Making Copies in European Art 1400-1600 ,2018-11-26 Making Copies in European Art 1400 1600 comprises sixteen essays that explore the form and function manner and meaning of copies after Renaissance works of art The authors construe copying as a method of exchange based in the theory and practice of imitation and they investigate the artistic techniques that enabled and facilitated the production of copies They also ask what patrons and collectors wanted from a copy which characteristics of an artwork were considered copyable and where and how copies were stored studied displayed and circulated Making Copies in European Art in addition to studying many unfamiliar pictures incorporates previously unpublished documentary materials *Islamic Golden Age* Kelly Mass, The Islamic Golden Age a period marked by extraordinary cultural economic and scientific prosperity spanned roughly from the 8th to the 14th century This era is often considered to have begun during the reign of the Abbasid caliph Harun al Rashid 786 809 particularly with the establishment of the House of Wisdom in Baghdad At this time Baghdad was the world s largest city serving as the epicenter of intellectual

activity The House of Wisdom became a hub for scholars and polymaths from a diverse range of backgrounds who were tasked with gathering translating and preserving the classical knowledge of the ancient world Key works from Greek Syriac Middle Persian and Sanskrit texts were translated into Arabic and Syriac with some later making their way into Latin and Hebrew This immense intellectual undertaking played a significant role in preserving and expanding upon the knowledge that would later form the foundation of the Renaissance in Europe The decline of the Abbasid caliphate culminating in the Mongol invasions and the Siege of Baghdad in 1258 is commonly regarded as marking the end of this flourishing period However the exact timeline of the Golden Age s conclusion is debated among scholars Some place the end around 1350 coinciding with the Timurid Renaissance while others extend it until the 15th or even the 16th century linking it with the rise of the Islamic Gunpowder Empires One of the driving forces behind the Islamic Golden Age was the emphasis placed on learning within Islamic teachings The Quran and Hadiths which contain numerous references to the pursuit of knowledge were fundamental in motivating Muslims during this period to engage in scientific philosophical and literary endeavors

Art and History of Greece Mario Iozzo,1998 **Rivers of Gold** Hugh Thomas,2013-11-20 From one of the greatest historians of the Spanish world here is a fresh and fascinating account of Spain s early conquests in the Americas Hugh Thomas s magisterial narrative of Spain in the New World has all the characteristics of great historical literature amazing discoveries ambition greed religious fanaticism court intrigue and a battle for the soul of humankind Hugh Thomas shows Spain at the dawn of the sixteenth century as a world power on the brink of greatness Her monarchs Fernando and Isabel had retaken Granada from Islam thereby completing restoration of the entire Iberian peninsula to Catholic rule Flush with success they agreed to sponsor an obscure Genoese sailor s plan to sail west to the Indies where legend purported gold and spices flowed as if they were rivers For Spain and for the world this decision to send Christopher Columbus west was epochal the dividing line between the medieval and the modern Spain s colonial adventures began inauspiciously Columbus s meagerly funded expedition cost less than a Spanish princess s recent wedding In spite of its small scale it was a mission of astounding scope to claim for Spain all the wealth of the Indies The gold alone thought Columbus would fund a grand Crusade to reunite Christendom with its holy city Jerusalem The lofty aspirations of the first explorers died hard as the pursuit of wealth and glory competed with the pursuit of pious impulses The adventurers from Spain were also of course curious about geographical mysteries and they had a remarkable loyalty to their country But rather than bridging earth and heaven Spain s many conquests bore a bitter fruit In their search for gold Spaniards enslaved Indians from the Bahamas and the South American mainland The eloquent protests of Bartolom de las Casas here much discussed began almost immediately Columbus and other Spanish explorers Cort s Ponce de Le n and Magellan among them created an empire for Spain of unsurpassed size and scope But the door was soon open for other powers enemies of Spain to stake their claims Great men and women dominate these pages cardinals and bishops priors and sailors landowners and warriors princes and priests

noblemen and their determined wives Rivers of Gold is a great story brilliantly told More significant it is an engrossing history with many profound often disturbing echoes in the present **Age of Gold, Age of Iron** Barbara Von Barghahn,1985 **Art and History of Crete** Mario Iozzo,1996 Discover the rich history and culture of some of the world's most influential historical places with these highly illustrated books packed with informative and enlightening descriptions and information **Apples of Gold in Settings of Silver** Frank Talmage,Pontifical Institute of Mediaeval Studies,1999
