Elections Without Choice G. Hermet, 1978-06-17 **Decisions and Orders of the National Labor Relations Board** United States. National Labor Relations Board, 2001 **Decisions of the National Labor Relations Board** United States. National Labor Relations Board, 1935 **Legislative History of the National Labor Relations Act, 1935**, 1985 **The French Presidential and Legislative Elections of 2002** John Gaffney, 2018-01-18 The French elections of 2002 provided an opportunity to assess the political development of the regime and in particular developments within the complex phenomenon of French presidentialism within a party system In this thorough analysis John Gaffney looks at the institutional political and electoral moments of 2002 which saw both presidential and legislative elections and a major upheaval in the political life of France Bringing together a range of scholars the volume includes contributions from historians political scientists economists cultural studies experts and media experts to offer a thorough and textured analysis of French politics
Legislative History of the National Labor Relations Act, 1935 United States. National Labor Relations Board, 1949
Law Relating to Elections, **Journals of the House of Commons** Great Britain. Parliament. House of Commons, 1803 **Russia's Authoritarian Elections** Stephen White, 2014-06-11 Russia is the world's largest country and its politics affect the entire international community Formally who exercises the power of government is decided as in Western democracies by competitive elections that are held at regular intervals But there have increasingly been doubts about the extent to which Russian parliamentary and presidential elections can be considered free and fair and it is the argument of this coauthored study that they are better defined as authoritarian elections with a number of distinct characteristics Using a wide range of sources including surveys election statistics interviews focus groups and the printed press the contributors to this important collection analyse Russia's authoritarian elections in a variety of ways how they are conducted what citizens think about them and how the Russian experience relates to a wider international context Elections are the central mechanism by which citizens can seek to hold their government to account this collection shows the ways in which that mechanism can be manipulated from above such it becomes more of an extension of central authority than a means by which the public at large can impose their own priorities This book was originally published as a special issue of *Europe Asia Studies* **The history of England** David Hume, 1826 Federal Register, 2012-06 **National Labor Relations Board** United States. Congress. Senate. Committee on Education and Labor, 1935 **A Socio-Political Model of Lies in Russia** Jason C. Vaughn, 2016-04-29 This book is written to examine Russian public opinion culture and society in the context of the lies liars and untruths consistent with but not exclusively part of the rule of Russia's second and fourth post Soviet President Vladimir Vladimirovich Putin Then it is to assess what future there is for Russia in view of Russia's peculiar socio political culture of parallel truth and untruth Based on new research literature and historical examination of untruth in Russia using political social cultural media and public opinion analysis this study develops and applies a new and novel

approach or model s to the study of lies in Russia Further this book seeks to provide an understanding of Russia s socio political environment to outsiders not versed in the ins and outs of the influences causes and reasoning for the Russian government s and the Russian public s reactions to publicized events **Journals of the House of Commons** Great Britain House of Commons,1803 Social Capital and Social Cohesion in Post-Soviet Russia Judyth L. Twigg,Kate Schechter,2016-09-16 This work shows that the collapse of socialist employment and social service systems and of the USSR itself has had profoundly damaging effects manifested in dislocation and homelessness ethnic strife family breakdown declining life expectancy and soaring rates of violence and crime *Misinterpreting Modern Russia* Bruno S. Sergi,2009-07-01 When President Vladimir Putin ascended to the Kremlin at the end of the 1990s he had to struggle with the after effects of Boris Yeltsin s political agenda outrageous corruption endless social injustice and deeply entrenched interests dating back to Gorbachev and beyond From the outset Putin saw his task as leveling out the political scenery Discontent had been building up among ordinary Russians on these consequences of the dramatically unstable 1990s Stabilization of the political system and cleaning up the widespread corruption were Putin s aims and the Russian people supported him wholeheartedly Many observers in the West were quick to condemn Putin and depict him as an authoritarian dishonest leader who was still linked to the KGB When asked why Russians were supporting the new Kremlin many experts explained that it was a paradox that combined the country s supposed history of tyranny and its people s inclination towards it These explanations shaped the West s understanding of modern Russia and they appear to be unshakeable in cultural circles today Bruno Sergi argues in this new study that the way to know the complete story behind how Putin s presidency has been viewed in Russia is to examine closely the hard realities that conditioned Putin s policies and responses *Misinterpreting Modern Russia* Western Views of Putin and his Presidency looks beyond the stereotypes to the hard logic of the 1990s and asks a range of provocative questions about the disintegration of the old Soviet empire and the extraordinary riches that have caused so much opportunity and turmoil in recent years *International Organizations and Internal Conditionality* R. Fawn,2013-11-12 This book explores how norms based international organizations namely the Council of Europe and the OSCE are still able to win in world politics Fawn uses the concept of internal conditionality to explain how these organizations have been able to respond to members with a lack of material incentives or instruments of coercion 108-1
