Southerners when they meet a stranger Most of us know very little of our ancestors John Bishop XIII was born into a line of wealthy savvy thrifty Scottish descendants who made him a very wealthy man but his parents had never wanted children He was conceived by accident and his father tried to have the fetus aborted John's mother did love him but he was relegated to a place behind her illustrious musical career His father simply ignored him Their self-centered lack of empathy would lead to their murders and to several attempts on John's life John found solace in his own music as he struggled to regenerate himself

**The Ultimate Art** David Littlejohn, 1992-01-01 Discusses how opera embraces human emotion and experience Western culture and individual psychology      **Word and Music Studies** , 2016-08-29 The eighteen interdisciplinary essays in this volume were presented in 2001 in Sydney Australia at the Third International Conference on Word and Music Studies which was sponsored by The International Association for Word and Music Studies WMA The conference celebrated the sixty fifth birthday of Steven Paul Scher arguably the central figure in word and music studies during the last thirty five years The first section of this volume comprises ten articles that discuss or are methodologically based upon Scher's many analyses of and critical commentaries on the field particularly on interrelationships between words and music The authors cover such topics as semiotics intermediality hermeneutics the de-essentialization of the arts and the works of a wide range of literary figures and composers that include Baudelaire Mallarmé Proust T S Eliot Goethe Hölderlin Mann Britten Schubert Schumann and Wagner The second section consists of a second set of papers presented at the conference that are devoted to a different area of word and music studies cultural identity and the musical stage Eight scholars investigate and often problematize

widespread assumptions regarding national and cultural music language plots and production values in musical stage works Topics include the National Socialists construction of German national identity reception based examinations of cultural identity and various national opera styles and the means by which composers librettists and lyricists have attempted to establish national or cultural identity through their stage works *The American Hebrew* ,1923 The Columbia Anthology of Modern Chinese Drama Xiaomei Chen,2010-10-29 The first of its kind in English this anthology translates twenty two popular Chinese plays published between 1919 and 2000 accompanied by a critical introduction to the historical cultural and aesthetic evolution of twentieth century Chinese spoken drama Primarily comprising works from the People s Republic of China though including representative plays from Hong Kong and Taiwan this collection not only showcases the revolutionary rethinking of Chinese theater and performance that began in the late Qing dynasty It also highlights the formation of Chinese national and gender identities during a period of tremendous social and political change along with the genesis of contemporary attitudes toward the West Early twentieth century Chinese drama embodies the uncertainty and anxiety brought on by modernism socialism political conflict and war After 1949 PRC theater painted a complex portrait of the rise of communism in China with the ideals of Chinese socialism juxtaposed against the sacrifices made for a new society The Cultural Revolution promoted a model theater cultivated from the achievements of earlier leftist spoken drama even though this theater arose from the destruction of old culture Post Mao drama addresses the socialist legacy and the attempts of a wounded nation to reexamine its cultural roots Taiwan s spoken drama synthesizes regional and foreign traditions and Hong Kong s spoken drama sparkles as a hybrid of Chinese and Western influences Immensely valuable for cross disciplinary comparative and performance study this anthology provides essential perspective on China s theatricality and representation of political life

*Opera Cinema* Joseph Attard, 2022-06-16 Since 2006 leading opera companies have beamed their shows to thousands of cinema screens all over the world live Opera cinema is the most successful marriage of this elaborate esoteric art form and the silver screen In the twenty first century more people watch opera on cinema screens than the stage But what is different about watching Massenet at the multiplex compared to a traditional stage performance Is opera cinema a new hybrid art form in its own right or merely a new way of engaging with an old one Is it bringing new opera fans into the fold Is there a danger it could one day eclipse the stage altogether This book deals with these questions by charting the history of opera transmissions exploring how digital media changes our relationship with culture and inviting a group of opera virgins to give their impressions on this developing cultural experience
