed I was finally getting grounded in something real But it would take me twenty years to make sense of it That sense is embodied in The Emerald Modem The Emerald Modem includes direct correspondences between human chakras and the Earth s energy features and the galactic originalstables listing locations of sacred sites around the planet where you may experience this relationshipexplanations of world myths which provide clues to this unsuspected visionary world around us This is the first book to synthesize all the fragments of geomantic perception sacred sites energy points vertexes etc into a global interactive model that ties human consciousness directly to it Leviton describes 85 subtle features in the planetary landscape places you can go for mystical experiences They are features of the Earth s energy body almost all invisible to conventional sight But psychic cognition can be trained and you can usefully interact with any of these types of sites today without seeing what you re doing Your intent to interact for the benefit of yourself and the planet is all that s required Just as modems dial us into the Internet so the features of the Earth s energy body described in The Emerald Modem help us get online with the galaxy You can learn to visit Grail Castles experience a Mount Olympus or walk through the stars in a landscape zodiac and you can learn enough to become confident that you re not traveling alone
