The Golden Pot E. T. A. Hoffmann, 2023-10-24 I could list plausible comparisons all day and night but The Golden Pot is simply unlike anything else I have ever read Justin Taylor The Washington Post Macabre and fantastical Hoffmann's wildly imaginative tales offer an unflinching view of human nature and sing clearer than ever in a masterful new translation Whether a surrealist exploration of the anxieties surrounding automation or a mystery concerning a goldsmith missing jewels and a spate of murders each tale in this collection reveals the complexities of human desire and fear Hoffman whose most famous work is The Nutcracker is often compared to Edgar Allan Poe Hoffman's massive influence qualifies him as the godfather of the German Romantic Movement which led to the horror genre The macabre fantastical

nature of his subject matter inspired a broad swath of culture with two of the longer stories in this collection *The Sandman* and *The Automaton* influencing Philip K Dick's original inspiration for *Blade Runner* The murder mystery *Mademoiselle de Scudry* is perhaps one of the earliest prototypes of the detective genre story Music and madness flow through E T A Hoffmann's phantasmagoric stories The ringing of crystal bells heralds the arrival of a beguiling snake and a student's descent into lunacy a young man abandons his betrothed for a woman who plays the piano skillfully but seems worryingly wooden a counselor's daughter must choose between singing and her life Peter Wortsman's masterful new translation allows Hoffmann's distinct and influential style to shine while breathing new life into stories that seem both familiar and uncanny

Encyclopedia of Literary Translation Into English: A-L O. Classe, 2000 *Afterlives of Romantic Intermediality* Leena Eilittä, Catherine Riccio-Berry, 2015-12-24 *Afterlives of Romantic Intermediality* addresses the manifold even global artistic developments that were initiated by European Romantics In the first section the contributors show how the rising perspective of intermediality was discussed in philosophical terms and adapted itself to Romantic literature and music In the second section the contributors show how post Romantic writers visual artists and composers have engaged with Romantic heritage By exploring primary works that range from European arts to Latin American literature these essays focus on the interdisciplinary developments that have emerged in literature music painting film architecture and video art Overall the contributions in this volume demonstrate that intermedial connections or sometimes the conscious lack of such connections embody intriguing aspects of modernity and postmodernity

The Cambridge Companion to Fairy Tales Maria Tatar, 2014-12-11 Fairy tales have never known geographical disciplinary or cultural borders In many ways they provide a model for thinking about storytelling on a transnational level long before comparative literature began transforming itself into world literature As the simple expression of complex thought fairy tales have increasingly become the focus of intense scholarly inquiry In this Companion international scholars from a range of academic disciplines explore the historical origins cultural dissemination and psychological power of fairy stories and offer model interpretations of tales from a variety of traditions and sources including Charles Perrault the Brothers Grimm and the *One Thousand and One Nights* Rather than disenchanting the stories the essays in this volume broaden our understanding of them and deepen our appreciation of the cultural work they do A chronology and guide to further reading contribute to the usefulness of the volume for students and scholars

The Poetics of Childhood Roni Natov, 2014-06-03 *The Poetics of Childhood* investigates the sensibility of childhood and the ways writers try to recapture it It explores the earliest conceptions of innocence and the development of literature about children through contemporary times It encompasses the pastoral the dark pastoral the anti pastoral it addresses picture books fantasy and realism It looks with originality at the literature of childhood inclusive of children's literature and literature about childhood so that the child and adult can be seen reflexively the child in the adult and the various stages of childhood as they are remembered and retained in adulthood It confronts issues of primal and socially

constructed desire and the use of childhood to talk about desire. It is a poetics, a way of imagining the experience of childhood and explores childhood as a particularly fluid and porous time. It also addresses issues of creativity. This is an essential reference for teachers, parents, artists, and writers. *Female Gothic Histories* Diana Wallace, 2013-03-15. *Female Gothic Histories* Gender History and the Gothic is an innovative new study of the ways in which women writers have used Gothic historical fiction to symbolise and counter their exclusion from traditional historical narratives. *Ambivalent Literary Farewells to the German Democratic Republic* John David Pizer, 2021-08-02. This study reverses the question implicit in the title of Christa Wolf's now canonical 1990 novella *Was bleibt*. What remains? Looking instead at what was lost during the process of German reunification. It argues that in their work during and after the Wende, most literary authors from both East and West Germany responded ambivalently to the reunification. Many felt on the one hand a keen sense of loss as the GDR dissolved and an expanded Federal Republic summarily absorbed former Eastern Germany. They mourned the ideals of democratic socialism, tolerance, and internationalism that the GDR had held dear, as well as the country's rich cultural life. On the other hand, however, they recognized that the GDR was a fundamentally corrupt surveillance state whose industry weighed heavily on the environment while failing to buoy the country's economy. By looking at works by some of the most important authors from either side of the border, this study shows that those who unequivocally embraced the reunification were clearly in the minority. **Gothic** Fred Botting, 1996. This is an introduction to a genre of ever increasing importance in literary studies. Considering writers from Mary Shelley to David Lynch, the author outlines the history, characteristics, cultural significance, and critical interpretations of the form. **The Oxford Guide to Literature in English Translation** Peter France, 2000. This guide highlights the place of translation in our culture, encouraging awareness of the process of translating and the choices involved, making the translator more visible. Concentrating on major writers and works, it covers translations out of many languages from Greek to Hungarian, Korean to Turkish. For some works, e.g. Virgil's *Aeneid*, which have been much translated, the discussion is historical and critical, showing how translation has evolved over the centuries and bringing out the differences between versions. Elsewhere, with less familiar literatures, the Guide examines the extent to which translation has done justice to the range of work available. *The Celestial Omnibus and Other Tales* E.M. Forster, 2014-09-22. Six short stories spotlight journal and magazine fiction published by Forster from 1900 to 1911. These tales exhibit the first traces of Forster's witty and elegant style, as well as his profound humanism. *Discourse Networks, 1800/1900* Friedrich A. Kittler, 1990. This is a highly original book about the connections between historical moment, social structure, technology, communication systems, and what is said and thought using these systems, notably literature. The author focuses on the differences between discourse networks in 1800 and in 1900, in the process developing a new analysis of the shift from romanticism to modernism. The work might be classified as a German equivalent to the New Historicism, that is currently of great interest among American literary scholars, both in the intellectual influences to which Kittler responds and in his

concern to ground literature in the most concrete details of historical reality The artful structure of the book begins with Goethe's Faust and ends with Valéry's Faust In the 1800 section the author discusses how language was learned the emergence of the modern university the associated beginning of the interpretation of contemporary literature and the canonization of literature Among the writers and works Kittler analyzes in addition to Goethe's Faust are Schlegel Hegel E T A Hoffman's The Golden Pot and Goethe's Tasso The 1900 section argues that the new discourse network in which literature is situated in the modern period is characterized by new technological media film the photograph and the typewritten page and the crisis that these caused for literary production Along the way the author discusses the work of Nietzsche Gertrude Stein Mallarmé Bram Stoker the Surrealists Rilke Kafka and Freud among others

Travelling Notions of Culture in Early Nineteenth-Century Europe Hannu Salmi, Asko Nivala, Jukka Sarjala, 2015-10-23 The notions of culture and civilization are at the heart of European self image This book focuses on how space and spatiality contributed to defining the concepts of culture and civilization and conversely what kind of spatial ramifications culture and civilization entailed These questions have vital importance to the understanding of this formative period of modern Europe The chapters of this volume concentrate on the following themes What were the sites of culture civilization and Bildung and how were these sites employed in defining these concepts What kind of borders did this process of definition and its inherent spatial imagination produce What were the connecting routes between the supposed centers and peripheries What were the strategies of envisioning negotiating and transforming cultural territories in early nineteenth century Europe This book adds new perspectives on ways of approaching spatiality in history by investigating for example the decisive role of the French revolution the persistent interest in classical civilization and its sites emerging urbanism and the culture of the cities the changing constellations between centers and peripheries and the colonial extensions or transfigurations of culture It also pays attention to the spatiality of culture as a metaphor but simultaneously emphasizes the production of space in an era of technological innovation and change

Evelina Frances Burney, 2002-04-18 Lord Orville did me the honour to hand me to the coach talking all the way of the honour I had done him O these fashionable people Frances Burney's first and most enduringly popular novel is a vivid satirical and seductive account of the pleasures and dangers of fashionable life in late

eighteenth century London As she describes her heroine s entry into society womanhood and inevitably love Burney exposes the vulnerability of female innocence in an image conscious and often cruel world where social snobbery and sexual aggression are played out in the public arenas of pleasure gardens theatre visits and balls But Evelina s innocence also makes her a shrewd commentator on the excesses and absurdities of manners and social ambitions as well as attracting the attention of the eminently eligible Lord Orville Evelina comic and shrewd is at once a guide to fashionable London a satirical attack on the new consumerism an investigation of women s position in the late eighteenth century and a love story The new introduction and full notes to this edition help make this richness all the more readily available to a modern reader ABOUT THE SERIES For over 100 years Oxford World s Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford s commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

Gothic Vision Dani Cavallaro,2002-08-01 The Gothic Vision examines a broad range of tales of horror terror the uncanny and the supernatural spanning the late eighteenth century to the present and of related theoretical approaches to the realm of dark writing It argues that such narratives are objects for historical analysis due to their implication in specific ideologies while also focusing on the recurrence over time of themes of physical and psychological disintegration spectrality and monstrosity This is an excellent overview of a genre that is increasingly studied in literature film and cultural studies courses
